Kills and prevents algae.
Non-metallic, non-fusing
This product reduces green and blue-green algae in pools. It will not harm pool surfaces or equipment and is compatible with most other pool chemicals.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

IMPORTANT NOTES
1. Do not allow swimming in pool for at least 15 minutes after this product has been applied.
2. Always apply this and other pool treatment chemicals separately. Never combine them.
3. Extreme, rainy, temperature, number of swimmers and frequency of pool use, all affect the outcome of which chemical will be most effective. Adjust your pool cleaning and maintenance functions accordingly.
4. This product may foam and therefore should not be used for spa treatment.

BEFORE YOU BEGIN
1. Make sure all pool equipment is working properly including pump, filter, skimmer, and heater. Allow the filter to run for at least 6 hours after algaeicide.
2. Backwash filter, following normal procedures for your pool filter.
3. Check pH (alkalinity) balance with a test kit, following label directions. The desired pH range is between 7.2 - 7.8. If necessary, adjust pH by adding pH decreaser to lower pH or pH increaser to raise pH.
4. Recheck pH and maintain it between 7.2-7.8 for at least 6 hours before adding this product.
5. Add this product directly into pool by pouring around entire outside perimeter of pool.

INITIAL APPLICATION FOR SWIMMING POOL
1. Vacuum algae debris to waste and thoroughly brush pool.
2. Add 1/8 oz. of this product to each 10,000 gallons of water or ratio thereof. Add this product directly into pool by pouring around entire outside perimeter of pool.
3. Vacuum pool after 24 hours to remove dead algae.
4. If algae is still visible repeat dose times 2-5 as necessary until pool is free of visible algae.
5. Once algae is under control, clean filter and return to normal operation.

MAINTENANCE Dose: Add 1/8 oz. of this product to each 10,000 gallons of pool water. Maintenance dose should be added weekly. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently. Maintenance dose should be added after a heavy or prolonged rainfall.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1/8 oz. of this product for each 1000 gallons of fresh make-up water added.

When swimming season is over, add maintenance dose prior to closing pool. This dose helps provide a measure of control of algae growth through the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When this product is used as directed, it is effective against Chlorella pyrenoidosa (green algae), and Planktonic clostridium (mustard algae), and other swimming pool algae and slime producing microorganisms.

For persistent algae or slime producing microorganisms, add 5-7% of this product into the skimmer with the filter pump running. After one minute, shut off the pump and allow the system to remain off overnight. The following day, re-start the filter pump and add 5-7% of this product to the pool. Run the filter continuously for 24-48 hours, brushing the sides and bottom of the pool.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Harmful if absorbed through the skin. Do not breathe vapor. Do not get into eyes, or skin or on clothing. Wear protective eyewear, gloves, and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD: This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS: This product is caustic. Do not use or store near heat or open flames. Do not mix with any other chemicals.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or giving treatment.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 10-15 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Protrude mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL: Store in original container and place in locked storage area. Keep from freezing. Do not contaminate water, food, feed by storage or disposal. Small spills may be absorbed on absorbent material. Wrap container and put in trash. Securely wrap original container in several layers of newspaper and discard in trash.

ACTIVE INGREDIENT:
Didecyl dimethyl ammonium chloride: 50.00%

INERT INGREDIENTS: 50.00%

TOTAL: 100.00%
