**Precautionary Statements**

**Hazards to Humans and Domestic Animals**

**Caution**

- Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

**First Aid**

**If On Skin Or Clothing:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

**If In Eyes:**
- Hold eyelids open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**Hotline Number**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact (800)-289-9675 for emergency medical treatment information.

**Note to Physician**

This product is a pesticide. If large amounts have been ingested, milk, cream or other dairy products may be helpful. Absorption and so should be avoided.

**Environmental Hazards**

- This pesticide is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters.

**Directions for Use**

- It is a violation of Federal law to use this product in a manner inconsistent with the labeling.
- This product is designed for use as a ready-to-use granular insecticide to control various insects and spiders on lawns, home interiors, ornamental and flower gardens. See specific pests for recommended level. Spraying or washing with 0.1 to 0.2 inches immediately after application generally improves the effectiveness of this product. Please read the following "Directions for Use" carefully and fully before applying this product.
- In New York State, this product may NOT be applied to any grass or turf area. (1) within 100 feet of a water body (lake, pond, river, stream, wetland, or drainage ditch).
- In New York State, do not make a single repeat application of this product if there are signs of renewed insect activity, but no sooner than two weeks after the first application. Do not allow children or pets to enter the area until dry. Application is prohibited directly into sewers, drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat may occur. Do not allow the product to enter any drain during or after application. Apply this product directly to the lawn or garden area. Water treated area as directed on this label. Do not water to the point of runoff. Do not make applications during rain.

**Law, Home Perimeter, Ornamental, & Flower Gardens - Surface Feeding Insects**

- Use this product for the control of ants, including Carpenter, Red Harvester, Gaboon Pygmy, Pharaoh (Egyptian) and Fire Ants, Fire-tipped Ants, Armyworms (including Fall Armyworms), Billbugs (including Black Ribbon), Grubs, Chinch Bugs, Caterpillars, including Black Cutworm, Japanese Beetles, Grasshoppers, Meadowlark, Whitefly, and Webworms (young Moths), Worms, and Weevils (including Hydroporus and Blue-grain). Uniformly apply 2 to 4 ounces over a 100 square foot area. Treat when insects first appear and retreat as necessary. Repeat application is necessary only if there are signs of renewed insect activity. Repeat application should be limited to no more than once per seven days.

- Ants in control
- Argentine Ants, Black Tart Ants, Black Tarwhin Ants, Fieber Ants, (including Cat Tails), Leafhoppers, Spiders (including Brown Recluse Spiders) and Ticks (including Brown Dog Tick).

- Uniformly apply 4 ounces over a 100 sq. ft. area. Best results are obtained if the treated area is thoroughly watered immediately after application.
- Centipedes, Millipedes, Pavement Ants
- Uniformly apply 4 ounces over a 100 sq. ft. area. Best results are obtained if the treated area is thoroughly watered immediately after application.
- Mole Crickets (including Eighteen Mole Cricket)
- Uniformly apply 4 to 6 ounces over a 100 sq. ft. area. For best results, treat in late spring, and water the treated area immediately after application.
- For Fire Ant Mounds
- To control fire ants, uniformly apply 1 tablespoon or 3 teaspoons** of this product to the surface of each mound. For best results, 1) apply in cool weather (60 to 70°F) or in early morning or late evening hours, 2) avoid disturbing ants, 3) treat new mounds as they appear and 4) thoroughly water treated area immediately after application.

**Food stains such as tablecloths/hosepipes must not be used for food purposes after use in measuring pesticides.**

**Ornamental Flower Beds (Outdoors)**

- Pests Controlled: Ants, crickets, earwigs, grasshoppers, spiders, andlice

- How to Apply: Evenly apply 2 ounces of product for every 50 sq. ft. area. Repeat application as necessary only if there are signs of renewed insect activity. Repeat application should be limited to no more than once per seven days.

**Home Invading Insects: Barrier Treatment Around House Foundation (Outdoors)**

- Pests Controlled: Ants, crickets, earwigs, grasshoppers, spiders, andlice

- How to Apply: Evenly apply 0.5 lbs. of granules next to the house foundation. Use 1 tablespoon for each 50 sq. ft. area. If necessary, repeat applications every 2 weeks only if there are signs of renewed insect activity.

**Storage and Disposal**

- Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage**

- Keep out of reach of children and animals. Store in original container only. Store in a cool dry place and avoid excess heat. Carefully open container with handle to use inside the container. Discard container after use. Do not re-use the container. Keep container in original packaging.

**Caution**
