PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: KEEP OUT OF REACH OF CHILDREN. CORROSIVE. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. May be fatal if inhaled. Do not breathe spray mist. Harmful if swallowed or absorbed through skin. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Enverros SanMaster 4 uses live enzyme and bacteria. It is specially formulated to be non-toxic to flourishes. Enverros SanMaster 4 is for use on non-food contact surfaces in hospitals, running homes, schools and colleges, veterinary clinics, animal life science laboratories, and hotels. Enverros SanMaster 4 is a broad-spectrum germicidal cleaner and deodorant that is effective at 1:12.95 parts per gallon (ppg) in the presence of 0.04% pH neutral water (calculated as Ca(OH)2) plus 5% organic soil based mixture.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on critical and semi-critical medical device surfaces.

GENERAL CLEANING

Apply Enverros SanMaster 4 to soiled area with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer. This product can be diluted at 1:12.5 dilution in 400 ppm water (calculated as CaCO3) and 5% organic soil based mixture. Enverros SanMaster 4 will kill Aspergillus niger when applied to food, non-surface soils. Allow surfaces to remain wet for 10 minutes and let dry. Repeat if needed to reduce growth.

MILDERTICAL ACTIVITY: At a 1:12.95 dilution in 400 ppm water (calculated as CaCO3) and 5% organic soil based mixture. Enverros SanMaster 4 will kill Aspergillus niger when applied to food, non-surface soils. Allow surfaces to remain wet for 10 minutes and let dry. Repeat if needed to reduce growth.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleansed from surfaces and objects before application of this product.

CONTACT: HW-V1 is active after a 30 second contact time. HW-V2 is inactivated after a three minute contact time. HW is inactivated after five minute contact time. Use either a 5 or 10 minute contact time for other organisms, as stated on the label.

DISPOSAL OF INFECTION MATERIALS: Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

NON-ACID TOILET BOWL DISINFECTANT DIRECTIONS: Remove gross film prior to disinfection.

From CONCENTRATE: Add 1 ounce per gallon to the toilet bowl and mix. Brush thoroughly over exposed surfaces and under the rim. Allow to stand for 10 minutes and flush.

From USE SOLUTION: Empty toilet bowl or urinal and apply 1 ounce per gallon use solution to exposed surfaces. Brush or scrub thoroughly under the rim with a cloth, mop, or sponge. Allow to stand for 10 (10) minutes, then flush.

BACTERIAL ACTIVITY:

Bactericidal in 10 minutes against: Pseudomonas aeruginosa ATCC 15492, Staphylococcus aureus ATCC 6538, Staphylococcus epidermidis ATCC 10592 and Enterococcus faecalis ATCC 10546.

Bactericidal in 5 minutes against: Escherichia coli ATCC 10536, Enterococcus faecalis ATCC 19481, Enterococcus faecium ATCC 45073, Proteus mirabilis ATCC 12228, Pseudomonas aeruginosa ATCC 27853, Staphylococcus epidermidis ATCC 14999, Enterococcus faecalis ATCC 23715, Salmonella typhimurium ATCC 12078, Listeria monocytogenes ATCC 1647, Klebsiella pneumoniae ATCC 13883, Salmonella pullorum ATCC 940.

ANTIBACTERIAL with a BACTERIA: Vancosporin resistant Enterococcus faecalis (VRE), Quinolone-resistant (MRGQ) Acinetobacter baumannii (ATCC 19609), Korsannon Intermediate Resistant Staphylococcus aureus (MRISA) ATCC 700666, Extended Spectrum Beta-Lactamase (ESBL), Carbapenem-resistant Enterococcus faecium (CPE), and Methicillin-resistant Staphylococcus aureus.

Kills Pseudomonas 2009 HWI, Influenza A, Influenza B.

STORAGE AND DISPOSAL

Do not refrigerate, freeze, or store under freezing conditions. Do not use on food. Do not use on rubber, metal, plastic, or synthetic surfaces. Do not store in the presence of strong detergents or cleaning agents. Do not use on skin. Do not store in presence of strong detergents or cleaning agents. Do not use on rubber, metal, plastic, or synthetic surfaces. Do not store in the presence of strong detergents or cleaning agents. Do not use on skin. Do not store in the presence of strong detergents or cleaning agents. Do not use on rubber, metal, plastic, or synthetic surfaces.

Pesticide Storage: In a dry place as low in temperature as 50°F or higher than 120°F. Container is non-flammable. Non-flammable container. Do not dispose of container. Store dry at room temperature.
