Trilux 33

Trilux 33 Antifouling paint is formulated specifically for aluminum outboards, stability and aluminum hulls in underwater areas. Trilux 33 contains two biocides and Bialux technology for protection from all types of fouling. Bialux Technology is used to control algae growth. Trilux 33 is for use in fresh, salt and brackish water.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is intended for use by boat owners in residential or marine settings on pleasure craft or workboats.

BARE ALUMINUM:
1. Sand with medium grit emery cloth and apply Kyn-Laud Primewash 335254. Apply a full coat of Princeton YARIS primer.
2. PREVIOUSLY PAINTED (with Trilux 23 or Trilux Prep & Primer) Sand with 60 grit sandpaper. Apply 2 coats of Trilux Prep & Primer. Apply a full coat of Trilux 33 as specified below.
3. APPLICATION
   a. Apply Trilux 33 only after priming with Princeton Primer.
   b. Shake can, keep out of direct sunlight and continue shaking at least 1 minute.
   c. Hold container 15-18” from hull.
   d. Apply 2 coats of Trilux 33. Apply 1 coat of Trilux 33 in 15-30 minutes. Apply 2 coats. Allow proper dry time between coats.
   e. Inspiration: Apply all coats in full coats. Apply 2 coats. Allow proper dry time between coats.
   f. Before application, perform a test to determine if the paint is adequately dry. Proper dry time is 30 minutes.
   g. Boats are ready for use when the Trilux 33 is completely dry. Allow a minimum of 2 hours at 75°F or 12 hours at 50°F dry time between coats.

PRECAUTIONARY STATEMENTS

DANGER

HAZARD TO HUMANS AND DOMESTIC ANIMALS

Carcinogen skin irritation. Causes severe but temporary eye injury. Harmful if absorbed through skin, swallowed or inhaled. Avoid contact with skin, eyes, or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, smoking, or using the restroom. Wear chemical resistant gloves (such as nitrile or latex) and long-sleeved cotton shirt, long pants, socks, and shoes. For overhead exposure, wear chemical-resistant headgear. Wear protective eyewear (goggles, safety glasses, or face shields). When spraying paint or sanding or sandblasting boat surfaces, wear a mask or respirator approved by the Mine Safety and Health Administration (MSHA) and the National Institute for Occupational Safety and Health (NIOSH). Remove and wash contaminated clothing before reuse.

FIRST AID

If swallowed:
1. Immediately call a poison control center or doctor immediately for treatment advice.
2. DO NOT give any liquid to the person.
3. Do NOT induce vomiting unless told to do so by a poison control center or doctor.
4. DO NOT give anything by mouth to an unconscious person.

If an eye or clothing:
1. Take off contaminated clothing.
2. Rinse skin immediately with plenty of water for 15-20 minutes.
3. Call a poison control center or doctor for treatment advice.

If inhaled:
1. Move person to fresh air.
2. If person is unconscious, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
3. Call a poison control center or doctor for further treatment advice.

If in eyes:
1. Hold eye open and rinse slowly and gently with water for 15-20 minutes.
2. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye.
3. Call a poison control center or doctor for treatment advice.

OTHER:
1. Do not puncture or incinerate containers. In case of unusual paint shipments, follow all national and local handling requirements.

PHYSICAL OR CHEMICAL HAZARD:
Extremely flammable. Contents cause pressure. Keep away from heat, sparks, open fire or heated surfaces. Do not use near or on combustible vehicle. Exposure to temperature above 130 degrees F may cause bursting.

ENVIRONMENTAL HAZARD:
This material is toxic to fish. Do not apply directly to water toITY of equipment or disposal of waste. Do not allow chips and dust generated during paint removal to enter the stream or aquatic systems. Do not discharge effluents containing this product into lakes, streams, ponds, beaches, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in advance. Do not discharge effluents from this product to water systems without prior notice to the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

SAFE HANDLING INSTRUCTIONS:
Do not combust waste, food, feed by smoking or disposal. Do not contaminate food, fuel, food, feed by disposal or disposal. Do not contaminate food, fuel, food, feed by disposal or disposal. Do not contaminate food, fuel, food, feed by disposal or disposal. Do not contaminate food, fuel, food, feed by disposal or disposal. Do not contaminate food, fuel, food, feed by disposal or disposal.

Trilux 33

Trilux 33 Antifouling paint is formulated specifically for aluminum outboards, outboards and aluminum hulls in underwater areas. Trilux 33 uses high-quality and biocidal technology for protection from all types of fouling. This technology is used to control slime growth. Trilux 33 is for use in fresh, salt and brackish water.

DIRECTIONS FOR USE

1. Stir thoroughly prior to use. This product is a mixture of non-dissolving pigments, and some settling may occur.
2. Apply Trilux 33 immediately after priming with Primer Primer. (See instructions for use on the primer label)
3. Allow primer to dry before application. Allow a minimum of 12 hours or 24 hours at 70°F or 16 hours at 50°F prior to launching.
4. If too much paint is applied, it should be sanded and reprimed.
5. Clean brushes, rollers and sprayers with Trilux 33 cleaner.

APPLICATION

Apply Trilux 33 early after priming with Primer Primer. (See instructions for use on the primer label.)

PRECAUTIONARY STATEMENTS

DANGER

HAZARD TO HUMANS AND DOMESTIC ANIMALS

Causes skin burns. Causes substantial increases in body temperature. Harmful if absorbed through skin, swallowed or inhaled. Avoid contact with skin, eyes, or clothing. Avoid breathing of spray or vapor. Wash thoroughly with soap and water after handling and before eating, drinking, smoking, or touching any face areas. Wear chemical-resistant boots and shoes, rubber gloves, rubber sleeves, rubber apron, rubber pants, and protective clothing. For overexposure, wear chemical-resistant overalls. Use personal respiratory protection equipment for up to 100 ppm.

FIRST AID

1. If swallowed:
   - Do not induce vomiting.
   - Give 1/2 cup of water. If symptoms do not improve, contact a physician.

2. If not swallowing:
   - Provide water to drink.
   - If symptoms do not improve, contact a physician.

3. If skin or eye contact:
   - Remove contaminated clothing. Wash with soap and water for at least 15 minutes. If symptoms do not improve, contact a physician.

4. If on skin:
   - Wash with soap and water for at least 15 minutes. If symptoms do not improve, contact a physician.

5. If on eyes:
   - Rinse with cool water for at least 15 minutes. If symptoms do not improve, contact a physician.

6. If inhaled:
   - Move to fresh air.
   - If symptoms do not improve, contact a physician.

7. Do not inject into the body.

8. Provide artificial respiration if necessary.

9. If heart attack or stroke:
   - Do not attempt to give anything by mouth.

10. Do not inject.

PREVENTIVE MEASURES

Keep out of reach of children.

DISCLAIMER

The performance of any marine paint or coating depends on many factors including the condition of the boat and the environment in which it is used. The manufacturer cannot assume responsibility for any injuries, damages, or losses, or any form of damage to the boat if the instructions are not followed. The user of this product must know how to use it properly, as well as the safety precautions. The manufacturer cannot be held responsible for any injuries, damages, or losses caused by the use of this product, even if the instructions are not followed.
Trilux 33

Trilux 33 is an anti-fouling paint intended specifically for aluminum outboard, outboards and aluminum hulls in seawater areas. Trilux 33 can be used to protect aluminum surfaces from marine growth and is ideal for use on outboards and aluminum hulls.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is intended for use by boat owners in freshwater or marine settings on pleasure craft or workboats.

FOR ALUMINUM OUTBOARDS, OUTBOARDS AND HULLS

PEVSENSIA® PAINTS: With Primer 33 or Primer Paint & Primer Sand with 1:1:1 coat of Primer. Apply 3 coats of Primer 33, followed by 3 coats of Trilux 33 as specified below.

APPLICATION

Apply 3 coats of Primer 33 after priming with Primer Varnish Primer. Then:

1. Optional, clean, then prime with Primer Varnish Primer, sand, and apply 3 coats of Primer 33, followed by 3 coats of Trilux 33 as specified below.

2. Apply 2 coats of Trilux 33, followed by 2 coats of Primer Varnish Primer, followed by 3 coats of Trilux 33, followed by 3 coats of Primer Varnish Primer.

3. Apply 1 coat of Trilux 33, then Primer Varnish Primer, followed by 3 coats of Trilux 33, followed by 3 coats of Primer Varnish Primer.

4. For application to hulls, apply 2 coats of Primer Varnish Primer, followed by 3 coats of Trilux 33, followed by 3 coats of Primer Varnish Primer.

COVERAGES: One can of Trilux 33 will cover 25 square feet. For best anti-fouling protection, use entire can of primer and Primer Varnish Primer for each coats.

When finished priming, rinse, sand down, and apply the first coat of Trilux 33. When finished priming, rinse, sand down, and apply the first coat of Trilux 33. When finished priming, rinse, sand down, and apply the first coat of Trilux 33. When finished priming, rinse, sand down, and apply the first coat of Trilux 33.

IN USE: Apply Trilux 33 as specified below.

PRECAUTIONARY STATEMENTS

DANGER: HAZARD TO HUMANS AND DOMESTIC ANIMALS

Causes skin burns. Causes substantial but temporary eye injury. May cause respiratory irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the restroom. Wear chemical resistant suit and gloves when handling. Use respiratory protection when spraying.

FIRST AID:

1. Call a poison control center or doctor immediately for treatment advice.
2. Do not give any liquid to the person.
3. Call a poison control center or doctor immediately for treatment advice.
4. Do not give anything by mouth to an unconscious person.
5. Do not give anything by mouth to an unconscious person.
6. Do not give anything by mouth to an unconscious person.
7. Do not give anything by mouth to an unconscious person.
8. Do not give anything by mouth to an unconscious person.
9. Do not give anything by mouth to an unconscious person.
10. Do not give anything by mouth to an unconscious person.
