ACTICIDE® MBS

ENVIRONMENTAL HAZARDS
This product is toxic to terrestrial and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewers systems without previously notifying the local sewage treatment plant authority.

STORAGE AND DISPOSAL

Provisions: This product is corrosive to mild steel. Do not store in unlined metal containers. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

PESTICIDE DISPOSAL: Pesticide waste is acutely hazardous. Improper disposal of excess pesticide or Rinse is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL
Non-refillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: (For containers < 5 gallons in size) - Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/2 full with water and recirculate for 10 minutes. Pour rinsate into application equipment or a mix tank and store rinsewater for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. (For containers > 5 gallons in size) - Empty the remaining contents into application equipment or a mix tank. Fill the container 1/2 full with water. Repeat, and rinse to the first closure. Pour container on the side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end, and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsewater for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

EPA Reg. No. 67071-29  EPA Est. No. 67071-DEU-001
Manufactured By For: Thor GmbH
D-67948 Speyer, Germany
U.S. Office: Thor Specilites, Inc.
50 Waterview Drive, Shelton, CT 06484 USA
Tel. (203) 815-6868

Active Ingredients:
1,3,5-Benzodioxazol-2-one 2.5%
2-Methyl-4-tertbutylphenol 3.0%

Total: 10.0%

ACTICIDE® MBS microbeide weight 8.6 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

DANGER

See Side panel for additional precautionary statements

FIRST AID
If In Eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes.
Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Contact poison control center or doctor for treatment advice.

If on Skin or clothing:
Take off contaminated clothing.
Rinse skin immediately with plenty of water for 15-20 minutes.
Call a poison control center or doctor for treatment advice.

If Swallowed:
Call a poison control center or doctor immediately for treatment advice.
Have person sip a glass of water if able to swallow.
Do not induce vomiting unless told to do so by the poison control center or doctor.
Do not give anything by mouth to an unconscious person.

If Inhalated:
Move person to fresh air.
If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
Call a poison control center or doctor for further treatment advice.

Note to physician: Probable mucosal damage may be manifested by the use of gastric lavage.

HOT LINE NUMBER: In case of emergency, for additional information call toll free at 1-800-424-9300. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

For Transportation / Spill Emergencies: Call Chemtex at 1-800-424-9300

U.S. PATENT NO. 6,361,788 B1

Precautionary Statements:
Hazards to Humans and Domestic Animals

DANGER

Corrosive. Causes irreversible eye damage. Do not get in eyes, or on clothing. Harmful if swallowed. Harmful if absorbed through the skin. Avoid contact with skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear goggles or face shield, long-sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves made of any waterproof material. Remove PPE immediately after handling this product. Follow manufacturer's instructions for cleaning/maintaining PPE. If no wash instructions for washable glove, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard footing and other absorbent materials that have been damaged or heavily contaminated with this product's concentrate. Do not reuse them. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing/PPE immediately. Then wash thoroughly and change into clean clothing. Do not apply this product in a way that will contact workers or other persons.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Industrial microbiocide for use in polymer laminates, paints and coatings, building materials, adhesives and "fastifiers," mineral slurries, "activitives" for paper and paperboard, "oil-in-water emulsions, as an in-container preservative for aqueous products, for use in household consumer, industrial, janitorial products, pet litter, "metal working fluids, and "textile/cordage products and "taste-free fibres-making. Read and follow the directions for use on the accompanying information sheet.

Not approved for use on the state of California.

CONDITIONS OF SALE AND WARRANTY

Thor GmbH warrants that this product contains its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with sheet and labeling directions under normal conditions of use. THOR GMBH MANUFACTURING EXPLICIT OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. HANDLING, STORAGE AND USE OF THE PRODUCT BY SELLER OR USER ARE BEYOND THE CONTROL OF SELLER OR USER. SELLER MAKES NO WARRANTIES OR REPRESENTATIONS OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED, WHETHER IN CONTRACT OR IN TORT OR OTHERWISE, INCLUDING THE WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. SELLER SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.
# ACTICIDE® MBS INFORMATION SHEET

THIS ACTICIDE® MBS INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® MBS

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

<table>
<thead>
<tr>
<th>PRESERVATIVE FOR LATICES:</th>
<th>0.1 – 0.5%</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTICIDE® MBS microbiocide is recommended for the control of bacteria and fungi in the manufacture and storage of synthetic and natural polymer latices (including process wash solutions) including: acrylics, styrene-butadiene, carboxylated styrene-butadiene, ethylene-vinyl acetate and biopolymers intended for industrial use such as xanthan gum, gum arabic, guar gum, protein derived polymers, starches and casein derived polymers including latices for paper and paperboard.</td>
<td>Add 1.0 - 5.0 lbs. (0.45 - 2.27 kg) to 1000 lbs. (454 kg) of emulsion to provide 50 - 250 ppm active ingredient.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>PRESERVATIVE FOR PAINTS AND COATINGS:</th>
<th>0.1 – 0.5%</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACTICIDE® MBS microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in water based coatings such as paper and wood coatings and paints (including process wash solutions) used for architectural product finishes and *special purpose coatings.</td>
<td>Add 1.0 - 5.0 lbs. (0.45 - 2.27 kg) to 1000 lbs. (454 kg) of paint, coating fluid formulation, or polymer latex to provide 50 - 250 ppm active ingredient.</td>
</tr>
</tbody>
</table>

*Special purpose coating uses: Include use as a preservative for:

- electrodeposition paints or solutions
- electroplating solutions or coatings
- fount (or fountain) solutions used in the printing process as a maintenance fluid/coating and as a special coating for printing plates, and
- spin finish coatings for fibers.

The application/addition directions for these special purpose coating uses are:

*Electrodeposition: ACTICIDE® MBS microbiocide is recommended as a tankside additive for the control of bacteria, fungi, and algae in re-circulating electrodeposition systems and associated rinse systems. Alternately, ACTICIDE® MBS microbiocide may be added through the components of the electrodeposition paint prior to their addition to the electrodeposition system.
ACTICIDE® MBS
INFORMATION SHEET

THIS ACTICIDE® MBS INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® MBS

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*Tankside Addition to Electrodeposition Systems:
ACTICIDE® MBS microbiocide should be dispensed into the recirculating rinse system, ultrafilter permeate, or final distilled rinse system at a point to insure uniform mixing. When the system is noticeably fouled, add up to 0.6% ACTICIDE® MBS microbiocide (based on the total gallons of fluid in the system). Repeat until control is achieved. When microbial control is evident, add up to 0.6% ACTICIDE® MBS (based on the total gallons of fluid in the system) weekly or as needed to maintain the system. A change of frequency of treatment may be required depending on the rate of dilution of the preservative with the makeup fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc.

* Not approved for this use in the state of California

*Treatment of Electrodeposition Paint Components:
Initial Dose of Paint Components: ACTICIDE® MBS microbiocide should be added to the resin, pigment, or other component of the electrodeposition paint at a level to ensure that the final use-dilution fluid will contain no more than 250 ppm isothiazolones.

* Not approved for this use in the state of California

*Photoplate Processing, Photo Processing, Fountain Solutions, and Ink/Ink Components:
ACTICIDE® MBS microbiocide is recommended for the control of bacteria and fungi in photo plate processing such as stabilizer solutions and in fountain solutions. ACTICIDE® MBS microbiocide is recommended for water-based printing inks such as flexographic, gravure, screen and ink jet types. ACTICIDE® MBS microbiocide is recommended for the control of bacteria and fungi in printing ink components such as resins, plasticizers, water soluble dyes, pigments, gelling agents, waves, surfactants, and thickeners. ACTICIDE® MBS microbiocide should be added to achieve the recommended dosage range for ink, ink components, fountain solutions and photo plate processing chemicals of 0.1% to 0.5% on a total weight basis. A level adjustment may be necessary to accommodate the slight change in solution formulations. Up to 500 lb ACTICIDE® MBS per 1,000 lbs of concentrate may be added to concentrates so long as the final use-dilution product contains not more than 250 ppm active ingredients (a dilution of 100x).

*Not approved for this use in the state of California

NOTE: To insure uniform mixing, add ACTICIDE® MBS microbiocide to latex or solution slowly with agitation. The actual concentrations required will depend upon such factors as the specific substance to be treated, frequency of repeated microbial contamination expected and level of protection required.
