PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER, CORROSIVE.
Causes irreversible eye damage and skin burns. Harmful if swallowed.
Do not get in eyes, on skin, or on clothing. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and protective gloves (rubber or chemical resistant), Harmful if inhaled.
Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information call 1-888-322-0912 (24 hours, 7 days a week).

NOTE TO PHYSICIAN
Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Open dumping is prohibited. Store in original container in areas inaccessible to children.
Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsewater is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Container Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Fill container 1/4 full with water and reclose the container. Agitate vigorously, and dispose of rinsewater consistent with pesticide disposal instructions. Repeat two more times. Then offer for recycling if available or puncture and dispose in sanitary landfill or by other procedures approved by state and local authorities. Follow pesticide disposal instructions for rinsewater. If not triple rinsed, these containers are acute hazardous waste and must be disposed in accordance with local, state, and federal regulations.

Virustat DC Plus™

Disinfectant Cleaner
Concentrated

Active Ingredients:
Didecyl dimethyl ammonium chloride.......................................................... 10.14%
n-Alkyl (C<sub>14</sub> 50%, C<sub>12</sub> 40%, C<sub>10</sub> 10%) dimethyl benzyl ammonium chloride....... 6.76%
Inert Ingredients:.......................................................................................... 83.10%
Total:.............................................................................................................. 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER

Net Contents: 1 GAL (128 fl. oz.) / 3.78 L
BPR049001-A

Brighton Professional™
Virustat DC Plus™
One-Stop Disinfectant
Germicidal Detergent and Deodorant

A multi-purpose, neutral pH, germicidal detergent and deodorant effective in hard water up to 200 ppm (calculated as CaCO₃) in the presence of a moderate amount of soil (5% organic serum) according to the AOAC Use-dilution Test. Disinfects, cleans, and deodorizes in a single labor-saving step. For use in hospitals, nursing homes, schools, office buildings and federally inspected meat and poultry plants. Disinfects, cleans, and deodorizes the following hard nonporous inanimate surfaces: floors, walls, inorganic medical surfaces, non-medical stainless steel surfaces, glazed porcelain, plastic surfaces (such as polyethylene, polypropylene, etc.).

For use in:
- Federally inspected meat and poultry plants as a disinfectant agent for use in all departments. Food products and packaging materials must be removed from the room or carefully protected. Use product in accordance with its label. All surfaces must be thoroughly rinsed with potable water.

Effective against the following pathogens:
- **Bacteria:** Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica, Aeromonas hydrophila, Bacillus subtilis, Enterococcus faecalis, Listeria monocytogenes, Escherichia coli, Proteus vulgaris, Staphylococcus epidermidis, Enterococcus faecalis, Staphylococcus epidermidis
- **Fungi:** Aspergillus niger, Candida albicans, Trichophyton mentagrophytes

For Human Coronavirus, treated surfaces must remain wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

For Influenza Virus, treated surfaces must remain wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

For Staphylococcus aureus, treated surfaces must remain wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

FARM PREMISE DISINFECTANT
DILUTION: 1:256, 1:256 per gallon of water

1. Remove all water resistant and fixed items from the area to be treated: dumpsters, trucks, coops, crates and enclosures. 2. Remove all litter and debris from feeders, walls, and surfaces of barns, pens, stalls, chutes, vehicles, and other facilities and equipment in the room or area to be treated. 3. Empty all trash, racks, and other feeding and watering equipment.

FINDING DIRECTIONS:
- In areas such as bunk beds, dressing rooms, storage and work areas and facilities follow direct disinfection directions.

MILDEWISTIC INSTRUCTIONS:
- Effectively control the growth of mold and mildew on surfaces. This item is intended to be used in conjunction with the following equipment and products:

KILLS H1N1 (AIDS VIRUS) AND HIV (HEPATITIS B VIRUS) IN PRECLEANED, ENVIRONMENTAL SURFACES OR OBJECTS PREVIOUSLY SOILED WITH BLOOD/BOILY FLUIDS IN HEALTH CARE SETTINGS OR OTHER SETTINGS IN WHICH THERE IS AN EXPECTED LIKELIHOOD OF SOILING INanimate SURFACES/OBJECTS WITH BLOOD/BOILY FLUIDS, AND IN WHICH THE SURFACES/OBJECTS LIKELY TO BE SOILED WITH BLOOD/BOILY FLUIDS, AND IN WHICH THE SURFACES/OBJECTS LIKELY TO BE SOILED WITH BLOOD/BOILY FLUIDS

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 AIDS VIRUS OR HIV OF SURFACES/OBJECTS SOILED WITH BLOOD/BOILY FLUIDS
- Personal Protection: Dispose of protective gloves, gowns, face masks, and eye coverings without washing. Empty all feeding and watering equipment. Thoroughly clean all surfaces with soap and detergent and rinse with water. Gaseous surfaces with a minimum of 60% of Virustat DC Plus per gallon of water for a period of 30 minutes at a dwell time of 5 minutes. Do not use on mineral oil-based paint, linoleum, plastic, metal, or other closed surfaces. Scrupulously clean all treated surfaces and equipment. Do not reuse equipment for feeding or watering. Do not use for disinfecting equipment or food contact surfaces. Do not house animals or equipment until harvest has been completed. Set or directed.
