Spectra Max Tank Mix™

Water Conditioning and Drift Control Agent

Principal Functioning Agents
Ammonium sulfate, glycerol, phosphoric acid........................................................................................................35.0%
Constituents ineffective as spray adjuvants...........................................................................................................65.0%
Total...............................................................................................................................................................................100.0%

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180.

California State Reg. No. 45989-50017-AA
Washington State Reg. No. 45989-50017

Hazard Statements
Causes skin irritation. Causes serious eye irritation.

Precautionary Statements
Do not breathe mist/vapors/spray. Wash thoroughly after handling. Wear protective gloves/eye/face protection. If on skin (or hair), remove/take-off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes, rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Immediately call a poison center or doctor/physician if eye irritation persists. Wash contaminated clothing before reuse.

Refer to back label for First Aid statement.

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.

Storage and Disposal
Do not contaminate water, food or feed by storage or disposal.

Storage: Keep this container tightly closed. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

KEEP OUT OF REACH OF CHILDREN
WARNING

Net Contents
2.5 Gallons (9.46 Liters) or 2 x 2.5 Gallons (18.93 Liters)
First Aid
Have the product container or label with you when calling a poison control center or doctor or going for treatment.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Directions For Use–Application Guidelines
Spectra Max Tank Mix is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop use. Spectra Max Tank Mix should be added to the diluted spray solution prior to the addition of any pesticides.

Ground and Air Rates:
Normal Use: 2 to 3 quarts per 100 gallons of water
Hard Water: 3 quarts per 100 gallons of water
Spectra Max Tank Mix contains the equivalent of 2 pounds ammonium sulfate/gallon.

General Information
Spectra Max Tank Mix contains water conditioning properties and a homogenized deposition agent designed to improve the precision of spray applications and reduce off-target drift. It is suitable for use on both conventional and transgenic crop varieties.

When used at labeled rates, Spectra Max Tank Mix will automatically optimize the angle of the spray pattern, as the spray exits the nozzle, to give maximum coverage of target surfaces while minimizing “pattern fringe” which contains the most driftable particles.

Spectra Max Tank Mix is intended for use as a tank-mix adjuvant where a deposition or drift control agent is required or recommended.

Spectra Max Tank Mix technology has been proven to increase glyphosate activity. This product also contains emollients which may improve absorption of herbicides into leaf surfaces.

Spectra Max Tank Mix also contains buffering and sequestering agents to adjust pH to a neutral range.

Spectra Max Tank Mix may be used when the pesticide label recommends the use of a deposition aid or drift control agent. It is not intended as substitute for surfactants or crop oil concentrates.

SPECTRA MAX TANK MIX IS NOT FOR AQUATIC USE
