KALO

KEEP OUT OF REACH OF CHILDREN
WARNING

Hazard Statements
Causes mild skin irritation. Causes eye irritation.

Precautionary Statements
Wash thoroughly after handling. Wear protective gloves and eye/face protection.

IF IN EYES: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical advice/attention.

IF ON SKIN (or hair): Rinse skin with water/shower. Remove/take-off immediately all contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice/attention.

Refer to back label for more First Aid statements.

Storage, Disposal & Spill
Do not contaminate water, food or feed by storage or disposal of this product.

Storage: Store in a well-ventilated place. Keep cool. Store in a tightly closed container. Store in original container only.

Disposal: Triple pressure rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Dispose of contents/container in accordance with local/national regulations.

Spill: In the event of a major spill, fire or other emergency, call CHEMTREC at (800) 424-9300.

Environmental Hazards
Not for aquatic use. Do not contaminate water sources by cleaning of equipment or disposal of wastewaters.

Net Contents
2.5 Gallons (9.46 Liters) or 2 x 2.5 Gallons (18.93 Liters)
General Information

Spectra Max Tank Mix contains water conditioning properties and a homogenized deposition agent designed to improve the precision of spray applications and reduce off-target drift. It is suitable for use on both conventional and transgenic crop varieties.

When used at labeled rates, Spectra Max Tank Mix will automatically optimize the angle of the spray pattern, as the spray exits the nozzle, to give maximum coverage of target surfaces while minimizing “pattern fringe” which contains the most driftable particles.

Spectra Max Tank Mix is intended for use as a tank-mix adjuvant where a deposition or drift control agent is required or recommended.

Spectra Max Tank Mix technology has been proven to increase glyphosate activity. This product also contains emollients which may improve absorption of herbicides into leaf surfaces.

Spectra Max Tank Mix also contains buffering and sequestering agents to adjust pH to a neutral range.

Spectra Max Tank Mix may be used when the pesticide label recommends the use of a deposition aid or drift control agent. It is not intended as substitute for surfactants or crop oil concentrates.

Directions For Use–Application Guidelines

Spectra Max Tank Mix is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop use. Spectra Max Tank Mix should be added to the diluted spray solution prior to the addition of any pesticides.

Ground and Air Rates:
Normal Use: 2 to 3 quarts per 100 gallons of water
Hard Water: 3 quarts per 100 gallons of water

Spectra Max Tank Mix contains the equivalent of 2 pounds ammonium sulfate/gallon.

First Aid

If in Eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. If eye irritation persists, get medical attention.

If Swallowed: Rinse mouth. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If you feel unwell, call a poison control center or physician immediately for treatment advice.

If Inhaled: Move person to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. If you feel unwell, call a poison control center or physician for further treatment advice.

If on Skin or Clothing: Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. If skin irritation occurs, get medical attention. Take off contaminated clothing and wash before reuse.
