PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
WARNING - Causes severe eye irritation. May cause moderate skin irritation. May be harmful if absorbed through the skin. Prolonged or repeated contact may cause an allergic skin reaction. Inhale irritating, eye, nose, and throat. Vapor and/or some mist may be harmful if inhaled. May cause irritation and/or allergic respiratory reaction in lungs. Hazardous to living aquatic life.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
If on or in Skin: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
If swallowed: Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
If inhaled: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for treatment advice.

For emergency medical information, call 1-412-343-4515.

Hygienic practices – Wash thoroughly after use and before eating, smoking or using washroom. Keep away from food or food products. Launder contaminated clothing before use.
ENVIROMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water by burning, equipment or disposal of wastes or allow chips and dust generated during paint removal to enter water.

PHYSICAL OR CHEMICAL HAZARDS: Flammable. Haze away from heat, sparks, arc and open flame. Avoid breathing vapor, dust, spray mist or contact with eyes and skin. Use only with adequate ventilation and wear protective equipment, such as goggles, face protection, gloves, full protective clothing and properly fitted, positive-pressure air-supplied respirator, during mixing, spraying and storing until all solvents and vapors are gone. There are reports that associate repeated and prolonged occupational exposure to solvents with permanent brain and nervous system damage. In confined, poorly ventilated areas, use air-line, hood-type respirator and explosion- and spark-proof equipment. Welding and cutting can produce hazardous fumes and gases. For fires, blanket flames with foam, carbon dioxide, dry chemical. For spills, eliminate all sources of ignition or sparks. Use absorbent cleanup materials. Place in separate, closed, metal container and dispose of in accordance with all applicable regulations. Wear NSCNI certified, self-contained air-supplied respirators to prevent overexposure to vapors.

STORAGE AND DISPOSAL
Keep container closed when not in use. Store in cool, dry, well-ventilated area. Do not contaminate water, food, or feed by storage or disposal. Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of this product or its residue is a violation of Federal Law. If this product cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or Regional EPA Office, Hazardous Waste. Container Disposal: Non refillable container. Do not reuse or refill this container. Offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

LIMITED WARRANTY
PPG warrants your satisfaction with the performance properties of this product if it is properly applied to a properly prepared surface in accordance with label directions. PPG MAKES NO OTHER EXPRESS WARRANTIES, IN THE EVENT THE PRODUCT FAILS TO CONFORM TO THIS WARRANTY, PPG, AT ITS SOLE LIABILITY, AND IN LIEU OF ANY DIRECT OR INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, WILL, AT YOUR OPTION, FURNISH REPLACEMENT PRODUCT OR REFUND THE PURCHASE PRICE – LABOR OR COSTS OF LABOR FOR THE APPLICATION OF ANY PRODUCT SPECIFICALLY ARE EXCLUDED. YOU MUST PROVE TO PPG'S SATISFACTION, THE FAULT OR CAUSE OF THE DAMAGE.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
Surface Preparation – Dependent upon the condition of the hull and existing antifouling coatings, surface preparation will vary from low pressure water cleaning (1500-3000 psi) to abrasive blasting. Apply over a suitable primer system or clean, intact, existing antifouling coating. Substrates that are abrasive blasted should be prepared in accordance with the instructions for the antifouling coating to be used.
Application Equipment – Can be applied by brush, roller, airless spray, or conventional air spray equipment.
Application Instructions – 1. When applying antifouling coating over epoxy antifouling coatings, apply the first coat of antifouling while the epoxy antifouling is tack free, but still soft to thumb pressure. If the epoxy is too hard, apply another thin coat of epoxy and then apply the antifouling after the epoxy is tack free but still soft to thumb pressure. Failure to apply the antifouling coating while the epoxy is thumbprint soft may result in poor adhesion of the antifouling coating and eventual delamination.
2. Clean all application equipment with T-10 thinner.
3. Stir material thoroughly and continuously to prevent settling during application to ensure proper suspension.
4. Thin only for workability—no more than 1 pint thinner per gallon of material. Apply a wet coat in even brush or roller strokes or spray passes, building the wet film thickness to achieve the recommended dry film thickness. Allow 4 hours dry time at 77°F (25°C) between coats. Allow 5 hours dry time at 77°F (20°C) before launching.
5. Clean application equipment immediately after use with thinner.

ABC®3
MARINE ANTIFOULING PAINT
INTENDED FOR USE IN COMMERCIAL SHIPYARDS ONLY
EPA Reg. No. 7313-18
EPA Est. No. 7313-AR-1

Active Ingredient:
Cuprous Oxide ................. 47.99%
Other Ingredients .............. 52.01%
Total ................................ 100.00%
Copper as metallic: 42.3%
Contains Petroleum Distillates

KEEP OUT OF REACH OF CHILDREN
WARNING
See other precautions on side panel and MSDS.

ABC3 Type 223
Black AT223-9/05
5 US Gallons / 18.93 L

Manufactured by PPG Architectural Finishes, Inc., PPG Industries, Inc., One PPG Place, Pittsburgh, PA 15222
Emergency Telephone Number 1-412-434-4515
Manufactured in the U.S.A.

Photochemically Reactive per SCAQMD Rule 102
Shelf life: 1 year from date of shipment
DOT: Paint, LN1763
VOC: 400 g/L, (3.33 lbs/gal)
Thinned T-10 (1 pt/gal)
Dries 440 hrs
Do not thin inconsistent with local VOC regulations.
