ADAMS Flea & Tick Control Collar for Large Dogs

READ ENTIRE LABEL, BEFORE EACH USE.
USE ONLY ON DOGS.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Harmful if swallowed or absorbed through skin. Caution: Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using tea table.

FIRST AID
Contains an organophosphate that inhibits cholinesterase.
If swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.
If in skin or clothing: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-30 minutes. Call a Poison Control Center or doctor for treatment advice.
If in eyes: Hold up and open eyelids and gently flush with water for 15-30 minutes. Remove contact lenses, if present, after first 5 minutes. Then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Consult a veterinarian before using this product on debilitated, aged, or medicated animals. If fitted on pregnant or nursing dogs, do not replace collar until the puppies are at least 6 weeks old. Sensitivity may occur after using any pesticide product for pets. Some animals may become irritated by any collar. If it is applied too tightly. If this occurs, loosen the collar. If irritation continues, remove the collar from the animal. If signs of sensitivity occur, remove the collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use this product on animals simultaneously or within 30 days before or after treatment with or exposure to other insecticides, insect repellents, or other chemicals. However, flea and tick collars may not be reduced with new collars. This collar is intended for use only as an insecticide or insect repellent generator.

Insecticidal Information:
This product contains tetramethrin (an organophosphate), which is a cholinesterase inhibitor. Cholinesterase inhibitors may include organophosphates, organochlorines, or organosulfur compounds. Tetramethrin is effective for up to 14 days after application. Call 1-800-534-3739 or your local Poison Control Center for further information.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storing or using the product in a presence of children.
Do not use on puppies under 8 weeks old. Do not remove collar until ready to use. Place the Adams Flea & Tick Control Collar for Large Dogs around the dog's neck, adjust for proper fit, and buckle in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move around the neck. A properly fitted collar is one that, when fastened, evenly drags over the pet's head. Leave 2 or 3 inches on the collar for extra adjustment, and cut off and dispose of the extra length.
