10324-154-67297_KenClean Plus Athletic Surface Disinfectant Cleaner_20140421_3.pdf
This product is a concentrated Hospital Use disinfectant that is effective against a broad spectrum of bacteria, is virucidal, and eliminates odor causing bacteria when used as directed. This product is a no-rose neutral pH disinfectant cleaner that disinfects, cleans and deodorizes in one labor saving step. This product is for use in: athletic facilities and locker rooms, fitness centers, exercise facilities, gyms, locker rooms, day care centers, playrooms, recreational facilities, sports arenas, sports complexes, health clubs, spas, whirlpool surfaces, showerrooms, shower stalls, and bathrooms. This product may be used on washable hard, non-porous surfaces such as: washable walls, floors, wrestling and gymnastic equipment, bedrails, hospital tables, physical therapy tables, athletic training tables, all athletic equipment, floors, tiles, linoleum surfaces, Formica®, cabinets, metal, stainless steel, chrome and vinyl, plastic, Fiberglass®, glass, glazed porcelain, glazed ceramic, sealed granite, sealed marble, enameled surfaces, and painted woodwork. Use this product to clean and disinfect hard non-porous surfaces of personal protective equipment, protective headgear, athletic helmets, wrestling/tumbling equipment, athletic shoe soles, gloves, spectacles, face shields, and hearing protectors. Rinse all equipment that comes in prolonged contact with skin before reuse with clean warm water (at least 120°F), and allow to air dry. Precaution: Cleaning at 120°F temperature will avoid overheating and distortion of the personal safety equipment that would necessitate replacement.

PELIGRO: SI NO PUEDO LEER EN INGLES, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product, or any manner inconsistent with its labeling.

PREPARATION OF DISINFECTANT/FUNGICIDAL/VIRICIDAL USE: Apply 2 ounces per gallon of water (164) to hard, inanimate, non-porous surfaces thoroughly wetting surfaces with a cloth, mop, sponge or spray. For heavily soiled areas, a preliminary cleaning is required. For spray applications, use a coarse spray device. Spray 6-8 inches from surface. Rub with brush, sponge or cloth. Do not breathe spray. Treated surfaces must remain wet for 10 minutes. Rinse or allow to air dry. Rinse all surfaces that come in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use this product to clean or disinfect utensils, glassware, dishes or interior surfaces of appliances. Rinsing of floors is not necessary unless they are to be waxed or polished. Prepare a fresh solution at least daily or when use solution becomes diluted or soiled.

Note: With spray applications cover or remove all food products. For heavily soiled areas, a preliminary cleaning is required. DISINFECTING INSTITUTIONS AND NON-MEDICAL FACILITIES: At 2 fluid ounces per gallon of water (164) and a 10-minute contact time, this product is effective against the following organisms on hard non-porous inanimate surfaces: Acinetobacter baumannii, Acinetobacter lwoffii, Bordetella bronchiseptica, Chlamydophila pneumoniae, Enterococcus agglomerans, Enterobacter aerogenes, Enterobacter cloacae, Escherichia coli, Tetrasaccaridic Resistance, Enterohealis coll., Enterococcus facaelis, Enterococcus hirae, Fusobacterium necrophorum, Klebsiella oxytoca, Listeria monocytogenes, Micrococcus luteus, Pasteurella multocida, Proteus vulgaris, Pseudomonas aeruginosa, Tetracyclines Resistant Pseudomonas aeruginosa, Pseudomonas cepacia, Salmontella enterica, Salmontella enterica serotype pullorum, Salmontella typhi, Salmontella typhimurium, Serratia marcescens, Staphylococcus aureus, Staphylococcus aureus sub species aureus, Community Associated Methicillin Resistant Staphylococcus aureus (CA-MRSA), Methicillin Resistant Staphylococcus aureus (MRSA), Staphylococcus epidermidis, Antibiotic resistant Staphylococcus epidermidis, Streptococcus agalactiae, Staphylococcus haemolyticus, Streptococcus pneumoniae, Pseudomonas Resistant, Streptococcus pyogenes, Enterococcus faecalis, Enterococcus faecalis, Vancomycin Resistant Enterococcus faecalis (VRE), Vancomycin Intermediate Resistant Staphylococcus aureus (VISA), Vibrio cholerae, and Yersinia enteroicola. VIRUCIDAL PERFORMANCE: At 2 ounces per gallon use level, this product was evaluated in the presence of 400 ppm hard water with a 10-minute contact time and found to be effective against the following viruses on hard, non-porous environmental surfaces: Avian Influenza A (H5N2) virus (Avian Reassortant), Avian Influenza A (H5N1) virus, Cytoromegalovirus, Hepatitis B Virus, Hepatitis C Virus, Herpes Simplex Virus Type 1, Herpes Simplex Virus Type 2, Human Coronavirus, Human Immunodeficiency Virus Type 1 (HIV-1), Influenza A Virus, Respiratory syncytial virus. Fungal PERFORMANCE: When used as directed at 1.84 dilution and a 10 minute contact time, this product is highly effective against the following: Aspergillus niger, Candida albicans, Trichophyton mentagrophytes. FOR DISINFECTION AND TO CONTROL THE GROWTH OF MOLD AND MILDEW ON NON-POROUS ATHLETIC EQUIPMENT: For use on wrestling and gymnastic mats, athletic mats, exercise equipment, athletic training tables, physical therapy tables, athletic helmets, wrestling/boxing headgear, athletic shoe soles. Thoroughly clean all surfaces with soap or detergent and rinse with water before use. Use under conditions of 1.84 dilution per gallon of water for a period of 10 minutes. Ventilate buildings and other closed spaces. Do not use equipment until treatment has been absorbed, set or dried. FOR USE AS A CLEANER AND/OR DEODORIZER: Apply use solution to surfaces. Wipe surfaces and let air dry. For heavily soiled use 6 ounces per gallon of water (115) to clean hard, non-porous surfaces.

FOR DISINFECTING HARD, NON-POROUS, FIBERGLASS BATH AND THERAPY EQUIPMENT: To remove body oils, dead tissue, soil and other buildups or organic matter on inanimate surfaces after using the unit, drain the water and refill with fresh water to just cover the intake valve. Add 2 ounces of this product for each gallon of water in the unit at this point. Briefly start the pump to circulate the solutions. Turn off pump. Wash down the unit sides, seat of the chair lift, and any/all related equipment with a clean scrub brush or sponge. Product to surface contact time must be at least 10 minutes for proper disinfection. After the unit has thoroughly disinfected, drain solutions from the unit and rinse any/all cleaned surfaces with fresh water. The unit is ready for reuse.

FOR DISINFECTING HARD, NON- POROUS SURFACES AGAINSTavian INFLUENZA A: For use in hospitals, hotels and schools, the directions for hospital disinfection must be followed using a rate of 2 oz per gallon of water. Not for use on medical devices or medical equipment surfaces.

This product is a Hospital Disinfector at 2 ounces per gallon, modified in the presence of 400 ppm hard water with a 10 minute contact time. At 2 ounces per gallon in the presence of 5% organic load this product was proven to be effective against (Duck) Hepatitis B Virus (HBV) and Bovine Viral Diarrhea Virus BVDV (surrogate for human Hepatitis C virus) with a contact time of 10 minutes.

*KILLS HIV, HBV AND HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/others with blood or body fluids and in which the surfaces/others likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1, (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONI MATION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. Personal Protection: Clean up must always be done wearing protective latex gloves, gowns, masks and eye protection. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. Disposal of Infectious Materials: Blood, blood fluids, cleaning materials and clothing must be subsbued and disposed of according to federal, state and local regulations for infectious waste disposal. Contact Time: Leave surface wet for 10 minutes with a 2-ounce per gallon use solution.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive, Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist, Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS
Do not mix with oxidizers, strong acid or alkali or combustible or flammable liquids or detergents. Do not use or store near heat or open flame.

First Aid
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage.

STORAGE AND DISPOSAL
Store in original container in areas inaccessible to children. Do not store on side. Avoid creating or impacting of side walls. Do not reuse empty container. Wrap and discard in trash (or recycle).
