MILGO PLUS

FOR USE AS A CLEANER/DEODORIZER ON NONPOROUS SURFACES THAT HAVE BEEN EXPOSED TO A SEWER BACKUP, FLOODING OR WATER DAMAGE

INHIBITS THE GROWTH OF MOLD & MILDEW

ACTIVE INGREDIENTS:
Octyl decyl dimethyl ammonium chloride........... 1.65%
Diocetyl dimethyl ammonium chloride............... 0.56%
Didecyldimethyl ammonium chloride............... 0.99%
Alcohol C10, C11, C12, C13.................. 40%
Dimethyl bezyl ammonium chloride............... 20%
INERT INGREDIENTS........................................... 94.56%
TOTAL......................................................... 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO

FOR HOUSEHOLD, HOSPITALS, INSTITUTIONAL, AND INDUSTRIAL USE

Microban® Plus is for use on the following hard non-porous surfaces: countertops, countertops laminate, stove tops, sinks, appliances, refrigerators, microwave ovens (interior), totes, picnic tables, outdoor furniture, chaise, chairs, telephones, high chairs, bed frames, washable walls, cabinets, electronics, telephones, shower stalls, tubs and glass ceramic tiles, whipped bathtub, toilets, portable toilets, glazed porcelain tile, garage cars, exhaust fans, refrigerated storage and display equipment coils and drain pans of air conditioning and refrigeration equipment and heat pumps, stainless steel, examined surfaces, finished woodwork, Formica, laminated surfaces, vinyl and leather upholstery, ultrasonic baths, bathtubs, showers, shower stalls, sinks, urinals, toilet bowls, toilet bowl surfaces and bathroom fixtures, walls, window sills, cupboards, floors, corridors, flooring and other hard non-porous surfaces (such as metal, stainless steel, glass porcelain, glass ceramic, sealed stone, fiberglass and plastic). Microban® Plus is an effective one-step disinfectant cleaner that is effective against a broad spectrum of bacteria, is virucidal (including HIV-1, the AIDS virus), fungicidal, and inhibits the growth of mold and mildew and their odors when used as directed. Microban® Plus is effective for use on non-food contact surfaces. Microban® Plus is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, showers and bath and exercise facilities. Microban® Plus kills Pseudomonas aeroginosa (Pseudomonas), Staphylococcus aureus (Staph), Salmonella enterica (Salmonella), Acinetobacter baumannii (Acinetobacter), Enterococcus spp. (Enterococcus), Campylobacter jejuni (Campylobacter), Community Acquired Methicillin-Resistant Staphylococcus aureus (CA-MRSA) (MRSA) (2008), Community Acquired Methicillin-Resistant Staphylococcus aureus (CA-MRSA) (MRSA) (2010), Enterobacter aerogenes, Enterococcus faecalis (Enterococcus), Enterococcus fecalis - Vancomycin resistant (VRE), Escherichia coli (E.coli), ESBL, Escherichia coli - Extended spectrum beta-lactamase producing E.coli, Klebsiella pneumoniae (Klebsiella), Legionella pneumophila, Pseudomonas aeruginosa (Pseudomonas), Salmonella schottmuelleri (Salmonella), Salmonella typhi (Salmonella), Serratia marcescens, Shigella dysenteriae (Shigella), Staphylococcus aureus Methicillin-Resistant (MRSA), Staphylococcus aureus Multi Drug Resistant, Staphylococcus aureus - Vancomycin Intermediate Resistant (VISA), Staphylococcus pyogenes (Strep), Vibrio cholerae - "Adenovirus Types 5 (Adenovirus)" at 90 minutes per gallon of water, "Adenovirus Types 1 (Adenovirus)" at 60 minutes per gallon of water, "Hepatitis B Virus (HBV), "Hepatitis C Virus (HCV), "Herpes Simplex Virus Types 1 & 2 (Herpes), "HIV-1 (the AIDS virus), "Human Coronavirus, "Influenza Type A/OSA (Influenza), "Norwalk Virus (Norovirus), "Rabies Virus (Rabies), "Salmonella, "SARS Associated Coronavirus (SARS) due to severe acute respiratory syndrome, "Vaccine (Pox virus), Trichophyton mentagrophytes (the Athlete's Foot fungus), and Aspergillus niger. Microban® Plus reduces 99.39% of Staphylococcus aureus, and Klebsiella pneumoniae in 60 seconds. Microban® Plus is a mildewstain at 2 ounces per gallon and will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in the "Directions for Use" section of this label).

Respiratory illnesses attributable to Microban® Plus kills 2009 H1N1 are caused by influenza A virus. Microban® Plus is a broad-spectrum disinfectant that has been shown to be effective against influenza A virus and is expected to inactivate all influenza A viruses, including Pandemic 2009 H1N1 (formerly called swine flu). Microban® Plus kills Pandemic 2009 H1N1 influenza A virus (formerly called swine flu).

PERGRO: Si no sabe inglés, solicite instrucciones a su supervisor antes de usar este producto.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. (Instrucciones de uso: El empleo de este producto de manera contraria a lo indicado en su etiqueta constituye una violación de la Ley Federal.)

This product is not to be used as a terminal sterilizable level disinfectant on any surface or instrument that (1) is introduced directly into the human body either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enters normal sterile areas of the body. This product may be used to pre-treat or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

PREPARATION OF USE SOLUTION: Add (max) 2 oz. per gallon of water (1:64) to disinfect hard, non-porous surfaces. For heavy-duty cleaning use, add (max) 4 oz. per gallon of water (1:16).

dISINFECT/FOG/DEODORIZ/FOG/MILD/DEOD/MILD AND MILDRED CONTROL DIRECTIONS: Apply use solution to hard (inanimate) non-porous surfaces thoroughly wetting surfaces as required, with a cloth, mop, sponge, or sprayer. For heavily soiled areas, a preparatory cleaning is required. For sprayer applications, use a coarse mist pump or trigger sprayer. Spray 8–10 inches from the surface, rub with brush, sponge, or cloth. Do not breathe spray mist. Treated surfaces must remain wet for 10 minutes. Prepare a fresh solution daily or more frequently if use solution becomes visibly diluted or soiled. Thoroughly rinse all surfaces which come into contact with food such as countertops, appliances, tables and stoves with portable water before reuse. This product is not to be used on glassware, dishware, cookware and utensils.

Manufactured By: ProRestore Products 1016 Green St
SANITIZING NON-FOOD CONTACT SURFACE DIRECTIONS: Add 0.5 oz. Microban Milgo Plus per gallon of water to sanitize hard non-lacquered surfaces. Treated surfaces must remain wet for 10 minutes. Let air dry. Do not use in food preparation, food handling and food storage areas. This product is not to be used on glassware, dishware, cookware and utensils.

KILLS HIV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected level of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: Clean-up should always be done wearing protective latex gloves, gowns, masks and eye protection.

CLEANING PROCEDURE: Blood and other body fluids containing HIV must be thoroughly cleaned from surfaces and objects before application of Microban Milgo Plus. CONTACT TIME: Leave surface wet for 2 minutes with (2 ounces per gallon) use solution. Use a 10 minute contact time for disinfection against all other viruses, bacteria, and fungi claimed. DISPOSAL OF INFECTIOUS MATERIALS: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to local regulations for infectious waste disposal.

MOLD AND MILDWIND CONTROL: At 2 ounces per gallon Microban Milgo Plus will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard nonsurfaces. Follow disinfection directions. Allow to dry on surface. Repeat when mold growth returns.

ULTRASONIC BATH DISINFECTANT DIRECTIONS: Use Microban Milgo Plus to disinfect hard (inanimate) non-porous nontoxic instruments compatible with Ultrasonic cleaning units. Pour fresh solution of 2 oz. per gallon of water (1:64) directly into bath chamber. Process cleaned objects. Place objects into unit and operate for a minimum of 10 minutes, according to manufacturer's directions. Remove objects and rinse with sterile water (sterile water for injection), or allow to air dry. Replace solution daily or more often if solution becomes visibly dirty or discolored.

DEODORIZER DIRECTIONS: Air Freshener: Use two ounces per gallon of water (1 part Microban Milgo Plus to 64 parts water) or desired concentration to clean and deodorize. Thoroughly wet surfaces with cloth, mop or sprayer and allow to air dry. The Microban Milgo Plus solution will effectively neutralize damp musty odors caused by mold on surfaces in storage areas, basements, closets and bathrooms. The Microban Milgo Plus solution is also effective on cooking odors (garlic, fish, onions, etc.) when used to clean walls, floors, countertops, stovetops, sinks, appliances, tables, chairs and cabinets. The Microban Milgo Plus solution will eliminate odors from tobacco smoke, musty carpets and spilled beverages in automobiles when used on leather, vinyl, plastic, metal, and stainless steel surfaces. Treatment of food contact surfaces, such as countertops, stovetops, appliances and tables, must be followed with a potable water rinse. This product is not to be used on glassware, dishware, cookware and utensils.

CARPET: Test hidden area for colorfastness. 2-4 ounces per gallon of Microban Milgo Plus solution eliminates odors associated with urine, vomit, smoke, and mildew. Repeat after cleaning for additional deodorization. Allow to dry.

SEWER BACKUP, WATER DAMAGE: To clean and deodorize, use 4 ounces per gallon of water. Spray over affected areas before and after cleaning and extraction. Use proper ventilation, open windows. Cleaning Solution: Dilute 3-4.8 ounces per gallon of water for cleaning of kitchen counters, tables, walls, seats, toilet seats, mopping floors and large routine applications. Treatment of food contact surfaces must be followed with a potable water rinse.

TO TREAT CARPET AGAINST ODOR-CUSING BACTERIA, FOR HOME, INDUSTRIAL, INDUSTRIAL AND HOSPITAL USE: Use this product on carpets to control the growth of odor-causing bacteria and fungi. It can be used in industrial and institutional areas such as homes, motels, hotel chains, nursing homes and hospitals. Vacuum carpet thoroughly prior to application. Mix 2 ounces of Microban Milgo Plus per gallon of water. Follow the injection and/or extraction procedures as specified for any conventional steam cleaning equipment you are using. For rotary floor machines, mix 4 ounces of Microban Milgo Plus per gallon of water and spray or carpet on a rate of 300-500 square feet per gallon. For use on washable synthetic fibers. Do not use on wool. Test colorfastness of carpet before use. Apply diluted product to solution in a medium-sized container with a 1/4" hose. Place carpet in a large container with a 1/2" hose. Stir until thoroughly wet. After the product, set carpet pile in one direction with a soft brush. Place aluminum foil under the legs of furniture while carpet is drying. Over-wetting can cause carpet to shrink. Manufacturer assumes no responsibility for over-wetting misuse.

NOTE: THIS PRODUCT IS NOT TO BE MIXED WITH OTHER PRODUCTS

PERSONAL PROTECTIVE EQUIPMENT: To Clean and Disinfect: 2 ounces of Microban Milgo Plus per gallon of water to clean and disinfect nonporous personal protective equipment, protective headgear, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, hearing protectors and ear muffs. Treated surfaces must remain wet for 10 minutes. Rinse equipment with clean warm water (about 120°F) and allow to air dry prior to reuse. (Caution: cleaning at 120°F temperature may not prevent or reverse the deterioration of the personal safety equipment that would necessitate replacement.) To Sanitize: Add 0.5 oz. of Microban Milgo Plus per gallon of water. Treated surfaces must remain wet for 60 seconds. Allow to air dry. Rinse equipment with clean warm water (about 120°F) and allow to air dry prior to reuse. NOTE: Use in conjunction with the use instructions provided with the safety equipment to avoid damaging the equipment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. NOTE TO PHYSICIAN: Moderate mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. Have the product container or label with you when calling poison control center or doctor or going for treatment.

ENVIROMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Store in original container in areas inaccessible to children or persons unfamiliar with its use. Do not store on side. Avoid contacting or impaling eyes or skin. Non-refillable container. Do not re-use or refill the container. Wear protective clothing and put in trash or offer for recycling if available. PESTICIDE STORAGE: Do not store on side. Avoid creating or impaling of sides of product. Store in original container in areas inaccessible to children.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray, mist or residue of rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or your Local Government, or your Local Government, or the Pesticide Waste Disposal representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not re-use or refill the container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into an application equipment or a mix tank and drain 2 to 3 seconds after the flow begins to drip. Fill the container 1/4 full with water and reseal. Shake for 3 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for another use or disposal. Drain 15 seconds before the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or pour or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning if burned, stay out of smoke.
