NOTE: NEVER MIX THIS PRODUCT WITH ANY OTHER PRODUCT.

STORAGE AND DISPOSAL: Keep this product dry in its original unopened bag until use. For partially used bags, fold over top of bag and secure with adhesive tape. Store unopened and partially used bags in a secure location away from children. Store in a cool, dry, well-ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire or explosion. In case of decomposition, store bag in a plastic bag and store with large amounts of water to dilute all material before discarding this bag. Do not contaminate food or feed by storage or disposal. CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple warn container (or equivalent) promptly after emptying.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if inhaled, swallowed or absorbed through the skin. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals. Do not get in eyes, on skin, or on clothing. Avoid breathing dust or mists. Wear protective eyegear (goggles or face shield). Wear long-sleeved shirt and long pants. Wash thoroughly with soap and water after handling and before eating, smoking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Do not mix with any other chemicals. Mix only with water.

KEEP OUT OF REACH OF CHILDREN.

FOR SWIMMING POOL SHOCK TREATMENT

Don't let dull, cloudy water, strong odors and eye irritation affect your swimming experience! Use Breakout Total to keep your water brilliantly clear. As part of a pool care system, this product destroys and removes contaminants—such as perspiration and suntan oils—that can affect swimmer comfort. There's no need to pre-dissolve this product, and it is compatible with chlorine or bromine sanitized pools.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

1. Check all pool equipment and be sure it is working properly.
2. Backwash or clean filter following manufacturer's directions.
3. Test pH and adjust to between 7.2-7.8.
4. In chlorinated pools, add a minimum 30 – 40 ppm stabilizer level to reduce the effects of sunlight upon the chlorine residual. NOTE: Do not add stabilizer to brominated pools.
5. Test pool water for the presence of metals prior to use of this product. If any metals are present, add a scale inhibiting product to prevent the deposition of metal clogs on pool surfaces.
6. When using other products as directed in conjunction with this product, always follow label directions of those products.

DOSAGE DIRECTIONS:

Shock

Following Applications Methods, apply 1 pound per 20,000 gallons of water every week or 1 pound per 10,000 gallons every 2 weeks when the pool is not in use (preferably at night). Repeat after heavy rain or heavy bather loads.

Chlorinating Shock

Pre-Measured Granular

Maintains Sparkling, Clean, Clear Water

Never add water to product. Always add product to large quantities of water. Use clean, dry water. Do not add this product to any dispersing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reuse container. If possible, reuse container in a manner of well-ventilated area. Store area with large volumes of water.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

NOTE: Buyer assumes all responsibility for safety and use in accordance with directions.

Application Method A

When the maximum depth of the pool is less than 4 feet deep or when water is less than 55° F, pre-dissolve using Application Method B. For all other applications, use Application Method A.

Application Method A

1. Ensure pool circulation pump is operating. Continue to operate recirculation pump for 4 - 8 hours following product addition.

2. Broadcast the appropriate dosage of this product across the deep end of the pool.

NOTE: In pools with potentially bleachable surfaces, such as vinyl, paint, fiberglass, or colored plaster, brush the pool surfaces with a pool brush to square down the product. Never allow undissolved product to rest in contact with bleachable pool surfaces.

Application Method B

1. Ensure pool circulation pump is operating. Continue to operate recirculation pump for 4 - 8 hours after product addition.

2. Dissolve this product outdoors using a clean plastic bucket. Fill bucket with water, then add product. Use a clean plastic or wooden spoon to stir. Never add more than 1 pound of this product to less than 3 gallons of cool water. Never add water to product.

3. After dissolving this product, pour the solution around the edge of the pool while operating circulation pump.
