Multi purpose Insect Killer

READY TO USE

Use in and around the home to control insect pests.

Use in and around the garden on vegetables, roses, flowers, and ornamentals.

KILLS OVER 100 NAMED SPECIES
OF INSECT PESTS

Japanese Beetles
Earwigs
Aphids
Ants

ACTIVE INGREDIENTS
Propoxur (87F Suberin Water Soluble) 0.02%
Other Ingredients 0.98%
Total 1%

EPA Reg No. 44V-1

Keep Out Of Reach Of Children
CAUTION

FOR RESIDENTIAL USE ONLY

Net Contents 32 FL OZ (946 ML)
### DIRECTIONS FOR APPLYING TO ROSES & FLOWERS

<table>
<thead>
<tr>
<th>Flower &amp; Pest</th>
<th>How to Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>Aphis, Armyworms, Leafminers, Cabbage Worms, Caterpillars, cartoon, Corn Earworm, Cucumber, Digitalis, Fall Webworms, Fungus, Gooseberries, Japanese Beetles, Leafhoppers, Leafminers, Headhogs, Scale, Earwigs, Spider Mites, Whiteflies, Rose Chafer, Pheon, Scale, Insects</td>
<td>Apply as needed to ensure uniform coverage. Can be applied up to 3 days prior to harvest.</td>
</tr>
</tbody>
</table>

On rose caterpillars, application should be made when caterpillars are young and leaves are fresh. For best results, apply in the late afternoon or evening when caterpillars have returned to their tents. A few caterpillars may be seen escaping from the tent; however, they should die within several hours.

### VEGETABLES

<table>
<thead>
<tr>
<th>Vegetable</th>
<th>Pest</th>
<th>How to use</th>
</tr>
</thead>
<tbody>
<tr>
<td>Asparagus</td>
<td>Asparagus Beetle, Cutworms</td>
<td>Apply as needed to ensure uniform coverage. Can be applied up to 3 days prior to harvest.</td>
</tr>
<tr>
<td>Broccoli, Cabbage, Cauliflower</td>
<td>cabbage Lerp, Whiteflies, Mites, Spider Mites, Whiteflies, Scale, Insects</td>
<td>Apply as needed to ensure uniform coverage. Can be applied up to 3 days prior to harvest.</td>
</tr>
<tr>
<td>Peppers</td>
<td>Vegetable Leafminers, Cabbage Looper, Flea Beetle, Corn Earworm, Pepper Weed, European Corn Borer</td>
<td>Apply as needed. Can be applied up to 3 days prior to harvest.</td>
</tr>
<tr>
<td>Tomatoes</td>
<td>Beef and southern armiworm, Tomato pinworm, Tomato fruitworm, Horn worms, Granulate cutworm, Colorado potato beetle, Cabbage looper</td>
<td>Apply as needed for uniform coverage. Can be applied up to 3 days prior to harvest.</td>
</tr>
</tbody>
</table>

For optimal results, apply in the late afternoon or evening when pests are present. Repeat as necessary, using intervals of 3-7 days. Application can be made up to 7 days prior to harvest.
**FIRE ANT CONTROL**

**INDIVIDUAL MOUND AND PLANT CONTAINER TREATMENT**

Gently apply over the surface of each mound. Thoroughly wet mound and surrounding area of 3 x 4 ft. (1.2 sq. ft.) for best results. Apply in cool weather 60°F-80°F, early or late in the day. Treat new mounds as they appear. Pressurized sprays may disturb ants and cause migration, which will reduce product effectiveness. Use the same method as above for the control of Fire Ants that may nest in permanently placed containerized ornamental plants.

For use only as an aid in reducing infestations from these insects on the following:
- Cluster flies
- Flying moths
- Gnats
- House flies
- Mosquitoes
- Spiders
- Spp. on screens, doors, windows, frames and wherever these insects may enter the room
- Also treat surfaces around light fixtures or on porches, in garages and other places where these insects congregate. Repeat as necessary.

**STORAGE AND DISPOSAL**

**Shade** Store and transport in an upright position. Do not contaminate water, food or feed by storage or disposal. Store in cool, dry area away from heat or open flame. **Disposal** Incinerate or, if not feasible, dispose of in a sanitary landfill. **Packaging** Do not reuse or refill this container. Place in trash or offer for recycling if available, or at collection point. **Disposal** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
