**BOTTOMKOTE® PRO**

**PRODUCT DESCRIPTION:** Proven performance for boatyards that requires economical dependable sanding and sealing protection. Attainable anti-oxidation properties maintain paint build-up and high acid and alkali resistance. Its low content reduces solvent emissions. Bottomkote Pro can be applied over all types of properly prepared bottom paints and surfaces except aluminum.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**COMPATIBILITY:** Bottomkote Pro can be applied over most other antifouling paints provided the old coating is tightly adhered, is in sound condition and has been thoroughly cleaned with 80 grit wet-or-dry sandpaper. Bottomkote Pro can be applied by brush, roller or spray.

**W.O.C.:** Less than 300 grams/gal. (7.5 lbs./gallon).

**THINNER:** Interlux Special Thinner 216 or Interlux BrushEase 433.

**CLEAN-UP:** Special Thinner 216 or BrushEase 433.

**ESTIMATED DRY TIMES:**

**THEORETICAL COVERAGE:** 3/4 sq. ft./gallon yields 2 mils dry film thickness.

**RINNING:** Only necessary when:

- Do not exceed 10% maximum
- APPLICATION TEMPERATURE: 50°F (10°C) and above (air and hull).

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING**

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and hat. May be fatal if swallowed or inhaled. Do not breathe dust, vapor or spray mist. While spraying paint or sanding or sand blasting boat surfaces, wear a mask or a respirator jointly approved by the Mine Enforcement and Safety Administration and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

**FIRST AID**

If swallowed:

- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

If on skin or clothing:

- Take off contaminated clothing.
- Wash skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**Note to Physician:** Contains petroleum hydrocarbons; vomiting may cause aspiration pneumonia.

**ENVIRONMENTAL HAZARDS**

This material is toxic to fish. Do not apply directly to water by cleaning of equipment or disposal of wastes. Do not allow chips and/or2 dust during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of the NPDES Permit. Apply the Interlux Anti-Foul Polishing Gel Removal System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD**

Do not use or store near heat or open flame.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

**PESTICIDE DISPOSAL:** Pesticide wastes are extremely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Groundwater Quality representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Non-refillable container. Do not reuse or refill container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the fresh begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drains for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

**FOR CHEMICAL, EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL FREE CHEMTECH 1-800-432-9308 (DAY OR NIGHT) MEDICAL ADVISORY, CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-555-6313.**

**PREPARATION**

**PREVIOUSLY PAINTED SURFACES - GOOD CONDITION**

- Remove all traces of loose paint and contamination by sanding the entire surface with 80 grit wet-or-dry sandpaper. Wipe surface clean with Special Thinner 216. Apply 2 coats of Bottomkote Pro.

**PREVIOUSLY PAINTED SURFACES - POOR CONDITION**

- Completely remove all old antifouling paint, using Interlux InterStrip 296E. For fiberglass, and wood, and by sandblasting or grinding to near white metal for steel. Follow application systems below.

**BARE FIBERGLASS**

It is very important that bare fiberglass be properly prepared to prevent delamination of the antifouling paint. Occasionally, loosely attached paint may be removed using one of the following Interlux products. Interlux Surface Prep YMA601 or Fiberglass Surface Wash 232 following the label instructions. Fill any surface imperfections with Interlux InterFill 141 following the instructions. After the surface has been properly cleaned, proceed with one of the application systems below.

**APPLICATION SYSTEMS**

**BARE FIBERGLASS - NO SAND SYSTEM**

- Clean the surface following the preparation procedure above. Apply one coat, of Interlux InterProtect 2000 or Fiberglass No-Sand Primer YMA200 following the label instructions for applying the primer and overcoating with antifouling paint. Apply two coats of Bottomkote Pro allowing for the appropriate dry times.

**BARE FIBERGLASS - SANDING SYSTEM**

- Clean the surface following the preparation procedure above. For bare fiberglass, sand the entire surface with 80 grit sandpaper until a flat matte finish is obtained. Wipe the sanding residue off the surface with Fiberglass Sanding Wash 200. Sand and wipe clean. Apply two coats of Bottomkote Pro allowing for the appropriate dry times.

**BARE FIBERGLASS - BLISTER PREVENTION SYSTEM**

- Apply the InterProtect system for the prevention of blisters. Contact the Interlux Technical Service Department at 1-800-468-7589 or visiting your paint counter for complete instructions on the application of the InterProtect System.

**BARE WOOD**

- Sand the entire surface with 80 grit sandpaper. Wipe the sanding residue off the surface with Special Thinner 216. Apply two coats of Bottomkote Pro allowing for the appropriate dry times.

**UNDERWATER METALS**

- Contact the Interlux Technical Service Department at 1-800-468-7589 or visiting your paint counter for full information on how to properly prime underwater metals. DO NOT USE ON ALUMINUM.

Color difference may occur between actual paint and color swatch on front of can.

BLUE • AZUL
BOTTOMKOTE® PRO

PRODUCT DESCRIPTION: Proven performance for boatyards that requires economical dependable non-chlorinated antifouling protection. All-time action minimizes paint build-up and high solids, VOC content reduces solvent emissions. BOTTOMKOTE Pro can be applied over all types of properly prepared bottom paints and surfaces except aluminum.

DIRECTIONS FOR USE: It is a violation of federal law to use this product in a manner inconsistent with its labeling.

COMPATIBILITY: Bottomkote Pro can be applied over most other antifouling paints provided the old coating is tightly adhered, is in sound condition and has been thoroughly sanded with 80 grit wet-or-dry sandpaper. Bottomkote Pro can be applied by brush, roller or spray.

V.O.C.: Less than 530 gramoliter (2.75 lbs/gallon).

THEORETICAL COVERAGE: 375 sq. ft./gallon yields 2 miles dry film thickness.

THINNER: Interlux Special Thinner 216 or Interlux Brush Ease 423.

CLEAN-UP: Special Thinner 216 or Brush-Ease 433.

ESTIMATED DRY TIMES:

</tbody>
</table>

*If the air temperature falls below 50°F (10°C) during the 16-hour dry time, extend the dry time and launch time to 36 hours.

PREPARATION:

PREVIOUSLY PAINTED SURFACES - GOOD CONDITION: Remove all traces of loose paint and contamination by sanding the entire surface with 80 grit wet-or-dry sandpaper. Wipe surface clean with Special Thinner 216. Apply 2 coats of BOTTOMKOTE Pro.

PREVIOUSLY PAINTED SURFACES - POOR CONDITION: Completely remove all old antifouling paint with Interlux Interester 2996 for fiberglass, and wood, and by sandblasting or gritting to reveal white metal for steel. Follow application systems below.

BARE FIBERGLASS: It is very important that bare fiberglass be properly prepared to prevent deterioration of the antifouling paint. A marine mold release wax using one of the following Interlux products. Fiberglass Surface Prep YM601 or Fiberglass Solvent Wash 202 following the product label instructions. Fill any surface imperfections with Interlux Winderite 1011 following the label instructions. After the surface has been properly cleaned, proceed with one of the application systems below.

APPLICATION SYSTEMS:

BARE FIBERGLASS - NO SAND SYSTEM: Clean the surface following the preparation procedure above. Apply one coat of Interlux InterProtect® 2000 or Fiberglass No-Sand Primer YG209 following the label instructions for applying the primer and overcoating with antifouling paint. Apply two coats of Bottomkote Pro, allowing for the appropriate dry times.

BARE FIBERGLASS - SANDING SYSTEM: Clean the surface following the preparation procedure above for bare fiberglass. Sand the entire surface with 80 grit sandpaper until a flat matte finish is obtained. Wipe the sanding residue off the surface with Fiberglass Solvent Wash 202. Sand and wipe clean. Apply two coats of Bottomkote Pro allowing for appropriate dry times.

BARE FIBERGLASS - BLISTER PREVENTION SYSTEM: Apply the InterProtect system for the prevention of blisters. Contact the Interlux Technical Service Department at 1-800-468-7389 or visiting yachtpaint.com for complete instructions on the application of the InterProtect system.

BARE WOOD: Sand the entire surface with 80 grit sandpaper. Wipe the sanding residue off the surface with Special Thinner 216. Apply the first coat of Bottomkote Pro followed by 10% with Special Thinner 216 or Brush-Ease 433. Fill seams with Interlux Seam Compound 30 (if necessary). Apply two more coats of Bottomkote Pro conforming, allowing for the appropriate dry times.

DISINQUALIFIED METALS: Contact the Interlux Technical Service Department at 1-800-468-7389 for full information on how to properly prime underwater metals. DO NOT USE ON ALUMINUM.

Color difference may occur between actual paint and color sample on front of can.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear protective clothing such as goggles, long-sleeved cotton shirt, long pants, and hat. May be fatal if swallowed or inhaled. Do not breathe dust, vapor or spray mist. While spraying paint or sanding or sand blasting boat surfaces, wear a mask or a respirator (sustained approved by the Mine Safety and Health Administration) and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID

If swallowed:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

If an skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Other:
- Have the product container or label with you when calling a poison control center or doctor.

Note to Physician: Contains petroleum distillate – vomiting may cause aspiration pneumonia.

ENVIRONMENTAL HAZARDS

This material is toxic to fish. Do not apply directly to water by painting equipment or disposal of waste. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill. Do not discharge effluent containing this product into streams, lakes, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent in wastewater systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARD

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray runoff, or rinsewater is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into equipment approved for a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recyle. Shake for 10 seconds. Pour rinse into approved equipment or a mix tank or store rinsewater for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, EXPOSURE OR ACCIDENT, CALL TOLL-FREE: "CHEMTREC 1-800-468-7389 (DAY OR NIGHT) MEDICAL ADVICE: CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-222-1222."

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wear protective clothing such as gloves, long-sleeved cotton shirt, long pants, and a respirator if dusting is involved. Do not breathe dust, vapor, or smoke. While spraying, paint or sand blasting boat surfaces, wear a mask or respirator supplied and approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

FIRST AID

If swallowed:
- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

If on skin or clothing:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.

If in eyes:
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If inhaled:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
- Call a poison control center or doctor for further treatment advice.

Other:
- Have the product container or label with you when calling a poison control center or doctor.

Note to Physician: Contains petroleum distillate—vomiting may cause aspiration pneumonia.

Environmental Hazards

This product is toxic to fish. Do not apply directly to water or on vegetation. Do not allow chips and dust generated during paint removal on water. Do not dispose of paint residues in approved landfill. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the applicable regulations. Notify the appropriate authorities if the disposal is in violation of the rules.

Physical or Chemical Hazard

Do not use or store near heat or open flame.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. Do not incinerate. See the section on Pesticide Disposal for more details.

Pesticide Disposal: Pesticide wastes are hazardous wastes. Improper disposal of excess pesticide, sprays, or containers is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative of the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. It is an environmental hazard. Do not incinerate. See the section on Pesticide Disposal for more details.

For Chemical Emergency, Spill, Leak, Exposure or Accident, Call Toll Free: CHEMTOX 1-800-224-3000 (DAY OR NIGHT) MEDICAL ADVISORY, CONTACT YOUR LOCAL POISON CONTROL CENTER OR CALL 1-800-354-6813.

PREPARATION

PREVIOUSLY PAINTED SURFACES - GOOD CONDITION:

Remove all traces of loose paint and contamination by sanding the entire surface with 80 grit wet or dry sandpaper. Apply the Interlux InterProtect E200 or Interlux Brush Ease 433. Apply the Interlux Special Thinner 216 or Interlux Brush Ease 433. Allow the surface to dry for at least 2 hours.

PREVIOUSLY PAINTED SURFACES - POOR CONDITION:

Complete removal of all old antifouling paint, using Interlux InterStrip 200E for fiberglass, and wood, and by sanding or grinding to the desired finish. Apply the Interlux InterProtect E200 or Interlux Brush Ease 433. Allow the surface to dry for at least 2 hours.

APPLICATION SYSTEMS

BARE FIBERGLASS - NO SAND SYSTEM:

Clean the surface following the preparation procedure above. Apply one coat of Interlux InterProtect E200 or Interlux Brush Ease 433. Rinse the surface with Interlux InterClean 200E. Allow the surface to dry for at least 2 hours.

BARE FIBERGLASS - SANDING SYSTEM:

Sand the surface following the preparation procedure above. Apply one coat of Interlux InterProtect E200 or Interlux Brush Ease 433. Rinse the surface with Interlux InterClean 200E. Allow the surface to dry for at least 2 hours.

BARE FIBERGLASS - BLISTER PREVENTION SYSTEM:

Apply the InterProtect system for the prevention of blisters. Contact the Interlux Technical Service Department at 1-800-468-7589 or visit yachtsupply.com for complete instructions on the application of the InterProtect system.

BARE WOOD:

Sand the surface following the preparation procedure above. Apply one coat of Interlux InterProtect E200 or Interlux Brush Ease 433. Rinse the surface with Interlux InterClean 200E. Allow the surface to dry for at least 2 hours.

UNCOATED METALS:

Contact the Interlux Technical Service Department at 1-800-468-7589 for full information on how to properly prime underwater metal. DO NOT USE ON ALUMINUM.

Color difference may occur between actual paint and color swatch on front of can.
