SEE BOOKLET FOR DIRECTIONS FOR USE.

**First Aid**

**If Swallowed:** Call poison control center or doctor immediately for treatment advice. Have person sip a class of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth method if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor for more information regarding misuse or pesticide on pets. For information regarding misuse on livestock or poultry, call 1-888-274-6727.
**FIRST AID**

**IF SWALLOWED:**
- Call 9-1-1 or local poison control center immediately for treatment advice.
- Do not give anything by mouth to an unconscious person.

**IF IN EYES:**
- Hold eye open and gently rinse with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing.

**IF ON SKIN OR CLOTHING:**
- Take off contaminated clothing.
- Rinse exposed skin with soap and water for at least 15 minutes.

**IF INHALED:**
- Move person to fresh air.
- Call 9-1-1 or local poison control center for treatment advice.

**IF EXPOSED TO HIGH PRESSURE:**
- Call 9-1-1 or local poison control center for treatment advice.

**IF SWALLOWED, INHALED, OR APPLIED:**
- Call 9-1-1 or local poison control center for treatment advice.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

- Do not wash or handle treated clothing or any item that may have been in contact with the treated area until the product has dried completely.
- Do not apply this product near livestock feeding areas, water sources, or places frequented by children or domestic animals.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

- Wear protective clothing, including a long-sleeved shirt and long pants, when handling this product.
- Use appropriate respiratory protection, such as a dust mask, when handling this product.
- Always observe the label instructions for use and storage.

**ENVIRONMENTAL HAZARDS**

This product is highly toxic to fish. Do not contaminate water, fish, or fish-bearing waters.

**DIRECTIONS FOR USE**

- This product is intended for use by professional operators and specialized workers.
- Do not apply this product to ornamental plants.
- Do not contaminate water, fish, or fish-bearing waters.
- Do not contaminate food or foodstuffs.

**NON-AGRICULTURAL USE REQUIREMENTS**

- This product is not intended for use by the general public.
- Only use this product as directed by a certified applicator.

**FOR USE AS A LIVESTOCK AND Poultry SPRAY**

1. To kill insects on broilers, turkeys, or other poultry, use at the rate of 3 g per gallon of water and apply at a rate of 0.1 gallons per 100 square feet of treated area.

2. To control poultry parasites, use at the rate of 0.5 g per gallon of water and apply at a rate of 0.1 gallons per 100 square feet of treated area.

3. To control external parasites, use at the rate of 0.1 g per gallon of water and apply at a rate of 0.1 gallons per 100 square feet of treated area.

4. To control internal parasites, use at the rate of 0.01 g per gallon of water and apply at a rate of 0.1 gallons per 100 square feet of treated area.

**NOTES**

- This product is highly toxic to fish. Do not contaminate water, fish, or fish-bearing waters.
- Always observe the label instructions for use and storage.
FOR USE AS A LIVESTOCK AND POULTRY SPRAY (cont.)

1. To control adult Diabasea, apply 0.3 oz. of PyGanic for every 500 lbs. of livestock. Apply a single spray and wait at least 10 minutes or 2 hours, whichever is longer. Do not apply the spray within 100 feet of water. For maximum effectiveness, treatments should coincide with peak activity or sanitation precautions.

2. Indoor control can be enhanced by using perimeter barriers around the outside of buildings to prevent introducing additional insects. Treatments should be applied at the first sign of an infestation to prevent the establishment of new populations.

3. For maximum effectiveness, treatments should coincide with peak activity or sanitation precautions.

4. For use in barns, stables, milking parlors, turkey houses and poultry houses:

   - Control flying insects (ex. stinkbugs, whiteflies, thrips, mealybugs, mites, flies)
   - Stop fly control by applying aminopyralid
   - Apply at the rate of 5 oz. per 1,000 cubic feet of space, covering the area for maximum coverage and allowing for return of the displaced flying insect to the treated area. Apply in the treated area and wait 10 minutes before returning.

STORAGE AND DISPOSAL

Do not inhale the spray. Store in the spray. Store in a dry, safe, well-ventilated area. Capsules are available in their original containers. Store away from heat, food, feed, fertilizers, and other hazardous materials.

PESTICIDE DISPOSAL: To avoid exposing the container to application of product to label directions. Keep the container from the applicator by applying a product to a waste disposal facility or permitted disposal course. After such products are run by the local government or by the owner.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Triple rinse container for use or disposal by applying a product to a waste disposal facility or permitted disposal course. After such products are run by the local government or by the owner.

Triple rinse or washout: Empty the container into a suitable metal container. Add water to the container and rinse with a 1:100 ratio of water and washout, and pour into a waste disposal facility. Repeat this procedure twice more times. Then after for 2 weeks, the container is considered to be empty. Do not burn the container by placing it in a fire or by incineration.

Livestock and Poultry Insecticide

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category F on an EPA chemical resistance category selection chart.
- Acrylonitrile butadiene styrene (ABS)
- Acetal (Delrin)
- Polyethylene (LDPE)
- Polypropylene (PP)
- Polyethylene terephthalate (PET)
- Poly(vinyl chloride) (PVC)
- Neoprene rubber
- Nitrile rubber

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations:
- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is highly toxic to fish. For terrestrial uses, do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift from treated areas may be hazardous to organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
