This dual action product reduces phosphates and treats algae in swimming pool water. Phosphates are food for algae and without them present in the water, algae cannot grow. By using POOLIFE® Exclusive Pool Care Collection AlgaePhos Algaecide, algae will be stopped in its tracks. Your pool will be algae free all season long!

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. APPLICATION FOR SWIMMING POOLS: This product is compatible with all EPA registered sanitizers including chlorine, bromine, biguanide, salt water, ozone, and mineral sanitized pools. When using other EPA registered products, always follow the directions for use. Sunlight, rainfall, temperature, number of swimmers and frequency of pool use, all affect the rate of chlorine loss. Always maintain chlorine levels between 1.3-3 parts per million (ppm). Ensure all pool equipment is working properly. Clean or backwash the filter following the manufacturer’s direction.

INITIAL APPLICATION: SHAKE WELL BEFORE USING.

1) If visible algae is present, add 25 ounces per 25,000 gallons of water (2 ppm). For clean pools, add 16 ounces per 25,000 gallons of water (2 ppm). Pour directly into the water by distributing product along the edge of the pool.
2) Operate the pump continuously for 4 hours to allow product to distribute evenly throughout the pool and to allow the filter to recover any phosphates removed from the water.
3) After 24 hours, if necessary, brush dead algae off pool surfaces. If algae is still present, repeat step 1.

MAINTENANCE: SHAKE WELL BEFORE USING.

To prevent algae growth, add this product weekly or after heavy rain at the rate of 4 ounces per 25,000 gallons of water (0.5 ppm) by pouring directly into the water along the edge of the pool. Maintain the circulation by running the pump for at least 4 hours after application.

NOTE: Swimmers can re-enter the pool 15 minutes after application.

PRECAUTIONARY STATEMENTS: HAZARD TO HUMANS AND DOMESTIC ANIMALS - DANGER: Keep Out of Reach of Children. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if ingested. Avoid contact with eyes or contact lenses. Inhalation of mist or vapors may irritate respiratory tract. High vapor concentrations may cause central nervous system effects. Harmful if swallowed and absorbed through the skin. Do not get into eyes, on skin or on clothing. Wear protective eyewear (goggles, face shield, or safety glasses), rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Remove contaminated clothing and wash clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame. Do not mix with oxidizers, soap or anionic detergents or other water treating chemicals.

ENVIRONMENTAL HAZARDS: This product is toxic to fish, aquatic invertebrates, oysters and shrimp.

IN CASE OF SPILL: Absorb with sand or vermiculite and place in closed containers for disposal. Ventilate area and wash spill site after material has been picked up. Large spills should be contained, the material placed into containers and disposed of by approved methods for hazardous waste.

STORAGE AND DISPOSAL: Keep this product dry in tightly closed container away from persons and children unfamiliar with its use. Store in cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. If not, discard in trash. Do not contaminate food or feed by storage or disposal.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse water is a violation of Federal Law. These wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Fill container ¾ full with water and recap. Shake for 10 seconds. Empty the rinse into the application equipment or mix tank or store rinsewater for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

FIRST AID: IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration. If the person is conscious, breathe fresh air. If skin is exposed to product, wash with soap and water. If eyes, or clothing become contaminated, remove contaminated clothing and wash clothing before reuse.

IN CASE OF EMERGENCY CALL: 1-800-654-6911.

ACTIVE INGREDIENT:
Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride 40.0%

OTHER INGREDIENTS:
60.0%

TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN
