WOLMAN® E (µCA-C)

FOR INDUSTRIAL USE ONLY

ACTIVE INGREDIENTS:
- BASIC COPPER CARBONATE* - 43.4%
- Tebuconazole - 0.5%
- Propiconazole - 0.5%
- OTHER INGREDIENTS - 55.6%
Total - 100.0%

* 25% Copper elemental equivalent. This product contains Sodium Nitrite.

KEEP OUT OF REACH OF CHILDREN

DANGER

See side panel for additional precautionary statements

FIRST AID

IF IN EYES:
- Hold eye and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN or CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF INHALED:
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferable by mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when you call a Poison Control Center or doctor, or when going for treatment.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Manufactured for: Arch Treatment Technologies, Inc.
360 Interstate North Parkway, Suite 450, Atlanta, GA 30339
ACEAN 24-Hr. Emergency Response 800-654-6911
EPA Reg. No. 75506-12
EPA Est No. 62190-GA-001
Net Contents: 275 Gallons

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product has been developed to be used for treatment of wood products. This product can be used in Tank Mixes with other compounds approved for wood treatment or EPA approved products. Do not attempt to use without having the necessary safety equipment. To be used only in treatment of wood products utilizing water solutions having concentrations ranging from 0.1 percent to 5.0 percent active ingredients by weight. Impregnation procedures must rigidly adhere to the current specifications of Arch Treatment Technologies, Inc, or the American Wood Protection Association. Processes used to apply Copper Azole formulations shall leave no visible surface deposits on the wood. Visible surface deposits means a surface residue or crystallization on the treated wood. Small isolated or infrequent spots of chemical on otherwise clean wood shall be allowed. Treatment of wood products with this Copper Azole wood preservative provides wood with protection against termites, ascomycetes, white rot, brown rot, soft rot, and dry rot. The percent solution to be used should be based on the retention in lbs. per cubic foot (pcf) specified by the purchaser and by the treating process used.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not re-use empty container. In case of spill or leak; Stop source of spill as soon as possible and notify appropriate personnel. Utilize emergency response personal protection equipment prior to the start of any response. Evacuate all non-essential personnel. Contain all liquids for treatment or disposal. Water Release: This material is dispersible in water. Notify all downstream users of possible contamination. Divert water flow around spill if possible and safe to do so. Land Runoff: Disperse or contain material by any means, including sorbent spill with inert material (e.g., dry sand, clay, earth or commercial absorbent), then place in a chemical waste container. Avoid runoff into storm sewers and ditches which lead to waterways. Contain all liquids for treatment or disposal. Dispose of spill residues per Federal, State, and local EPA guidelines.

PESTICIDE DISPOSAL:

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Triple rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

CONTAINER DISPOSAL:
Nonrefillable Container. Do not re-use or refill this container. Offer for recycling if available. Triple rinse container promptly after emptying. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
