some pre-emergence control (21 days) of grasses and
broadleaf weeds
- For the control of grasses and broadleaf weeds in crop and non
crop areas
- concentrated emulsion
- NO re-en try interval

Active Ingredients:
Lemon grass oil ........................................... 15%
clove oil ...................................................... 5%
Eucalyptus oil ............................................ 10%
Other Ingredients:
Fish Oil ..................................................... 70%
Total ......................................................... 100%

DIRECTIONS FOR USE
Use only according to label instructions:
Read the entire label before using this product.
Shake well before using Weed-A-Way. It is a non-selective weed
control around crops and non-crop areas. Avoid contact to crops.
Apply Weed-A-Way directly to weeds.
Best result when weeds are 1/2” to 2” in height, cover weeds
thoroughly. Spraying with hooded spray
equipment is recommended to prevent the spray from contacting
the crop. DAMAGE TO THE CROP WILL OCCUR.

CAUTION: KEEP OUT OF REACH OF
CHILDREN OR ANIMALS.

SHAKE WELL BEFORE MIXING
General Information: Weed-A-Way is a non selective, broad spectrum foliar herbicide. This product will only control actively growing emerged green vegetation. It controls both annual and perennial grasses and broadleaf weeds. For best control spray when weeds are small 1/2" to 1" in size. The degree of control is less when plants are mature. The product does NOT translocate. Weed-A-Way will affect only those areas of the plant that are coated with the spray solution. It works as a desiccant.

NOTE: COMPLETE COVERAGE IS ESSENTIAL FOR CONTROL. LEAF DAMAGE WILL BE NOTICEABLE 8 HOURS AFTER APPLICATION. IT WILL TAKE 2 TO 3 WEEKS TO TOTALLY KNOCK DOWN THE WEEDS. COOL WEATHER WILL SLOW DOWN THE ACTIVITY OF THIS PRODUCT.

Repeat treatments will be necessary for new weeds emerging from seeds or from re-growth of treated vegetation. Use of an adjuvant spreader and/or penetrant will enhance product; performance and is highly recommended for best results for weed control.

**Dilution rates:** Note: continuous agitation is required!!

Apply 7 OZ. of Weed-A-Way per gallon of water for weeds under 2/3 inches high, or 7 gallons in 100 gallons of water. For weeds above 3 inches apply 15 ounces per gallon of water, or 15 gallons per 100 gallons of water.

**COVERAGE ISVERY IMPORTANT. THE BETTER THE FOLIAR COVERAGE, THE BETTER THE PRODUCT'S PERFORMANCE. FOR WEEDS 6 INCHES IN HEIGHT, 2 OR MORE APPLICATIONS WILL BE REQUIRED.**

**Package Sizes**

1) Net 1 gallon (128 fl. oz.), 3784 M Liters, 7.6 Lbs. 6 per case Wt 48 Lbs.
2) Net 2.5 Gallons (320 Fl. Oz.) 9.463 Liters, Wt.24 Lbs. each 2 - 2.5 gallons per case Wt. 48Lbs.
3) 55 Gallon drum (7,040 Fl. oz.) 208.186 Liters, Wt. 418 Lbs.

**STORAGE AND DISPOSAL OF CONTAINERS**

STORE IN A DRY COOL AND LOCKED STORAGE AREA
DO NOT REUSE EMPTY CONTAINERS WASH OUT BEFORE DISPOSING QUARTS, 2.5 GAL AND DRUMS.
