FUNGITROL® 960S FUNGICIDE
For Manufacturing Use to Impart Mildew Control on Paint and Stain Films, Adhesives, Caulks and Sealants, and Decay Protection in Wood Composite Products.

ACTIVE INGREDIENT: 
{4-Methylthio-3-pentanone (2-Phenyl-1H-imidazole-4-carboxylic acid 4-(methylthio) methyl ester) 98%}

OTHER INGREDIENTS: 
Water 1-2% 
TOTAL 
100.0% 

KEEP OUT OF REACH OF CHILDREN
DANGER-PELIGRO

FIRST AID
If Inhaled 
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
• Call a Poison Control Center or doctor for further treatment advice.

If In Eyes 
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a Poison Control Center or doctor for treatment advice.

If on Skin or Clothing
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a Poison Control Center or doctor for treatment advice.

If Swallowed
• Call a Poison Control Center or doctor immediately for treatment advice.
• If swallowed, do not induce vomiting unless told by a Poison Control Center or doctor.
• Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. (If you are having a temporary allergy reaction control treatment with antihistamines or steroid creams and/or systemic steroids.)

Emergency Phone Numbers: (800) 424-6300 CHEMTREC (transportation and spills) 
See Side Panel for Additional Precautionary Statements.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER-PELIGRO
Contact with eyes, skin, or mucous membranes may cause eye damage. DO NOT get in eyes or on clothing. Wear personal protective equipment (goggles, face shield, or safety glasses). Wash thoroughly with soap and water after handling. Fail to follow instructions can cause blindness. DO NOT take internally.

NOTICE TO USER:
This product may produce contact allergy skin effects characterized by redness of the eyes, burning sensation and irritation or redness or couperosis in sensitive persons. In rare cases, contact allergy reaction could cause a systemic reaction.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Handle only with: 
• Long-sleeved shirt and long pants;
• Gloves plus socks;
• Protective eyewear;
• Respirator with gases of the materials are chemical-reactive gases captured in barrier-laminated, metal-box, self-contained breathing apparatus (SCBA) or SCBA with NIOSH-approved air-purifying respirator or SCBA with NIOSH-approved oxygen-air mixtures.

Wear long sleeves to avoid exposure to direct sunlight. When working with products of this nature, follow appropriate protective clothing and equipment at the time-of-use. NIOSH-approved respirators are not recommended.

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove PPE immediately after this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
• Remove clothing immediately if paint gets inside. Then thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS
This product is toxic to wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other watercourses in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authorities have been notified in writing prior to discharge. DO NOT discharge effluent containing this product into sewers systems without notifying the local sewage treatment plant authority. For instance, contact your state Waste Board or Response Officer or the EPA.

DIRECTIONS FOR USE
If it is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is used to protect treated surfaces from decay, mold or mildew damage and stains, adhesives, caulks, greases, inks, wood and wood composite products. Do not apply this product to a way that will contact workers or others. Only protected handlers may be in the area during application.

This product must be used as a midpoint paint additive designed for direct sale to retail customers, e.g. in a "packout" or other small volume re-use package.

This product may be added only to paint products that are labeled:
• As a Paint Stain additive;
• For use in the application or mixing of the following applications:
• As a Wainscoting: When applying with a sprayer, use a 50:50 approved respirator with any K, P, or H filter. (If oil is not present in the paint product or recommended for use in an additive in the paint product, add "W" or an additional new coat type.)

This product must be treated as an off-the-shelf product.

FUNGITROL® 960S FUNGICIDE, a miscellaneous product, is best dispensed through the dispensing equipment for paints, stains and coatings. Underwing equipment normally used in the paint industry is recommended.

LATEX EMULSION PAINTS, STAINS AND COATINGS
Different conditions can affect the paint film after it is applied. Use the high rate in areas favorable to acclimate and avoid growth, such as when applying new pavement, garage doors, etc. FUNGITROL® 960S FUNGICIDE, when added to stearated derivative, also protect the wood from white mold and mildew damage caused by decay. FUNGITROL® 960S FUNGICIDE, when added to stearated derivative, also protect the wood from white mold and mildew damage caused by decay.

FUNGITROL® 960S FUNGICIDE should be used to protect post-manufacturing paint additive products. Each product must be tested to be used only for its original purpose as a paint film and finished product, or for the purpose stated on the trade name. The white mold and mildew damage caused by decay. FUNGITROL® 960S FUNGICIDE can be used in the paint formula during the paint's growth, operation, during or after time, or postproduction of a finished paint product after manufacture.

FUNGITROL® 960S FUNGICIDE can be used in the paint formula during the paint's growth, operation, during or after time, or postproduction of a finished paint product after manufacture.

NOTES:
If FUNGITROL® 960S FUNGICIDE is used to protect post-manufacturing paint additive products, each product must be tested to be used only for its original purpose as a paint film and finished product, or for the purpose stated on the trade name. The white mold and mildew damage caused by decay. FUNGITROL® 960S FUNGICIDE can be used in the paint formula during the paint's growth, operation, during or after time, or postproduction of a finished paint product after manufacture.
