NOT FOR USE on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

In New York State this product may only be used by commercial applicators and at no more than 238 lb (0.5 lb of active ingredient) per acre per year (or 5.4 lb per 1,000 ft sq per year) and is prohibited from use in Nassau and Suffolk Counties.

**ACTIVE INGREDIENTS:**
- Dithiopyr, 3,5-pyridylcarboxylic acid, 2-(difluoromethyl)-4-(2-methoxypropyl)-6-(difluoromethyl)-5,5-dimethyl ester .......................... 21% 
- inert ingredients ........................................................................ 79% 79% 

Total: 100.0% 

Product protected by U.S. Patent No. 4,692,184. Other patents pending.

Read the entire label before using this product. Use only according to label instructions.

**NOTICE:** Before using this product, read the Use Precautions, Warranty Statements, Directions for Use, and the Storage and Disposal Instructions. If the Warranty statements are not acceptable, return the product unopened within thirty days of purchase to the place of purchase.

**KEEP OUT OF REACH OF CHILDREN CAUTION**

**FIRST AID:**
- **If swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
- **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- **If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.
- **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact Chem-Tec 1-800-424-5300 for emergency medical treatment information.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION! CAUSES EYE IRRITATION, HARMFUL IF INHALED.** Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and highly toxic to other aquatic organisms including fish, shrimp, and frog. Use with care when applying to turf areas adjacent to any body of water. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwaters.

**DIRECTIONS FOR USE**

This product is a herbicide that provides control of crabgrass, other annual grasses, and broadleaf weeds in established lawns and ornamental turfs, including golf course fairways, roughs, and tee boxes. This product will not harm nearby established ornamentals when used according to label directions.

This product may be used on seeded, sodded, or sprigged lawns and ornamental turfs that are well-established. The grass must have developed a root system and a uniform stand, and have received at least two waterings following its seeding, sodding, or sprigging before it receives its first application of this product. Use of this product on lawns and ornamental turfs that are not well-established, or on those that have been weakened by weather, pest, disease, chemical, or mechanical-related stress, may increase the chances for turf injury.

This product should only be applied to lawns and ornamental turfs that are composed of the following turfgrass species that have been determined to be tolerant to applications of this product. When applied as directed under these use directions, the following established turfgrasses are tolerant to this product:

**Cool-Season Grasses:**
- Bentgrass, creeping** Agronostis palustris
- Bluegrass, Kentucky Poa pratensis
- Fescue, fine** Festuca rubra
- Fescue, tall Festuca arundinacea
- Ryegrass, perennial Lolium perenne

**Warm-Season Grasses:**
- Bahiagrass Paspalum notatum
- Bermudagrass Cynodon dactylon
- Buffalograss** Buchloe dactyloides
- Carpetgrass Axonopus affinis
- Centipedegrass Eremochloa ophiocloides
- Kikuyagrass Pennisetum clandestinum
- St. Augustinegrass Zoysia matrella
- Zoysiagrass Zoysia japonica

**DO NOT apply this product to Colonial Bentgrass (Agronostis tenella) varieties.**

*Use of this product on certain varieties of Creeping Bentgrass, such as 'Cohasset', 'Carmen', 'Seaside', and 'Washington' may result in undesirable turfgrass injury. Not all varieties of Creeping Bentgrass have been tested.

**DO NOT use this product on certain varieties of Fine Fescue may result in undesirable turf injury.** The following Fine Fescue varieties have been found to be sensitive to this product: 'Atlantic', 'Beverly', 'Beulah', 'Bijou', 'CF-Z', 'Early', 'FF-63', 'Highlight', 'Himal', 'Jamestown', Kooy's, 'Majestia', 'Mary', 'Perennia', 'Tamaris', 'Tupin', 'Wadley', and 'Waldok'. Not all varieties of Fine Fescue have been tested.

**DO NOT use this product on seeding Buffalograss in the spring of the first year of establishment until the turf is fully grown and has established new roots.**

**DIMENSION TURFGRASS REGIONS**

**RESEEDING, OVERSEEDING, OR SPRIGGING**

Reestablishing, overseeding or sprigging of treated areas with this product should be delayed until 12 weeks from the time of application. Reestablishing, overseeding or sprigging before 12 weeks after application may prevent establishment of desirable turfgrasses. When reestablishing or overseeding, proper cultural practices such as soil cultivation, irrigation and fertilization should be followed. However, overseeding with perennial ryegrass in the fall, overseeded 8 weeks or later after a single application. For best results, use mechanical or power seeding equipment (silt sealers) designed to give good seed to soil contact.

**USE PRECAUTIONS**

- **Not for use on Golf Course Putting Greens**
- The early post-emergence crabgrass control described below is limited. Post-emergence applications are only effective on crabgrass if applied before crabgrass has displayed its fifth leaf or first tiller. For best results, cultural practices that disturb the soil, such as core, spike, or hydro-aeration, and verticutting, should be done before application of this product. DO NOT apply this product until the grass has recovered from these cultural practices.
- Apply this product directly to established lawns or ornamental turfs only.
- **DO NOT apply to flowers, vegetables, shrubs, or trees.**
- **DO NOT use clippings from treated turf for mulching around vegetables or fruit trees.**
- **DO NOT apply this product to pastures. Keep people and pets off treated areas until dust has settled.

APPLICATION DIRECTIONS - Control of Crabgrass
Pre-emergence and Early Post-emergence Control

This product provides "pre-emergence" control of crabgrass (including the large, smooth, and southern species) when applied to the pre-emergence control of crabgrass from the ground in established lawns and ornamental turf. It can also provide "early post-emergence" control of crabgrass during the early stages of crabgrass growth after the crabgrass has emerged from the ground. However, it is often difficult to see the very small, early stages of crabgrass in well-established lawns and ornamental turf. Early post-emergence crabgrass control will be obtained only when this product is applied prior to the tillering of crabgrass, which generally corresponds to the time when you can first easily see the crabgrass plants in the lawn or turf. So the practical benefit of this product's additional, early post-emergence activity is that (compared to strictly pre-emergence crabgrass products). Dimension controls crabgrass prior to and up to 4 weeks after emergence.

Application Frequency and Timing

This product may be applied as a single application, as a split application, or as a sequential application for crabgrass control in the spring, summer, or fall. DO NOT apply more than 5.45 lb of this product per 1,000 sq ft per application, and no more than 13.6 lb of this product per 1,000 sq ft per year.

Spring Applications

For single applications made in the spring or early summer, this product should be applied at the appropriate rate corresponding to one of the three control programs listed in Table 1 below, depending on the user's location, the turfgrass mowing height, and whether the use is considered to be pre-emergence or early post-emergence at the time of application. The duration of residual weed control provided by this product is directly related to the rate applied, but will vary somewhat depending on weather, weed pressure, turfgrass competitiveness, and the location's within a region.

SUGGESTED SPREADER SETTINGS

| (Recommended Rate: 1.36 lb per 1,000 sq ft) |
| Spreader | 1.36 lb | 1.96 lb | 2.72 lb | 4.04 lb | 5.64 lb | 7.98 lb | 10.8 lb |
| LESCO Pandum | 10 | 11 | 12 | 13 | 15 | 16 | 18 | 20 | 24 |

Application Equipment and Instructions

Apply this product with drop or rotary spreaders designed to apply granular herbicides. Avoid application of spreaders that would apply this product in narrow rows or concentrated bands. Each application, calibrated, the spreader according to the equipment manufacturer's directions for adjusting the spreader settings such that the spreader delivers the appropriate application rate recommended above. Apply this product uniformly over the entire lawn or ornamental turf. A mass uniform application can be made by applying spreading half the required amount over the area and then applying the remaining half at a right angle to the previous direction. Avoid streaking, split, or overlaps during application. Check equipment frequently to ensure equipment is functioning properly and applying uniform distribution of granules.

STORAGE AND DISPOSAL

STORAGE: This product only in its original container in a dry, cool, secured storage area. Do not contaminate water, food, feed, or livestock by applying this product near water or in water irrigation systems. Do not reuse empty containers. DISPOSAL: Store this product in a tightly sealed container and keep out of reach of children and pets. Apply it only in accordance with the product label and application instructions. Do not apply to areas adjacent to bodies of water. Do not apply this product in or near lakes, streams, ponds, brooks, or other water bodies. Follow all state and local rules and regulations. In case of spill, use fabric or other material to contain and prevent the spill from spreading. In the event of a spill, notify the local health or environmental protection agency. KEEP OUT OF REACH OF CHILDREN. Follow all state and local rules and regulations. In case of spill, use fabric or other material to contain and prevent the spill from spreading. In the event of a spill, notify the local health or environmental protection agency.

CONDITION OF SALE AND LIMITATION OF LIABILITY AND WARRANTY

NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before using or using this product. If the labels are not acceptable, return the product to the store where you purchased it and request a replacement. The purchase price will be refunded.

The Directions for Use of this product must be followed carefully and completely. It is impossible to eliminate all risks associated with the use of this product. To the extent consistent with applicable law, Buyer and/or User assumes all risk of loss, damage or injury to persons or property however caused, or injury to persons or property however caused, or injury to the pre-emergence and early post-emergence control of crabgrass. This product may result from conditions outside the control of LESCO, including but not limited to: environmental factors or weather, weather or other conditions outside the control of the application and the soil type on which the product is applied, the presence of other materials, incompatibility of products, or other influencing factors which are beyond the control of LESCO, inc. The purchase price of this product is the entire cost of the product, and LESCO, inc. reserves the right to refuse any such claims for recovery. LESCO, inc. reserves the right to refuse any such claims for recovery.

LESCO, inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes described in the Directions for Use. Subject to the inherent risks referred above, when used in accordance with the Directions for Use of this product, this product is warranted to perform the proper control of crabgrass. However, Buyer and/or User assumes all risk of loss, damage or injury to persons or property however caused, or injury to persons or property however caused, or injury to the pre-emergence and early post-emergence control of crabgrass. This product may result from conditions outside the control of LESCO, inc. and Buyer and/or User assumes the risk of any such use. To THE EXCLUSION CONSISTENT WITH ANY APPLICABLE LAW, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY OTHER EXPRESS OR IMPLIED WARRANTY, EXCEPT AS STATED ABOVE, TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE EXCLUSIVE REMEDY OF THE BUYER, AND/or USER AND THE EXCLUSIVE LIABILITY OF LESCO, INC. FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT, NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERS) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT, IF PAID FOR BY THE PURCHASER, EXCEPT TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, ANY EVENTスポール LESCO, INC. BE LIABLE FOR ANY INDIRECT, CONSEQUENTIAL OR SPECIAL DAMAGES.

LESCO, inc. offers this product, and Buyer and/or User accepts it, subject to the foregoing Conditions of Sale and Limitation of Liability and Warranty and Liability, which may not be modified by any written agreement signed by a duly authorized representative of LESCO, inc.
