GENERAL PRECAUTIONS AND RESTRICTIONS
Do not enter or allow others to enter until dusts have settled.

NON-CROP WEED CONTROL – INDUSTRIAL USE ONLY
This product is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-crop areas such as rights-of-way for power, utility, highway, and railroad and industrial areas such as airports, petroleum tank farms, lumberyards, and plant sites. 100 to 200 pounds applications of this product per acre usually result in a non-productive condition of the soil for a period of one year or more. The duration of non-productivity is dependent upon rainfall, soil type, and other conditions.

This product should be applied as a water spread, a fertilizer spreader, or a gas-powered backpack sprayer, and will distribute the chemical uniformly over the areas to be treated. For the control of annual and perennial weeds and grasses, apply this product at the rate of 200 to 210 pounds per acre (12.5 to 13.7 pounds per 100 square feet). Repeat spot treatment may be required when deep-rooted perennial weeds are present. To obtain best results, the product should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to be more effective than those applied late in the season. The product may, however, be applied at any time of the year. Maximum effectiveness is in regions is obtained when the soil temperature is between 60 and 80 degrees F.

IMPORTANT (Not for Residential Use): Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend because of possible injury to such plants. The product cannot be used with a suitable chemical cleaner before using for other purposes (or do not use same sprayer equipment for other purposes). Do not use on crop seed or any land to be used for subsequent cropping.

Use of this product in certain portions of California, Oregon, and Washington is subject to the January 22, 2004 Order for injunctive relief in Washington Tazos Coalition v. USFWC, No. 03-2082. For further information, please refer to http://www.epa.gov/fipso/.
