Nufarm

TM+CTN SPC 66.6 WDG

Fungicide

Nufarm TM + CTN SPC 66.6 WDG Fungicide contains thiophanate-methyl and chlorothalonil, the active ingredients used in Consyst®.

ACTIVE INGREDIENT:
Chlorothalonil ................................................................. 50.00%
Thiophanate-methyl ....................................................... 16.66%
OTHER INGREDIENTS: ..................................................... 33.34%
TOTAL: ........................................................................... 100.00%

KEEP OUT OF REACH OF CHILDREN
DANGER / PELIGRO

See Inside Label Booklet for FIRST AID and PRECAUTIONARY STATEMENTS

FIRST AID

IF IN EYES
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

IF SWALLOWED
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

IF INHALED
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

HOT LINE NUMBER
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER/PELIGRO

Corrosive. Causes irreversible eye damage. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wear goggles or face shield. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are: barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinyl chloride (PVC), and viton. If you want more options, follow the instructions for Category A on an EPA chemical-resistance category selection chart.

Mixers, loaders, applicators and all other handlers must wear:
- Protective eyewear (faceshield or goggles)
- Long-sleeved shirt and long pants
- Shoes plus socks

In addition, chemical-resistant gloves made out of any waterproof material must be worn by:
1) mixers/loaders,
2) other handlers exposed to the concentrate,
3) cleaners/repairers of equipment,
4) applicators using airlift equipment for golf course applications,
5) and applicators using hand-held equipment.

In addition, a NIOSH-approved respirator with any R, P, N or HE filter must be worn by applicators and other handlers in enclosed areas, such as a greenhouse.

USER SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

ENGINEERING CONTROLS
When handlers use enclosed cabs in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should:
- Wash hands before eating, drinking, chewing gum, or using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to aquatic invertebrates and wildlife. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washerwater or rinsate.

This chemical is known to leach through soil into groundwater under certain conditions as a result of label use. Use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

This chemical can contaminate surface water through spray drift. Under some conditions, it may also have a high potential for runoff into surface water for several days to weeks after application. These include poorly draining or wet soils with readily visible slopes toward adjacent surface waters, frequently flooded areas, areas overlaying extremely shallow groundwater, areas with in-field canals or ditches that drain to surface water, areas not separated from adjacent surface waters with vegetated filter strips, and areas overlaying tile drainage systems that drain to surface water.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.
AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry interval. The requirements in this box only apply to use of this product covered by the worker protection standard.

Notify workers of the application by warning them orally and by posting warning signs at entrances to treated areas.

Do not enter or allow worker entry into treated areas during the restricted-entry level (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard that involves contact with anything that has been treated such as plants, soil, or water, is:

- Coveralls over long-sleeved shirt and long pants
- Chemical-resistant gloves made of any waterproof material
- Chemical-resistant footwear plus socks
- Protective eyewear
- Chemical-resistant headgear for overhead exposures

Special Eye Irritation Provisions: This product is a severe eye irritant. Although the restricted-entry interval (REI) expires after 12 hours, for the next 6-1/2 days entry is permitted only when the following safety measures are provided:

1. At least one container designed specifically for flushing eyes must be available in operating condition at the WPS-required decontamination site intended for workers entering the treated area.
2. Workers must be informed, in a manner they can understand:
   a) Residues in the treated area are highly irritating to their eyes.
   b) That they should take precautions, such as refraining from rubbing their eyes, to keep the residues out of their eyes.
   c) That if they do get residues in their eyes, they should immediately flush their eyes using the eye flush container that is located at the decontamination site or using other readily available clean water.
   d) How to operate the eye flush container.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not enter or allow others to enter the treated area until sprays have dried.

GENERAL INFORMATION

This product is a formulation of two chemicals that provides broad-spectrum contact and systemic disease control on golf courses and ornamental turfgrass as well as on ornamental plants, shrubs and trees when used according to the directions on this label.

Use Precautions

- Do NOT use on home lawns and turf sites associated with apartment buildings, day care centers, playgrounds, play fields, recreational parks, athletic fields, athletic fields located on or next to schools (i.e., elementary, middle and high schools), campgrounds, churches, and theme parks.
- Do NOT graze treated areas.
- Do NOT feed clippings to livestock or poultry.
- Do NOT apply this product through any type of irrigation system.
- Do NOT apply within 150 ft. (for airblast) or 25 ft. (for ground applications) of marine/estuarine water bodies unless there is an untreated buffer area of that width between the area to be treated and the body of water.

General Mixing and Application Instructions

1. Add the specified amount of this product to the spray tank while filling with water.
2. Maintain continuous agitation when filling the spray tank and during spray operations.
3. For best disease control results, thorough and uniform coverage of the plant surfaces is essential.

NOTE: Do not tank mix this product with surfactants, fertilizers, and/or other pesticides unless prior use has shown the combination to be physically compatible, effective and non-injurious under your conditions of use.
LAWNS AND ORNAMENTAL TURF

NOTE: Not for homeowner use. For use only by certified applicators or those under their immediate supervision. Not for use on turf being grown for sale or commercial use as sod. Do not apply with fixed-wing or rotary aircraft.

Do not use on home lawns and turf sites associated with apartment buildings, day care centers, playgrounds, play fields, recreational park athletic fields, athletic fields located on or next to schools (i.e., elementary, middle and high schools), campgrounds, churches, and theme parks.

This product will control many turf diseases when used at proper rates and timing as indicated in the table below. Begin applications when conditions favor disease development and repeat applications for as long as these conditions persist. Under severe disease conditions, use the highest rate and shortest interval corresponding with the application schedule below.

<table>
<thead>
<tr>
<th>Disease</th>
<th>Application Interval</th>
<th>Application Rate (per Acre)*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sclerotinia dollar spot</td>
<td>14 to 21 days</td>
<td>8.25 to 10 lbs. product</td>
</tr>
<tr>
<td>Helminthosporium leaf spot</td>
<td>14 days</td>
<td></td>
</tr>
<tr>
<td>Rhizoctonia brown patch</td>
<td>14 days</td>
<td></td>
</tr>
</tbody>
</table>

* Do not exceed the maximum seasonal application rate of 52 lbs. of this product per acre. This equates to 28 lbs. chlorothalonil a.i. and 8.66 lbs. thiophanate-methyl a.i. per acre.

GOLF COURSES (TEES, GREENS, AND ORNAMENTAL TURF)

This product is fungistatic to many diseases including Pythium spp. and for best results, applications should be made using the preventive rates listed below prior to disease development. This product should always be used in conjunction with good turf management practices and programs.

Use Precautions
- After application, do NOT mow or water until spray deposit on turfgrass is thoroughly dry.
- Do NOT graze animals on treated turf.
- Do NOT feed clippings to livestock or poultry.
- Do NOT apply with fixed-wing or rotary aircraft.

Refer to the following table for maximum application rates for this product.

<table>
<thead>
<tr>
<th>Use Site</th>

</tr>
</tbody>
</table>

1 Make only one application at the maximum application rate.
2 Maximum of four applications per season.

Mix the specified amount of this product in an adequate amount of water to provide complete coverage (from 2 to 10 gallons per 1,000 sq. ft.). Applications should be made using 14- to 21-day intervals as indicated in the table below. For severe disease pressure, use the highest specified rate and the shortest application interval listed. NOTE: Do NOT apply at less than a 14-day interval.

NOTE: The rates and timings will vary with disease conditions and grass vigor/growth.

<table>

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a dry, secured area unavailable to unauthorized persons.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

WARRANTY DISCLAIMER

The directions for use of this product must be followed carefully. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, (1) THE GOODS DELIVERED TO YOU ARE FURNISHED “AS IS” BY MANUFACTURER OR SELLER AND (2) MANUFACTURER AND SELLER MAKE NO WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND TO BUYER OR USER, EITHER EXPRESS OR IMPLIED, OR BY USAGE OF TRADE, STATUTORY OR OTHERWISE, WITH REGARD TO THE PRODUCT SOLD, INCLUDING, BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, USE, OR ELIGIBILITY OF THE PRODUCT FOR ANY PARTICULAR TRADE USAGE. UNINTENDED CONSEQUENCES, INCLUDING BUT NOT LIMITED TO INEFFECTIVENESS, MAY RESULT BECAUSE OF SUCH FACTORS AS THE PRESENCE OR ABSENCE OF OTHER MATERIALS USED IN COMBINATION WITH THE GOODS, OR THE MANNER OF USE OR APPLICATION, INCLUDING WEATHER, ALL OF WHICH ARE BEYOND THE CONTROL OF MANUFACTURER OR SELLER AND ASSUMED BY BUYER OR USER. THIS WRITING CONTAINS ALL OF THE REPRESENTATIONS AND AGREEMENTS BETWEEN BUYER, MANUFACTURER AND SELLER, AND NO PERSON OR AGENT OF MANUFACTURER OR SELLER HAS ANY AUTHORITY TO MAKE ANY REPRESENTATION OR WARRANTY OR AGREEMENT RELATING IN ANY WAY TO THESE GOODS.

LIMITATION OF LIABILITY

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, IN NO EVENT SHALL MANUFACTURER OR SELLER BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, OR FOR DAMAGES IN THEIR NATURE OF PENALTIES RELATING TO THE GOODS SOLD, INCLUDING USE, APPLICATION, HANDLING, AND DISPOSAL, TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, MANUFACTURER OR SELLER SHALL NOT BE LIABLE TO BUYER OR USER BY WAY OF INDEMNIFICATION TO BUYER OR TO CUSTOMERS OF BUYER, IF ANY, OR FOR ANY DAMAGES OR SUMS OF MONEY, CLAIMS OR DEMANDS WHATSOEVER, RESULTING FROM OR BY REASON OF, OR ARISING OUT OF THE MISUSE, OR FAILURE TO FOLLOW LABEL WARNINGS OR INSTRUCTIONS FOR USE, OF THE GOODS SOLD BY MANUFACTURER OR SELLER TO BUYER. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER, USER, OR ITS CUSTOMERS. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S OR USER’S EXCLUSIVE REMEDY, AND MANUFACTURER’S OR SELLER’S TOTAL LIABILITY SHALL BE FOR DAMAGES NOT EXCEEDING THE COST OF THE PRODUCT.

If you do not agree with or do not accept any of directions for use, the warranty disclaimers, or limitations on liability, do not use the product, and return it unopened to the Seller, and the purchase price will be refunded.
