**ENVIRONMENTAL HAZARDS**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation. Read entire label. Use in accordance with precautionary statements and directions for use.

---

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labelling and with the Worker Protection Standard, 48 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this product that are covered by the Worker Protection Standard.

**DO NOT enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.**

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- long-sleeved shirt
- long pants
- chemical resistant gloves made of any water proof material Category A [e.g. barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinylchloride (PVC) or vitron].
- shoes plus socks.

---

**USER SAFETY RECOMMENDATIONS**

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and change clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

---

**USE PRECAUTIONS**

The requirements in this product to use of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural crops on farms, forests, nurseries, or greenhouses. (Confine pets during application to prevent them from believing they are being fed.)

Slugger 4.0 Slug & Snail Bait is a soil surface treatment for control of snails and slugs in citrus groves, orchards, berry crops, vegetable crops and gardens, ornamental plants, seed crops, chrysanthemum gardens and in ornamental greenhouses. When applied as directed, Slugger 4.0 Slug & Snail Bait will withstand rain and sprinkling and will offer protection to gardens and lawns for several weeks.

Read entire label before using. Use only as a baiting treatment to be applied directly to the soil area beneath plants as listed on this label. DO NOT allow bait pellet to come in contact with parts of plant that may be used for food or feed purposes. Use a band treatment between rows after formation of edible parts. The grower is responsible for any loss on his crops. NOTE: Slugger 4.0 Slug & Snail Bait should not be applied to dry soil. Applications should be made following an irrigation for best results. DO NOT re-water for 48 hours after application. Apply any time of day, but evening applications are preferred.

---
