INSTRUCTIONS:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL AND FOLLOW ALL DIRECTIONS AND USE PRECAUTIONS.

USE RESTRICTIONS: Use only to control house mice in homes. This bait station may be used in indoor areas accessible to children, consistent with all use restrictions and other requirements indicated in this label. DO NOT USE THIS PRODUCT OUTDOORS OR IN AREAS ACCESSIBLE TO PETS.

Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into direct contact with food.

AREA FOR BAIT STATION AREAS Determine areas where house mice will most likely find and consume the bait. Generally, these are along walls, by gravel openings, in corners and concealed places, or in locations where there are signs of house mice.

1. Remove the bait station from the carton.
2. Placement: Place along walls or in corners with the entrance holes exposed.

Place bait stations at 6- to 12-foot intervals in appropriate locations in infested areas, as specified in the use directions. Make sure that mouse entrance holes are exposed.

Maintain stations for a minimum of 15 days or as long as activity persist. Replace bait station when its contents have been consumed, damaged, or if bait is exposed. If station is not touched after 3 days, move station to a new location where mouse activity is evident. Wear gloves, collect and dispose of all dead animals and leftover bait properly as specified on the label. To discourage reinfection, limit sources of rodent food, water, and harborage as much as possible. If reinfection does occur, repeat treatment.

PRECAUTIONARY STATEMENTS:
CAUTION: May be harmful if swallowed. Keep away from humans, domestic animals and pets.

Wear gloves when handling bait station or animals. Wash hands with soap and water after handling bait station.

FIRST AID:
If Swallowed:
+ Call a Poison Control Center or doctor IMMEDIATELY for treatment advice.
+ Have person sip a glass of water if able to swallow.
+ DO NOT induce vomiting unless told to do so by the Poison Control Center or doctor.

TREATMENT FOR PET POISONING:
If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN:
Contains the anticoagulant Diphacinone. If swallowed, this material may reduce clotting ability of the blood and cause bleeding. For humans or animals ingesting bait and/or showing poisoning signs (bleeding or elevated prothrombin times), give Vitamin Kx.

CONTACT INFORMATION:
In case of emergency, call toll free 1-800-324-4722. Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

ENVIRONMENTAL HAZARD:
This product is toxic to fish, birds and wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

PRECAUTIONS:
Do not contaminate water, food, feed by storage or disposal.

PESTICIDE STORAGE:
Store in original container in a dry place inaccessible to children and pets.

PESTICIDE DISPOSAL:
This is a non-refillable container. Do not reuse or refill the container. If empty, do not reuse the container. Place in trash or offer for recycling if allowed. If partly filled: Call your local solid waste agency for disposal instructions. Never place any unused product down any indoor or outdoor drain.

SPECIAL NOTE:
Buyer and user assume all responsibility for safety and risk associated with any use not in accordance with directions. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, SELLER SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL, INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT AND SELLER'S SOLE LIABILITY AND BUYER'S AND USER'S EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE.
