PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Avoid contamination of food and feedstuffs.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Immediately call a poison control center or doctor for treatment advice.

DO NOT INGEST VAPOR OR LIQUID. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person.

KEEP OUT OF REACH OF CHILDREN

CAUTION

This product is highly toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, manholes, sewers, ditches, ponds, rivers, creeks, or other waterways. Avoid pumping or spraying the product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

EPAA EST. 33595-MO-3
EPAA EST. 33595-MO-4

The Est. No. appears after the can code.

NET CONTENTS: 14 oz. (397 g)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR CONTROL OF NESTS OF WASPS, YELLOW JACKETs, AND HORNETs: The best time to spray the nest is in the early morning or early evening, when the air temperature is cooler and most insects are not nesting. Spray only if the air is still. Stand at a safe distance from the nest, not directly under it. Hold container upright at a 90-degree angle, point the actuator at the nest and spray in the opening of the nest first, then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Wait 12 hours before removing the nest. Hose off foliage of desirable plants that were contacted with spray.

The product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Before using in areas where spray may come in contact with surfaces, test in an inconspicuous area and re-check in a few hours.

PRECAUTIONS AND RESTRICTIONS

Do not apply this product in a way that will contact adult, children, or pets, either directly or through drift. Do not enter or allow others to enter treated area until sprays have dried. All outdoor applications must be limited to wasp, yellow jacket, and hornet nest treatments, as directed on this label. Do not make applications during rain. Remove pets and birds and close fish aquaria before spraying. Do not use in areas where food is exposed or food handling equipment, restaurants, or other areas where food is exposed or food handling equipment is in operation. Spraying in areas where food or food handling equipment is used or food is prepared or held. In the home, all food processing surfaces and utensils must be covered during treatment or thoroughly washed before use. Exposed food must be covered or removed.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in a dry place no lower than 50°F or higher than 120°F.

Container Handling: Do Not Puncture or Incinerate! Nonrefillable container. Disposal: Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions.
