SYNURGIZE

Water Conditioning Agent and Nonionic Surfactant

GENERAL INFORMATION:
SYNURGIZE will enhance the herbicide activity of certain postemergence herbicides when used at the proper rate.
SYNURGIZE is a proprietary blend of high quality non-ionic surfactants and ammonium sulfate. When used at recommended rates, SYNURGIZE can increase the performance of those herbicides which are recommended for use with ammonium based Nitrogen. The added herbicide performance produced by the use of SYNURGIZE may be more apparent in situations of environmental stress.

WARRANTY:
Seller warrants that the product conforms to its chemical descriptions and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal condition use, but neither this warranty nor any other warranty of merchantability of fitness for a particular purpose, express or implied extends to the use of this product contrary to label instructions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use.

DIRECTIONS FOR USE:
The rate for SYNURGIZE is 1 – 2 quarts per 100 gallons of water. 1 – 2 quarts of SYNURGIZE per 100 gallons of water is equivalent to 8.5 – 17 lbs of dry AMS. Add SYNURGIZE to the spray tank at the rate specified by the herbicide label and follow directions for use as to rates, timing, procedures and crop restrictions. Check compatibility of proposed spray mixture in a quart jar test before large scale mixing. It is recommended that a test area be used when conditions of high humidity or temperature exist. SYNURGIZE use is prohibited on aquatic sites.

First Aid: if in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. if on skin: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. if swallowed: Call a poison control center or doctor immediately for treatment advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. if inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

STORAGE AND DISPOSAL: Store in original container only. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decommissioned containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decommissioned containers may also be disposed of in a sanitary landfill.

PRINCIPAL FUNCTIONING AGENTS:
Ammonium Sulfate, Alkyl Polyglycoside..........................45.5% Constituents Ineffective as Spray Adjuvants......................................54.5% TOTAL........................................100%

WA Reg. No. 99877-XXXX

CAUTION
Precautionary Statements: CAUTION.
Causes moderate eye irritation. Harmful if swallowed, inhaled, or absorbed through the skin. Avoid contact with eyes, skin, or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment:
Wear chemical-resistant gloves, long-sleeved shirt and long pants, and shoes plus socks.
