FIRST AID

If swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If on skin:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
• Call a poison control center or doctor for further treatment advice.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact SafetyCall® International (866) 897-8050 for emergency medical treatment information.

Note to Physician: No specific antidote is available. Treat the patient symptomatically.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND
DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, absorbed through skin, or
inhaled. Avoid contact with eyes, skin or clothing. Wash
thoroughly with soap and water after handling and before
eating, drinking or using tobacco.

ENVIRONMENTAL HAZARDS
This product is highly toxic to aquatic invertebrates. Do not
apply directly to water, or to areas where surface water is
present or to intertidal areas below the mean high water
mark. Do not contaminate water when disposing of equip-
ment washwaters or rinsate. This product is highly toxic to
bees exposed to direct treatment or residues on blooming
crops or weeds. Do not apply this product or allow it to drift
to blooming crops or weeds if bees are visiting the treatment
area. This chemical has properties and characteristics asso-
ciated with chemicals detected in groundwater. The use of
this chemical in areas where soils are permeable, particu-
larly where the water table is shallow, may result in ground-
water contamination.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in original container in a dry place.
Store in locked area out of reach of children.

Pesticide Disposal: Pesticide wastes are acutely hazardous.
Improper disposal of excess pesticide, spilled bait, or rinsate
is a violation of Federal Law. If these wastes cannot be dis-
posed of by use according to label instructions, contact your
State Pesticide or Environmental Control Agency, or the Haz-
ardous Waste representative at the nearest EPA Regional Of-

cicle for Guidance.
STORAGE AND DISPOSAL (continued)

Container Disposal: Non-refillable container. Do not reuse or refill this container. Empty container through use according to label instructions. Offer for recycling, if available. If recycling is not available; then dispose of container in a sanitary landfill or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

BONANZA™ is a fast acting ready-to-use house fly bait that may be applied as scatter bait, paint-on or in bait stations. It contains a specially formulated mixture of attractants in extruded pellet form and it works against house flies which are resistant to organophosphates and carbamates.

BONANZA™ is a ready-to-use bait containing 0.5% imidacloprid and the attractant Z-9-Tricosene. It also contains Bitrex® bittering agent to help prevent ingestion by animals, children and pets.

BONANZA™ controls nuisance house flies.

COVERAGE
1.5 oz./250 sq ft (1.5 oz = 3 Tablespoons)

RE-APPLY
Re-apply every 7 days as needed.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IMPORTANT: Read entire label and Conditions of Sale before using this product.

HOUSE FLY MANAGEMENT
WHERE TO APPLY
Do not place BONANZA™ in areas accessible to animals, children and pets.
**Scatter Application**
For use around the outside of:
- Agricultural production facilities like broiler houses, turkey houses, caged layer houses, feedlots, dairy barns, and swine confinement buildings.
- Canneries; dairy, meat and poultry processing plants, food processing plants, warehouses, dumpsters; recycling areas and loading docks.

**Scatter Application**
For use in walkways of:
- Caged layer houses.

**Bait Station Application**
For use inside of:
- Horse Stables
- Broiler, turkey, and caged layer houses.
- Swine confinement buildings.
- Dairy barns and milking parlors.

**Paint on Application**
For use inside and around the outside of:
- Broiler, turkey, and caged layer houses.
- Swine confinement buildings.
- Dairy barns.

**USE RATE**
- 1.5 oz/250 sq ft (scatter bait and bait station).

**HOW TO APPLY**
Apply the bait in many locations. Avoid cool or windy locations because house flies prefer warm, motionless sites for resting. Time applications to begin at the start of the season before house fly populations have reached their peak.
• **Scatter Application:** Scatter the bait directly from the container onto dry level surfaces so that the individual granules lie near each other without forming small piles.

• **Bait Station Application:** Place in any fly bait station. Use 1 bait station to cover approximately 250 sq. ft., and add up to 1.5 oz of bait per station. Secure bait stations at least 4 feet above the ground.

• **Paint-on Application:** Mix 1.5 oz. bait with 1 fl oz warm water (3 lbs in 1 quart water) and stir thoroughly. Let stand for about 15 minutes until a paste consistency suitable for painting has formed. Apply the paste with a brush to surfaces where house flies rest, avoiding surfaces that are dusty.

**RESTRICTIONS**

• Do not place bait in areas accessible to food producing animals, children and pets.
• Do not allow contact with food or water.
• Use environmental controls, such as proper light management.
• Do not apply directly onto milking equipment.
• Do not apply inside food processing plants or restaurants.

**MANAGEMENT TIPS**

**For Best Results:**

• Use the bait as part of an overall Integrated Pest Management program.
• Use proper sanitation and manure management.
• Use along with dilutable sprays.
• Use environmental controls, such as proper light management.
• Consult with Cooperative Extension Services.
NOTE: CONTROL SOLUTIONS, INC. WARRANTS THAT THIS PRODUCT CONFORMS TO THE CHEMICAL DESCRIPTION ON THE LABEL AND IS REASONABLY FIT FOR THE PURPOSES STATED ON THE LABEL WHEN USED IN ACCORDANCE WITH THE DIRECTIONS FOR USE. IT IS IMPOSSIBLE TO ELIMINATE ALL RISKS INHERENTLY ASSOCIATED WITH THE USE OF THIS PRODUCT. INEFFECTIVENESS OR OTHER UNINTENDED CONSEQUENCES MAY RESULT BECAUSE OF SUCH FACTORS AS WEATHER CONDITIONS, PRESENCE OF OTHER MATERIALS, OR THE MANNER OR APPLICATION, ALL OF WHICH ARE BEYOND THE CONTROL OF CONTROL SOLUTIONS, INC. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, CONTROL SOLUTIONS, INC. SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER.
