CRC Disinfecting Wipes are intended for use in airports, transportation terminals, schools, health clubs, gyms, athletic facilities, catering facilities, and banquet halls. CRC Disinfecting Wipes will clean and disinfect hard, non-porous surfaces of cabinets, chairs, computers, countertops, desks, desktops, door frames, fans, machines, heads, keyboards, railings, seats, sinks, tables, tabletops, telephones, and trashcans. Use CRC Disinfecting Wipes to clean and disinfect non-porous personal protective equipment, protective headgear, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, silicone rubber or PVC hearing protection or vinyl covered ear muffs. Rinse all equipment that comes in prolonged contact with skin before reuse with clear warm water (about 120 degrees F), and allow to air dry. (Caution: Cleaning at the 120 degrees F temperature will avoid overheating and distortion of the personal safety equipment that would necessitate replacement.)

CRC Disinfecting Wipes are formulated to disinfect hard, non-porous, inanimate environmental surfaces such as floors, walls, metal surfaces, stainless steel surfaces, glass porcelain, glazed ceramic tile, non-polyester resin plastic surfaces, bathrooms, shower stalls, bathtubs and cabinets.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body; or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

CLEANING: Use one CRC Disinfecting Wipe to completely remove surface of all gross debris from surfaces to be treated.

DISINFECTING: To disinfect hard, non-porous surfaces, thoroughly wet the surface to be treated. Treated surface must remain visibly wet 10 minutes for disinfection against Escherichia coli (E. coli), Salmonella choleraesuis, Vero Cytotoxin Resistant Escherichia coli (VRR), Mycobacteria bovis BCG (Tuberculosis), Staphylococcus aureus, Methicillin Resistant Staphylococcus aureus (MRSA), and Vancocin-resistant Intermediate Staphylococcus aureus (VISA).

A gentle water rinse is required for surfaces in direct contact with food. For plastic and painted surfaces, spot test on an inconspicuous area before use. For heavily soiled surfaces, clean before following disinfecting instructions.

"VIRUCIDAL ACTIVITY: CRC Disinfecting Wipes are an effective virucide on hard, non-porous surfaces against: Human Immunodeficiency Virus Type 1 (HIV-1) when the treated surface is allowed to remain wet for 2 minutes; and Norwalk (Norwalk virus) and Vical calcivirus when the treated surface is allowed to remain wet for 10 minutes. Use additional wipes if needed to assure that the treated surfaces remain continuosly wet for the prescribed time."

Net Contents: 2.0 lbs (905 g)
Contains 90 - 6" x 10.5" (15.2 cm x 26.7 cm) Premoistened Wipes

KEEP OUT OF REACH OF CHILDREN

CAUTION
See side panel for additional precautionary statements.

NO. 04101

KILLS HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS IN HEALTHCARE SETTINGS OR OTHER SETTINGS IN WHICH THERE IS AN EXPECTED LITMUS OF BODY FLUIDS, IN WHICH THE SURFACES/OBJECTS LIKELY TO BE SOILED WITH BLOOD OR TRANSMISSION OF HUMAN IMMUNODEFICIENCY VIRUS TYPE 1 (HIV-1), ASSOCIATED WITH SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned this product. CRC Disinfecting Wipes can be used for this purpose.

CONTACT TIME: Thoroughly wet surface with a new wipe. Allow surface to air dry, then wipe with a cloth.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids must be disposed of according to regulations for infectious waste disposal.

FIRST AID: In case of contact with eyes, flush with water for 15 to 20 minutes and seek medical attention.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage in an area inaccessible to children. Container Storage/Disposal: Disposal of waste is at the end of this product. Do not reuse empty container. Discard in trash.
