Loveland PRODUCTS INC.
PO Box 1286 • Greeley, CO 80632-1286

WA Reg. No. 34704-10001
DANGER: Corrosive. Causes irreversible eye damage. Harmful if swallowed, absorbed through the skin or inhaled. Do not get in eyes, on skin, or on clothing. Avoid breathing spray mist. Wear goggles or face shield. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Remove and wash contaminated clothing before reuse.

First Aid: If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. Call poison control center or doctor for treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

FOR A MEDICAL EMERGENCY INVOLVING THIS PRODUCT CALL 1-866-944-8565.

Personal Protective Equipment (PPE): Applicators and other handlers must wear long-sleeved shirt and long pants, shoes plus socks, chemical-resistant gloves and protective eyewear (goggles or face shield).

GENERAL: GUNSMOKE® is a specially water conditioner and a pH stabilizer designed to be used with glyphosate and glyphosate tank mixes. GUNSMOKE® will help to prevent antagonism from hard water cations including iron, calcium, manganese, magnesium, aluminum and other impurities in the spray solution. GUNSMOKE® improves herbicide absorption into plants and helps improve efficiency of difficult to control weeds.

DIRECTIONS FOR USE

GUNSMOKE® is specifically designed for glyphosate spray mixes which are registered for agricultural, horticultural, turf, ornamental, industrial, and non-crop uses.

NOTE: For optimum results read and follow all herbicide label directions. Rates of this product may be increased or decreased. Follow herbicide labeling for proper recommendations. Do not use where the herbicide label specifically prohibits the use of an adjutant. If the herbicide label neither recommends nor prohibits the use of an adjutant, the applicator must have previous experience with the adjacent herbicide spray mixture or should apply a small test area before making large scale applications. The addition of an adjuvant to spray mixtures may cause phytotoxicity to susceptible crops and vegetation. Care should be exercised when using on new varieties or crops not previously treated with GUNSMOKE®.

DO NOT USE WITH GLYPHOSATE, A-D AMINE OR OTHER AMINE TANK MIXTURES.

GUNSMOKE® should be used in glyphosate tank mixes at rates of 1-3 qt/100 gal of water.

After water hardness has been determined, use the following recommendations:

<table>
<thead>
<tr>
<th>Water hardness (Calcium, magnesium and/or iron)</th>
<th>GUNSMOKE per 100 gallons</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt;200 ppm</td>
<td>0.25 v/v (1 quart)</td>
</tr>
<tr>
<td>200-600 ppm</td>
<td>0.50 v/v (2 quarts)</td>
</tr>
<tr>
<td>&gt;600 ppm</td>
<td>0.50% v/v (2 quarts)</td>
</tr>
</tbody>
</table>

GUNSMOKE® may be used with herbicides that may benefit from an adjuvant that provides water conditioning or acidifying properties. Use GUNSMOKE® at 1 qt/100 gal water under normal growing conditions with small actively growing weeds and good water quality. Use GUNSMOKE® at 2 qt/100 gal water under non-growing conditions, water quality and/or weed sizes will make weed control difficult.

For all applications: Do not substitute GUNSMOKE® for water required by the label. Spray equipment should be cleaned thoroughly after use.

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

Storage: Keep this container tightly closed. Store above 20 degrees F. Store in original container. Do not store in aluminum, copper, zinc, or mild steel containers. Do not allow water or other chemicals to be introduced into contents of container. Do not use or store near open flame. Do not reuse empty container.

Disposal: Do not contaminate water, food, or feed by storage or disposal. Washes may be disposed of on site or at an approved waste disposal facility. Triple rinse (or equivalent) adding rinse water to spray tank. Other container for recycling or disposal of container is sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycle visit the ACRC web page at www.acrcycle.org.
