NONIONIC SURFACTANT FOR USE WITH PLANT GROWTH REGULATORS

PRINCIPAL FUNCTIONING AGENTS:
2-butoxyethanol, poloxalene, propylene glycol .................................................. 85%
Constituents ineffective as a spray adjuvant ............................................................. 15%
TOTAL .................................................................................................................................. 100%

WA Reg. No. 73127-10001 All ingredients are exempt from tolerance requirements under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

GHS HAZARDS: H303 May be harmful if swallowed. H313 May be harmful in contact with skin. H333 May be harmful if inhaled. H361 Suspected of damaging fertility or the unborn child. GHS PRECAUTIONS: P102 Keep out of reach of children. P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P233 Keep container tightly closed. P332+313 If skin irritation occurs: Get medical advice/attention. P362 Take off contaminated clothing and wash it before reuse. P405 Store locked up. P501 Dispose of contents in container to an approved waste disposal facility in accordance with all local/regional/national/international regulations. GHS GHS HAZARDS:

GHS TOTAL.......................................................... 100%

2-butoxyethanol, poloxalene, propylene glycol .................................................................................. 85%

First Aid

FIRST AID

EYE CONTACT - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do then continue rinsing. Have the product container with you when calling a poison control center or doctor, or going for treatment.

SKIN CONTACT - IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash it before reuse. Wash with plenty of soap and water for several minutes. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice. If skin irritation occurs: Get medical advice or attention.

INGESTION - IF SWALLOWED: Unless advised otherwise by a poison control center or doctor, have person rinse mouth with water, if able. Do not give anything by mouth to an unconscious person. Call a poison center, doctor, chemical manufacturer, importer, or distributor to specify the appropriate source of emergency medical advice if you feel unwell.

INHALATION - IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth to mouth if possible.

General Information: Equalizer is a nonionic surfactant for use in improving the efficacy of foliar applied plant growth regulators or streptomycin applications. Equalizer provides superior wetting of the spray solution, uniform spray coverage and improved foliar penetration.

DIRECTIONS FOR USE:

Before using Equalizer, always read and follow all label directions, mixing instructions and precautionary statements of the pesticide label that is being tank mixed with Equalizer.

Use rates for Equalizer will range from 1/2 to 3 pints per 100 gallons of spray solution. For the products listed, the following use rates are suggested:

<table>
<thead>
<tr>
<th>Application type or product</th>
<th>pints per 100 gallons</th>
<th>mL per 100 liters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Apogee®</td>
<td>1 to 2</td>
<td>125 to 250</td>
</tr>
<tr>
<td>Ethephon, Ethrel</td>
<td>2</td>
<td>250</td>
</tr>
<tr>
<td>Maleic Hydrazide</td>
<td>2 to 3</td>
<td>250 to 375</td>
</tr>
<tr>
<td>NAA or Amide Sprays</td>
<td>2/3</td>
<td>85</td>
</tr>
<tr>
<td>NAA plus Carbaryl</td>
<td>1/2</td>
<td>65</td>
</tr>
<tr>
<td>NAD</td>
<td>1</td>
<td>125</td>
</tr>
<tr>
<td>Streptomycin</td>
<td>1 to 2</td>
<td>125 to 250</td>
</tr>
</tbody>
</table>

The most effective rate will vary with temperature and humidity at the time of application. The lower rate will normally be required under conditions of high humidity and the higher rate range is suggested under dry conditions. The above use recommendations are considered sufficient for most uses. Since many factors such as heat, humidity, wind conditions and equipment performance can influence performance, the user should always follow label directions of the product to be tank mixed with Equalizer and consult local agricultural authorities or perform a limited test using this product to determine the optimum use rate for a given application and specific crop.

Storage and Disposal:

Storage: Store locked up. Store in a cool well-ventilated place. Keep in original container tightly closed. Do not reuse empty container. Do not store with food, feed, or other material to be used or consumed by humans or animals. Do not contaminate water supplies. For optimal storage, store between 40° and 90° F.

Disposal: Do not contaminate water, food, or feed by storage or disposal. Dispose of contents in container to an approved waste disposal facility in accordance with all local/regional/national/international regulations. Triple rinse (or equivalent) adding rinse water to application tank. Offer container for recycling or dispose of in a sanitary landfill or by other procedures approved by local regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a manner allowed by local, state and federal laws and regulations.

Warranty Statement: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
