EPA REG. NO. 47371-97-10693 • EPA EST. NO. 10693-CA-1
NET CONTENTS: 1 GALLON (3.78L)

DIRECTIONS FOR USE

CLINGEE Acid Free Restroom Cleaner not only helps control the hazards of cross-contamination on treated hard, nonporous, environmental surfaces, but also inhibits many waterborne microorganisms that cause odors. For disinfection, hard, nonporous, surfaces. For use in the household, hospitals, schools, colleges, office buildings, and airports.

BATHROOMS: Great for cleaning and disinfecting basins, tubs, and shower doors. Leaves everything bright and clean, kills odor-causing bacteria. Odors disappear instantly, blue where it is applied are a problem.

This product is effective against the ortho-phenylfural Tetrachlorophenol, chlorophenol (Athlete’s Foot Fungus) (Fungus of Ringworm) when used as directed for disinfection with a contact time of 10 minutes on hard, nonporous, surfaces in bathrooms, including shower stalls, floors, bath mats, glazed bathroom tiles and toilet room benches.

Bacterial:
• Pseudomonas sp. bacteria
• Staphylococcus aureus
• Salmonella typhosa
• Streptococcus pyogenes
• Virus:
• Hepatitis A Virus Type 2 (Repert)
• Hepatitis B (HDV) Virus
• Rhinovirus Type 1-A (H1N1)

FUNGUS:
• Athlete’s Foot Fungus (Fungus of Ringworm)

DIRECTIONS FOR USE

1. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
2. DISINFECT BATHROOMS: To prepare solution, add one part CLINGEE Acid Free to 10 parts water. To clean and disinfect bathrooms, spray the solution directly on the surfaces to be cleaned and allow to dry. To apply to hard, nonporous surfaces, spray the solution on a cloth or sponge, then apply to the surface to be cleaned and dry. To apply to toilet seats, use the solution directly on the toilet seat. To apply to toilet paper, unroll the toilet paper and apply the solution to the paper. To apply to sinks, bathtubs, or shower stalls, spray the solution directly on the surfaces to be cleaned and allow to dry.

FOOD PREPARE DISINFECTING: To prepare solution, add one part CLINGEE Acid Free to 10 parts water. Place the solution in a spray bottle and apply to the surfaces to be cleaned. To apply to hard, nonporous surfaces, spray the solution on a cloth or sponge, then apply to the surface to be cleaned and dry. To apply to toilet seats, use the solution directly on the toilet seat. To apply to toilet paper, unroll the toilet paper and apply the solution to the paper. To apply to sinks, bathtubs, or shower stalls, spray the solution directly on the surfaces to be cleaned and allow to dry.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly under running water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INhaled: Get fresh air. If not breathing, give artificial respiration. If unconscious, get medical help immediately.

STORAGE AND DISPOSAL

Household/Residential Use
Store in original container in areas inaccessible to children.

Nonrefillable container. Do not reuse or refill this container. Wash container and put in trash or offer for recycling if available.

Commercial/Institutional/Industrial Use
Do not contaminate water, food, or feed by storage or disposal.

Rinse Contaminated Locations: Rinse contaminated locations with water. Keep area clean and dry.

Disposal: Rinse container and put in trash or offer for recycling if available.

Precautionary Statements
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Hantavirus is a disease that can be transmitted to humans through the bite of infected rodents. Avoid contact with rodents or their excreta.
