This product is a quaternary ammonium chloride based disinfectant cleaner containing hydrogen peroxide with phosphoric acid and an amino carboxide salt off air cleaning.

This product can be used on the following washable, hard, inanimate surfaces:

- Glass/mirrors
- Stainless steel
- Alumina
- Stainless steel
- Plastic
- Ceramic tile
- Porcelain
- Metal
- Sealed stone
- Wood
- Stone
- Brick
- Fiberboard
- Paper
- Textiles
- Wood
- Wall coverings
- Plastic
- Wood
- Metal
- Glass
- Paint
- Gypsum
- Non-porous surfaces: aluminum, bathroom fixtures – hospitals, medical offices, and nursing homes. This product can be used in the institutional facilities, institutions, locker rooms, public facilities, public schools, retail facilities, restaurants, airports, train and bus stations, stadiums, arenas, broiler houses, universities, and warehouses. This product can be used in the following health care facilities: dental offices, health care facilities, hospitals, medical offices, and nursing homes.

DIRECTIONS FOR USE

1. Open the seal and test for proper functioning by subjecting the test strip to the following conditions:
   - 2 ozs. per gallon of water (1:64 dilution).
   - Swab bowl with brush to remove heavy soil prior to cleaning or disinfecting.
   - Apply solution to exposed surfaces with a cloth, mop, sponge or sprayer. For spray applications, use a coarse spray nozzle. Do not use a fine mist.
   - Allow surface to remain wet for 3 minutes to kill HIV-1 and 10 minutes for all other bacteria and viruses claimed.
   - When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eyewear.

2. Personal Protection:
   - When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks and eyewear. Apply reprocessing step to remove excess soil.
   -bled and rinse with clean water. Repeat as needed until the stain is completely removed. Allow water to air dry. Do not apply another cleaning step to the same area.

3. Adequate Area Inside Booklet

4. Disinfecting Procedures:
   - Apply a small amount of Suprox-D to the adhesive area.
   - Follow Pesticide Disposal instructions for rinsate disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.
   - Do not store near heat, flame, or in direct sunlight. Avoid storage at elevated temperatures. Do not store near combustible materials.

5. Storage and Disposal
   - Be sure to replace the packaging of the retail product. After use, do not recondition. If not available, puncture and dispose in a sanitary landfill.
   - Do not store near wood shavings, dust or similar combustible materials.

6. Pesticide Disposal:
   - Tolerable levels are acutely toxic. Do not store near food, feed, or water sources in a violation of Federal law. If the waste cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Practitioner at the nearest EPA Regional Office to obtain assistance.

7. CONTAINER DISPOSAL – Hazardous containers. Do not release or recondition this container. Contact your local waste disposal service for the proper disposal of the waste. Do not recondition. If not available, puncture and dispose in a sanitary landfill.

8. DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

9. Do not use on brass

11. This product is a quaternary ammonium chloride based disinfectant cleaner containing hydrogen peroxide with phosphoric acid and an amino carboxide salt off air cleaning.

12. This product can be used on the following washable, hard, inanimate surfaces:

   - Glass/mirrors
   - Stainless steel
   - Alumina
   - Stainless steel
   - Plastic
   - Ceramic tile
   - Porcelain
   - Metal
   - Sealed stone
   - Wood
   - Wall coverings
   - Plastic
   - Wood
   - Metal
   - Glass
   - Paint
   - Gypsum
   - Non-porous surfaces: aluminum, bathroom fixtures – hospitals, medical offices, and nursing homes. This product can be used in the institutional facilities, institutions, locker rooms, public facilities, public schools, retail facilities, restaurants, airports, train and bus stations, stadiums, arenas, broiler houses, universities, and warehouses. This product can be used in the following health care facilities: dental offices, health care facilities, hospitals, medical offices, and nursing homes.

13. This product is a quaternary ammonium chloride based disinfectant cleaner containing hydrogen peroxide with phosphoric acid and an amino carboxide salt off air cleaning.

14. This product can be used on the following washable, hard, inanimate surfaces:

   - Glass/mirrors
   - Stainless steel
   - Alumina
   - Stainless steel
   - Plastic
   - Ceramic tile
   - Porcelain
   - Metal
   - Sealed stone
   - Wood
   - Wall coverings
   - Plastic
   - Wood
   - Metal
   - Glass
   - Paint
   - Gypsum
   - Non-porous surfaces: aluminum, bathroom fixtures – hospitals, medical offices, and nursing homes. This product can be used in the institutional facilities, institutions, locker rooms, public facilities, public schools, retail facilities, restaurants, airports, train and bus stations, stadiums, arenas, broiler houses, universities, and warehouses. This product can be used in the following health care facilities: dental offices, health care facilities, hospitals, medical offices, and nursing homes.

15. This product is a quaternary ammonium chloride based disinfectant cleaner containing hydrogen peroxide with phosphoric acid and an amino carboxide salt off air cleaning.

16. This product can be used on the following washable, hard, inanimate surfaces:

   - Glass/mirrors
   - Stainless steel
   - Alumina
   - Stainless steel
   - Plastic
   - Ceramic tile
   - Porcelain
   - Metal
   - Sealed stone
   - Wood
   - Wall coverings
   - Plastic
   - Wood
   - Metal
   - Glass
   - Paint
   - Gypsum
   - Non-porous surfaces: aluminum, bathroom fixtures – hospitals, medical offices, and nursing homes. This product can be used in the institutional facilities, institutions, locker rooms, public facilities, public schools, retail facilities, restaurants, airports, train and bus stations, stadiums, arenas, broiler houses, universities, and warehouses. This product can be used in the following health care facilities: dental offices, health care facilities, hospitals, medical offices, and nursing homes.

17. This product is a quaternary ammonium chloride based disinfectant cleaner containing hydrogen peroxide with phosphoric acid and an amino carboxide salt off air cleaning.

18. This product can be used on the following washable, hard, inanimate surfaces:

   - Glass/mirrors
   - Stainless steel
   - Alumina
   - Stainless steel
   - Plastic
   - Ceramic tile
   - Porcelain
   - Metal
   - Sealed stone
   - Wood
   - Wall coverings
   - Plastic
   - Wood
   - Metal
   - Glass
   - Paint
   - Gypsum
   - Non-porous surfaces: aluminum, bathroom fixtures – hospitals, medical offices, and nursing homes. This product can be used in the institutional facilities, institutions, locker rooms, public facilities, public schools, retail facilities, restaurants, airports, train and bus stations, stadiums, arenas, broiler houses, universities, and warehouses. This product can be used in the following health care facilities: dental offices, health care facilities, hospitals, medical offices, and nursing homes.
