Scalibor

PROTECTOR BAND FOR DOGS

READ ENTIRE LABEL BEFORE EACH USE

USE ONLY ON DOGS

Deltamethrin 4% Collar provides full season, up to 8 months protection against fleas and ticks.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION:

Do not open protective pouch until ready to use. Do not let children play with this collar.

Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

Do not use on puppies under 12 weeks. Consult a veterinarian before using this product on debilitated, aged, pregnant, medicated or nursing animals. Sensitivities may occur after using ANY pesticide products for pets. If signs of sensitivity occur, remove collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

This collar is intended for use only on an insecticide generator and is not to be taken internally by man or animals. Applying other pesticides on the dog may not be necessary while the collar is being worn.

FIRST AID

If swallowed: Call a poison control center or doctor immediately for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

For incidents involving HUMANS, call 1-800-663-0206
For incidents involving ANIMALS, call 1-800-561-2423
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Delmarthrin 4% Collar containing deltamethrin insecticide, has been specially formulated using patented insecticide-release technology. Maximum effectiveness may not occur for 2-3 weeks after collar placement. Fleas (Ctenocephalides sp.) on the dog will be killed and eggs which are present in the dog's environment that may appear on your pet will be killed. Collar will also kill ticks for up to 6 months. Collar will kill ticks including Brown dog tick (Rhipicephalus sanguineus), American dog tick (Dermacentor variabilis), and deer ticks (Ixodes scapularis and Ixodes pacificus) which may carry the Lyme Disease. This collar should be worn continuously. Replace a new collar every 6 months.

Place the collar around dog's neck, fasten and adjust for proper fit. Cut off approximately 2 inches from the tag end and dispose of excess length by wrapping in newspaper and placing in trash. The collar must be worn loosely so that two fingers may be places between collar and dog's neck. Using and not areas of pet must also be treated with appropriate pest control measures to ensure control of pests. Washing will not impair the collar's effectiveness of the pet's protection. If the dog gets swimming or is out in the rain, it is not necessary to remove the collar. Delmarthrin 4% Collar may be used in addition to a lead or constraint collar. Use only one Delmarthrin 4% Collar at a time.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store this product in a cool, dry place away from children and pets.

Pesticide and Container Disposal: Do not reuse container or used collar. Dispose of in trash.
