PROTECTOR BAND FOR DOGS

CAUTION: Do Not Let Children Play With This Collar
READ ENTIRE LABEL BEFORE EACH USE—USE ONLY ON DOGS

Scalibor Protector Band for Dogs provides effective, up to 6 months protection against fleas and ticks.

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

CAUTION:
Do NOT apply protectant on puppy until ready to use. Do NOT allow children to play with this collar.

Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

Do NOT apply protector until 12 weeks. Consult a veterinarian before using this product on old, aged, sick, pregnant, or sick animals. Do NOT apply the protector on pregnant or sick animals. A local application may occur after applying this product to pets. If a local application occurs, remove collar and follow the pet with warm soapy water. Do NOT allow large amounts of water to get on the exterior. Consult a veterinarian immediately.

This product contains nicotine, an addictive substance and may be taken by young or mature animals. Appropriate control of dogs may be necessary to ensure that they are not ingesting the collar.

INSECTIONS FOR USE:
Scalibor® Protector Band for Dogs, containing 100 mg diclorvos, has been specifically formulated using patented microencapsulation technology. Maximum effectiveness may not occur for 24 hours after collar placement. From the first application, the collar will be in effect and in one week, the treated dog will be protected from fleas. After the 1st application, the collar will be in effect for at least 60 days. Consult a veterinarian before using this product on pregnant or sick animals.

Focus the collar around dogs neck, buckle and adjust for proper fit. Collar approximately 2 inches from the back and dispose of. Properly clean and repackage collar in a closed container.

For cats, ensure that the protector is removed after 3 months. Consult a veterinarian before using this product on pregnant or sick animals.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal. Peeled and Container Disposal: Do not use container or labels for disposal. Disposal in trash.
