**ACTIVE INGREDIENTS:**
- *Pyrethrins*: 1.00%
- *Other Ingredients*: 99.00%

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**FIRST AID**

**IF ON SKIN OR CLOTHING:**
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-888-740-8712.

**USER SAFETY REQUIREMENTS**

- **Safety Equipment:**
  - Long-sleeved shirt
  - Long pants
  - Shoes and socks
  - Chemical-resistant gloves made of any waterproof material

**USER SAFETY RECOMMENDATIONS:**

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and shoes immediately. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and steep into cold water.

**ENHANCEMENT TIPS:**

- **Pyrethrum Dust**

**ENVIRONMENTAL HAZARDS**

This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not use it near rivers, streams, or ponds. Also do not allow it to drift to blooming crops or weeds. Do not apply this product or its drift to blooming crops or weeds where bees are actively visiting the treatment area.

**PHYSICAL OR CHEMICAL HAZARDS**

- Do not use or store near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. See inside booklet label for full directions for use.

**Manufactured by:**

8810 Tenth Avenue North
Minneapolis, MN 55427

**NET WEIGHT**

10 Ounces

**Superscript is the first character of the lot number.**

**PRECAUTIONARY STATEMENTS**

- **Hazard to humans and domestic animals.**
- **Caution:** Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Remove and wash contaminated clothing before reuse.

**USER SAFETY REQUIREMENTS**

- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard contaminated clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not rewear them.

**USER SAFETY RECOMMENDATIONS:**

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and shoes immediately. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and steep into cold water.
FIRST AID

IF ON SKIN OR CLOTHING:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For additional information on this pesticide product (including health concerns, medical emergencies or pesticide incidents), you may call 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Mixers, Loaders, Applicators, and other handlers must wear the following:
• long-sleeved shirt
• long pants
• shoes and socks
• chemical-resistant gloves made of any waterproof material

USER SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not reuse them.

USER SAFETY RECOMMENDATIONS:
Users should: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

(continued)
ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or runoff into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS
Do not use or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL BEFORE EACH USE

USE RESTRICTIONS
• Apply this product only as specified on the label.
• Aerial applications are prohibited.
• Do not allow contamination of food and feedstuffs.
• In indoor residential areas or other areas where children may come into contact, only apply as a crack-and-crevice or as a spot treatment to areas no greater than 3 feet by 3 feet per room.
• Applications with power duster equipment are prohibited.
• Do not enter or allow others to enter until dusts have settled.
• Do not apply this product in a way that will contact workers or other persons, either directly or indirectly through drift.
• Only protected handlers may enter treated area during application.
• Do not allow adults, children or pets to enter the treated area until dusts have settled.
• For use outdoors, do not apply directly to or near water, storm drains or drainage ditches. Do not apply when windy.
• Do not water the treated area to the point of runoff.
• Do not make applications during rain.
• Do not apply this product in a way that will contact adults, children or pets, either directly or indirectly through drift.
• Remove or cover exposed food and drinking water before application.
• Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash them before use. Do not use in serving areas while food is exposed.
• In Food Areas of Food Handling Establishments: Do not contaminate food or feedstuffs. During applications, cover or remove food. Cover food processing surfaces and equipment or clean after treatment with a suitable detergent and rinse with potable water before use. Do not use in serving areas (dining areas where prepared foods are served) while food is exposed or facility is in operation.
In Schools, do not apply to classrooms when in use.
Do not use in aircraft cabins.
Remove pets, birds and cover fish aquariums before application.
When used in dairy barns or facilities; close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.
Except when applying to sewers or drains as instructed on this label, do not apply directly in to sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product any drain during or after application.
Not for use on commercial sod farms.
USE RESTRICTIONS IN FOOD HANDLING AREAS:
- Do not apply when food or feed processing facility is in operation or foods are exposed.
- APPLICATIONS OF THIS PRODUCT IN FOOD/FEED AREAS OF FOOD/FEED HANDLING ESTABLISHMENTS ARE NOT PERMITTED, OTHER THAN AS A CRACK AND CREVICE TREATMENT.

APPLICATIONS WITHIN FOOD HANDLING ESTABLISHMENTS:

**Food and/or Feed areas** include areas for receiving, storage (dry, cold, frozen or raw), packaging (canning, bottling, wrapping, boxing and grinding), preparing, edible waste storage and enclosed processing systems (mills, dairies, and systems for processing edible oils and syrups). Serving areas are places where prepared foods are served.

Using a non-power duster, apply directly into cracks and crevices, in expansion joints between different elements of construction, under or between equipment bases and the floor, beneath appliances, into wall voids, motor housing, junction boxes or switch boxes, conduits, behind and under cabinets or drawers, in and around drains, around drain pipes, plumbing and utility entrances, hollow equipment legs and other sites where listed insects can enter or hide.

**Stored Product Pests in Non-Food/Non-Feed areas of Food handling Establishments:**

Non-food/feed areas of food/feed handling establishments are garbage rooms, lavatories, floor drains (to sewers, entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

To aid in the control of stored product pests in listed areas. Apply Evergreen Pyrethrum Dust at the specified rate. Clean up waste materials, infested materials, dust, dirt, and any other debris. Thoroughly treat floors, walls, shelves, drawers, cabinets and other surfaces in bins, storage and handling areas, around cartons or containers and other areas where these insects tend to congregate. Apply into cracks and crevices and other difficult to reach areas where insects may hide. Apply in voids or cracks and crevices in pantries and other infested areas within the structure.

**For Use in Storage Sites:**

This product can be used in warehouse bins, trucks, cargo ships, mills, bin hoppers, elevators and conveying equipment and other listed sites as a cleanup prior to using them for storage. Remove and dispose of all of the infested stored commodity accumulations and debris, with special attention to material lodged in the cracks and crevices. After sanitation measures have been employed, dust areas prior to use for storage, paying particular attention to cracks and crevices.
For packaged food warehouses, treat potential points of insect entry, as well as harborage sites in, on and around wooden and plastic pallets, pallet-racking systems, loading docks, scales, around cartons.

**INDOOR TREATMENTS:**

In indoor residential areas or other areas where children may come into contact, only apply as a crack-and-crevice or as a spot treatment to areas no greater than 3 feet by 3 feet per room.

Crawling Insects:
Apply Evergreen Pyrethrum Dust into voids, cracks and crevices or other places where insects are traveling or
harboring. Apply a continuous visible film underneath and behind stairs, behind and beneath sinks, stoves,
refrigerators and other appliances, around garbage cans, cabinets. Treat on, around and behind moldings, shelving,
baseboards, doorsills, doorframes, floors, around drains, pipes and pipe openings, plumbing, bookcases, storage, utility
installations and other areas where insects hide or travel. For severe infestations apply behind cabinets and walls, in
crawl spaces and attics at the specified rate.

Fleas, Ticks, and Mites:
DO NOT TREAT DOGS OR CATS WITH THIS PRODUCT.
For Fleas, apply Evergreen Pyrethrum Dust only as a direct treatment. Treat on and around animal bedding, sleeping
quarters, kennel, furniture, floor and floor coverings and all areas where these pests inhabit. Treat cracks and crevices
behind and around window and door frames, wall cracks, moldings, shelving, baseboards, pipe openings and all other
cracks. Treat the entire inside surface of doghouses. For Ticks, apply Evergreen Pyrethrum Dust in places where the
insects are traveling or harboring.

Bed bugs:
Apply as a spot treatment or a crack and crevice treatment to harborages, where evidence of bed bugs occurs, including
bed frames, box springs, inside empty dressers, furniture and clothes closets, carpet edges, high and low wall moldings,
behind headboards, pictures, and wallpaper edges. Take bed apart and apply into joints, channels, cracks and crevices
on bed frame, headboards and footboards. Do not make surface applications to mattresses or bedding. Mattress
treatments must be limited to seams, folds, and edges only. Do not treat pillows bedding, or clothing. Remove linens
and wash before reuse. Allow treated mattress to dry thoroughly before remaking bed. Remove all clothes and other
articles from dressers or clothes closets before application.

Ants:
To aid in the control of listed ants, apply Evergreen Pyrethrum Dust at the specified rate. Treat door frames, around window
frames, behind, on and around moldings, cabinets, pipe openings, utility openings, shelves, ant trails, hills, wall voids, cracks
and crevices and other points of entry into premises. Combine interior treatments with exterior perimeter application of
Evergreen Pyrethrum Dust.

Powder Post Beetles*:
To aid in protecting against insect entry. Apply to distribute Evergreen Pyrethrum Dust through insect entry points,
crawl holes into attics and crawl spaces of buildings. Close all vents and blowers so that all target surfaces can be
treated. Contact all wood surfaces. In case of localized infestations, probe to locate galleries and drill holes to inject
Evergreen Pyrethrum Dust into the galleries and void areas. If a heavy infestation is suspected, a conventional,
industry accepted techniques and treatments should be employed.

*The purpose of such applications of Evergreen Pyrethrum Dust is to kill workers or winged reproductive forms that
may be present in treated channels at the time of treatment. Such applications are not a substitute for mechanical
alteration, soil treatment or foundation treatment but are merely a supplement. This product is not for use against
termites. For active termite infestations, use conventional, industry accepted techniques and treatments.

Asian Lady Beetles and Box Elder Bugs:
To control or repel these insects, as well as Clover Mites, Cluster Flies and Elmleaf Beetles, inject Evergreen Pyrethrum
Dust into cracks and crevices and/or voids where these insects may be entering the premise, harboring or hibernating.
Apply in crawl spaces and attics. On building exterior, treat underneath wood fascia, behind siding, cracks around
windows, doors, siding, wall voids, utility pipes and entry points, behind chimneys, around foundations and foundation cracks, patios and deck joints. When treating for Asian Lady Beetles apply Evergreen Pyrethrum Dust in, on and around areas with abrupt color contrasts on buildings (shutters, drainpipes, etc), southwest-facing or sun-exposed sides of buildings, and vertical corners of buildings.

**OUTDOOR USE:**

Evergreen Pyrethrum Dust must come into contact with insects in order to control them. Coverage of the target insect is vital to achieving good performance. Apply Evergreen Pyrethrum Dust to cover upper and lower surfaces of leaves stems and flowers with a thin, even film of dust. Apply when insects or insect damage first appears.

When treating trees, shrubs and similar plants, treat the trunk, the base of the trunk and the critical root zone. Treat the tree crotch, knotholes, wounds and other areas where insects may harbor. Allow dust to settle in treated areas before reentering. Do not water or irrigate immediately following treatment. Do not eat or consume treated plants for 1 year after treatment.

**Phytotoxicity:** Plant safety is an important consideration when using insecticides. It is not possible to evaluate the phytotoxicity of Evergreen Pyrethrum Dust on numerous plant varieties that may react differently to insecticides in different growth stages or under varying environmental conditions. Before making widespread applications of Evergreen Pyrethrum Dust treat a limited number of plants and observe for phytotoxicity over a 10 day period.

**OUTDOOR AREAS:** For use in and around areas:
- Ant Mounds
- Balconies
- Calf Hutches
- Decks
- Drive-In Theaters
- Flea Markets
- Gazebos
- Lanais
- Loading Docks
- Outdoor Eating Facilities
- Sanitary Sewers (Manholes)

</tr>
</tbody>
</table>

**Building Perimeter Treatments:**
To aid in preventing entry and infestations of buildings by listed insects, apply Evergreen Pyrethrum Dust to building exterior as a perimeter treatment in a band extending 12 - 18" along and adjacent to foundation, and to a height of 2 to 3 feet up the side of the building where these pests are active and may find entrance.

**To Kill Insects Harboring in Lawns, Landscaping, and Backyards:**
To aid in the control of listed insects, apply Evergreen Pyrethrum Dust at the specified rate. For best results, mow lawn one to two (1 – 2) days before applying, and remove clippings. Be sure to cover the entire lawn surface where insects are present, or normally frequent. Apply around the base of ornamental plants, shrubs and trees. Do not water or irrigate immediately following application. Keep pets and children out of the treated area until after the dust has settled.

**Kills:** Bed Bugs, Blacklegged Tick Nymphs, Chicken mites, Deer Tick, Face Flies, Fleas, Flies, Northern Fowl Mites, Poultry Lice, and Stable Flies

To aid in the control of listed insects in listed indoor and outdoor animal areas, apply Evergreen Pyrethrum Dust to cracks, crevices, voids, structural joints, floors, walls, wall joints, support beams, trusses, rafters, ceilings, around scales, chutes, gates, and other areas where insects harbor, alight, hide or travel. For Ticks, apply Evergreen Pyrethrum Dust, in areas where they like to harbor such as cracks and crevices.
Apply Evergreen Pyrethrum Dust to exterior of livestock buildings in an 18” band along and adjacent to building foundations, and to a height of 2 to 3 feet up the side of the building where insects are active and may find entrance.

Kills: Bed Bugs, Blacklegged Tick Nymphs, Chicken mites, Deer Tick, Face Flies, Fleas, Flies, Northern Fowl Mites, Poultry Lice, and Stable Flies

**Beef, Dairy, Cattle, Horses and other Livestock:**
Can be used in dust bags, shaker can and mechanical dust applicator to aid in the control or repellency of listed livestock insects.

**Direct Application:** Apply 2 oz. of dust per animal by shaker can, or suitable mechanical dust applicator over the head, neck, shoulders, back and legs.

**Application through Dust Bags:** Place contents of this package in any commercially available dust bag, suspend bag in areas frequented by cattle or in gateways or lanes through which the animals must pass daily for water, feed or minerals. Bags may also be placed in loafing sheds or in front of mineral feeders. For dairy cows, bags may be suspended in the exit through which the cows leave the milking barn. Hang the bags 4 to 6 inches below the back line of the cattle. For reduction of *Face Flies*, bags must be located so animals will be forced to use them daily and hung at a height so that the face is dusted.

**Swine:**
**USE RESTRICTIONS FOR APPLICATION TO SWINE:**
- Do not apply more often than once every 10 days
- Do not ship animals for slaughter within 5 days of treatment.

**Direct Application:** Apply only 1 ounce per head as a uniform coat to the head, shoulder and back by use of a shaker can or suitable mechanical dust applicator. In severe infestation, both animals and the bedding may be treated.

**Poultry:**
To control listed livestock insects, apply at a rate of 1 lb. per 100 birds [10 oz per 60 birds].
STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product in its tightly closed original container, when not in use. Do not store near heat or open flame. Store in a cool, dry, well-ventilated (preferably locked) area that is inaccessible to children and animals, and away from food and pet food.

PESTICIDE DISPOSAL: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty container by shaking and tapping sides and bottom to loosen clinging particles promptly after emptying. Then offer for recycling if available or reconditioning, if appropriate or dispose of in a sanitary landfill or by other procedures approved by State and Local authorities.
