Moles & Voles Stopper

For Organic Growers, Safe to Use

Active Ingredients
- Castor Oil 40.00%
- Bitter Leaf Oil 6.00%
- Black Castor Oil 3.00%

Insert Ingredients
- Fertilizer
- Water

100% SATISFACTION GUARANTEED

Hose End Concentrate Will Cover Approximately 10,000 sq. ft.

This product is highly effective when watered down and leaves no residue on or in the soil. Effective on all mites, moles, vole, and subterranean pests. This product works when used and lasts.

DIRECTIONS
1. Dilute the concentrate with water and pour into a hose-end sprayer.
2. Apply the solution to the affected area. Use a 10:1 ratio of concentrate to water.
3. Apply to soil or at the base of plants.
4. Do not use near water sources.
5. Do not use on plants that are not tolerant to oil-based products.
6. Do not use on plants that are sensitive to heat or cold.
7. Do not use on plants that are growing in a greenhouse or under artificial light.
8. Do not use on plants that are not tolerant to oil-based products.
9. Do not use on plants that are growing in a greenhouse or under artificial light.
10. Do not use on plants that are not tolerant to oil-based products.
11. Do not use on plants that are growing in a greenhouse or under artificial light.
12. Do not use on plants that are not tolerant to oil-based products.
