**KEEPS OUT OF REACH OF CHILDREN**

**CAUTION**

**PRECAUTIONARY STATEMENTS**

**CAUTION**

1. Harmful if swallowed, or inhaled. Causes respiratory irritation. Avoid contact with eyes, skin, or clothing. Keep out of reach of children.

2. Wash hands thoroughly after handling.

**FIRST AID**

1. If inhaled, remove to fresh air. If not breathing, give artificial respiration. If coughing, give oxygen. If breathing stops, call medical care at once.

2. If swallowed, do not induce vomiting. Give 1-2 cups of water if person is conscious. Call medical care at once.

**ENVIRONMENTAL HAZARDS**

1. Do not use on or near trees, shrubs, flowers, or water sources. Do not apply to within 15 feet of rivers, ponds, lakes, streams, reservoirs, marshes, canals, or ditches.

2. Do not apply to within 15 feet of rivers, ponds, lakes, streams, reservoirs, marshes, canals, or ditches.

**STORAGE AND DISPOSAL**

1. Store in original container in a cool, dry place. Do not store in areas where there is freezing or excessive heat. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water, food, or feed by storage or disposal.

**NOTICE**

In case of spill, call your local environmental agency. Use only with care. Keep out of reach of children. Do not feed to livestock or wildlife. Do not contaminate water, food, or feed by storage or disposal. Do not contaminate water, food, or feed by storage or disposal.
Now it's Easy for You to Have a Better Lawn

Start anytime
You can begin the Annual Program anytime of the year. Just check the month and select the appropriate STEP® product listed.

Simple and easy
No more guesswork. You simply apply the right product – one STEP® at a time.

Guaranteed results
Each STEP® product is designed to the specific season to help give you a greener lawn.

Florida Annual Fertilizer Applications
On Centipede lawns, do not exceed rate of 2 lbs of Nitrogen per 1,000 sq. ft. in the north and 3 lbs of Nitrogen per 1,000 sq. ft. in the central and south. On Bahia lawns, do not exceed rate of 3 lbs of Nitrogen per 1,000 sq. ft. in the north, North Florida is north of Ocala. Central Florida is defined as south of Ocala to a line extending from Vero Beach to Tampa. South Florida includes the remaining southern portion of the state.

SPREADER SETTINGS
Spreading Tips: Apply header strips. Then apply product in longest direction of lawn. For best results, use a Scotts® spreader. Covers 5,000 sq. ft. This package applies 2.93 lbs of product per 1,000 sq. ft.

Kills most common lawn weeds
DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
This product applies 1.6 pounds of 2,4-D per acre per application.

APPLICATION
Apply on a calm day. Make sure the grass is wet from dew or sprinkling before applying. This helps particles adhere to weed leaves to produce best results. Set spreader to the setting indicated by the chart above before applying.

WHAT TO AVOID
• Do not allow product to contact people or pets directly or through drift. Keep people and pets off lawn during application. Do not allow people or pets to enter treated areas until dusts have settled.
• Do not apply more than twice per year. A minimum of 30 days between applications is required.
• Do not water or mow lawn for at least 24 hours after application. (Granules must remain on weed leaves for 24 hours to be effective.)
• Do not apply if rain is expected within 24 hours.
• Do not apply if the weather is below 60°F or above 90°F.
• Apply only to grass.
• Do not allow granules or dust to drift onto flowers, shrubs, fruit or vegetables.

KEEP OUT OF REACH OF CHILDREN
CAUTION
PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
CAUTION: Harmful if absorbed through skin. Harmful if inhaled. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Avoid breathing dust. Wear long-sleeved shirt, long pants, shoes and socks and chemical resistant gloves made of any waterproof material.

FIRST AID
If INhaled or SWALLOWED: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-30 minutes. Call a poison control center or physician for additional aid.
If INhaled: Move person to fresh air. Do not give artificial breathing unless absolutely necessary. Call a poison control center or physician for additional aid.
If SKIN CONTACT: Wash thoroughly with soap and water for at least 15 minutes. Remove contaminated clothing. Call a poison control center or physician for additional aid.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Do not apply directly to streams, ponds, lakes, or other water bodies, or areas adjacent to such waters. Do not apply to water-treatment plant or water-related areas such as fish hatcheries, fish farms, or areas used for recreation or drinking water supplies. Do not apply to areas used for recreation or drinking water supplies. Do not contaminate water when disposing of equipment or materials used in or treated with this product.

STORAGE AND DISPOSAL
PESTICIDE STORAGEl Store in a cool, well-lit place. Keep out of reach of children and pets. Do not store fertilizer nearby, as it may cause it to become toxic. Do not contaminate water when disposing of equipment or materials used in or treated with this product.

EPA Reg. No. 538-270
EPA Est. No. 538-DH-1
tCAS #84-75-7
fCAS #16484-77-8

Well-fed lawns are more efficient at using available water.
Feeding with Scotts® helps build a thick lawn with more roots to better absorb water and nutrients than an un-fed lawn. This helps protect your lawn against heat, drought and other stresses.

Grass should not touch the bottom of a drop spreader. Tall grass should be mowed a day or two before application.
Delay application on newly seeded, sodded or sprigged areas until new grass has been mowed four times.
Do not seed, sod or plant grass sprigs until at least one month after using this product.
Do not apply on St. Augustinegrass, Floratam, dichondra, lippia, carpetgrass or bentgrass.
On bahia or centipedegrass lawns, wait until after the second mowing of the year, but not before mid-March.
In fall, DO NOT treat centipedegrass after Oct. 1, nor bahiagrass after Nov. 1.
Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans.
Do not apply when windy. Apply this product directly to your lawn or garden, and sweep any product landing on the driveway, sidewalk, gutter, or street, back onto the treated area. To prevent product run-off, do not over water the treated area to the point of runoff or apply when rain is expected that day.

STEP 2 Weed Control Plus Lawn Fertilizer 28-0-5 F EA3
Guaranteed Analysis
Total nitrogen (N) 28%
- 4% ammoniacal nitrogen 1.7%
- NH₄-N nitrogen
- 7% soluble nitrogen
- 0.2% water insoluble nitrogen
- Sulfur (S) 3%
- 60% Fe combined sulfur (S)

Derived from: Manganese, potassium sulfate, ammonium sulfate, urea
Contains 30% (min) readily available nitrogen, phosphorus and potassium nutrients.
