**INDOORS**

**Carpet Beetles:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

**Cockroaches (Including Adult and Immature Stages of both Non-Resistant and Organophosphates and Carbamates Resistant Strains):** Ants, Boxelder Bugs, Spiders, Centipedes, Crickets, Midges, Flies, Firebrats, Flies, Palmetto Bugs, Silverfish, Sawbugs, Ticks and Waterbugs: Apply as a spot and crack and crevice treatment to areas where these pests crawl and hide, especially in areas where food, water, and other resources are located, such as in and under cabinets, sinks, and storage areas; behind baseboards; around doors and windows; behind and under refrigerators, cabinets, sinks and stoves; the undersides of shelves, drawers, bookcases, and similar areas. Cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Exposed food should be covered or removed. Repeat as necessary but not more than once per week.

**Spiders:** Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and other areas over which these pests may crawl.

**Carpenter Ants:** For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings.

**Flying Insects:** Houseflies, Gnats, Mosquitoes and Small Flying Moths: Spray localized resting areas, such as under eaves, porches, inside surfaces of walls and door frames, surfaces around light fixtures and cords, raised areas, etc., and apply around doors and windows and other areas where these pests may enter premises. Treat baseboards, storage areas and other locations over which these pests may crawl.

**Pantry Pests** - Grain Beetles (Rusty, Merchant and Saw-Toothed), Flour Beetles (Red and Confused), Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Emerald Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles and Tobacco Moths: Treat exposed areas. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow dries prior to replacement of shelf paper, food and utensils. Wash any exposed food handling surfaces and utensils before use.

**OUTDOORS**

Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops. Do not make applications during rain. Do not water the treated area to the point of run-off.

**INSECTICIDES**

**OUTDOORS**

Apply the insecticide sprayer on a one half to one inch spray pattern. Make sure all areas that are treated are covered, approximally 12 inches from surface to be sprayed. Use a hand sprayer at the recommended rate of 1 to 2 gallons per 100 square feet or as directed by the manufacturer. Use a 1/8-inch orifice with a wide cone for larger areas. Use a 1/16-inch orifice with a narrow cone for smaller areas. Use a 1/32-inch orifice with a very fine cone for areas that are difficult to reach or for areas that are very close to shrubs or trees.

Carpenter Ants and Carpenter Bees: (for localized control only) Apply Spectrack® Carpenter Ant & Carpenter Bee Killer to voids or channels in damaged wood of a structure, or to cracks, crevices and spaces in and between wooden portions of a structure or between wood and the foundation. In locations vulnerable to attack such as crawl spaces.

**FLYING INSECTS: Houseflies, Gnats, Mosquitoes and Small Flying Flies:** Spray outside surfaces of windows and door frames and other areas where these pests may enter the home. Also spray localized resting areas, such as under eaves, porches, surfaces around light fixtures and cords, railings, etc. where these insects may rest. Insects coming to rest on treated surfaces will be killed.

**STORAGE AND DISPOSAL**

**Storage:** Store in a cool, dry area away from children and pets and away from heat, sparks and open flame. Product from freezing. If freezing occurs, allow product to thaw and shake well before use. Freezing does not adversely affect this product.

**Container Disposal:** If empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS**

**Hazard to Humans and Domestic Animals**

**CAUTION.** Contact with product may result in transient tingling and redness of the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

In case of Medical emergencies or health safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-917-5438.

**Environmental Hazards**

This product is extremely toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

**Physical or Chemical Hazards**

Do not apply this product in or on electrical equipment due to possibility of shock hazard.

**NOTICE.** To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

Questions & Comments? Call 1-800-917-5438 or visit our website at www.spectrack.com

**Hormigas carpinteras y abejas carpinteras:** (último para el control localizado) Aplique el insecticida para hormigas carpinteras y abejas carpinteras de Spectrack® en espacios vacíos y canales en estructuras de madera dada, o en zonas y regiones y áreas de entre las partes de madera de una estructura o entre la madera y los cimientos, en lugares vulnerables a ataques como los túneles de servicio.
