Splish Splash®
One-Step Disinfectant

Cleaner, Disinfectant, Mildewstat, Virucide®, Deodorizer, Sanitizer (nonfood contact surfaces)
For use in Pedicure Salons, Hospitals, Institutions, Industrial Institutions, Footbath Surfaces, Whirlpool Surfaces, Beauty Salons, Barber Shops, and Homes.

ACTIVE INGREDIENTS:
Octyl Decyl Dimethyl Ammonium Chloride .................................................. 3.2555%
Didecyl Dimethyl Ammonium Chloride .......................................................... 1.6288%
Decyl Dimethyl Ammonium Chloride .............................................................. 1.6288%
Alky C12 C14 C16 C18 C20 C22 C24 C26 Dimethyl benzyl amonium chloride .................................................. 4.3399%
INERT INGREDIENTS: .......................................................................................... 88.1502%
TOTAL: ............................................................................................................. 100.0000%

KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO
See below for additional precautionary statements and first aid statements.

• Splish Splash® One-Step Disinfectant is a concentrated one-step neutral disinfectant that is effective against a broad spectrum of bacteria, is virucidal including HIV-1, HCV and HBV, and inhibits the growth of mold and mildew and their odors when used as directed.
• Splish Splash® One-Step Disinfectant delivers non-acid disinfection performance in an economical concentrate.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if absorbed through skin. Harmful if swallowed. Harmful if inhaled. Avoid breathing spray mist. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. NOTE TO PHYSICIAN: Prolonged mucosal damage may contraindicate the use of gastric lavage.

PHYSICAL OR CHEMICAL HAZARDS
Do not use or store near heat or open flame. Do not mix with oxidizers, arsonic soaps and detergents.

STORAGE AND DISPOSAL
Store in original container in areas inaccessible to small children. Do not store on side. Avoid creating or impacting of wall walls. Do not reuse empty container. Wrap and discard in trash or recycle.

Net Contents:
1 Gallon (3.785 L)

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, and eye coverings.

CLEANING PROCEDURE: Blood and other body fluids containing HIV-1, HBV & HCV must be thoroughly cleaned from surfaces and objects before application of this product.

DISPOSAL OF INFECTIOUS MATERIALS: Blood, body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Leave surface wet for 10 minutes with 1 ounce per gallon (8 milliliters per liter), use solution.

DISINFECTION IN INSTITUTIONS Hospitals and Other Health Care Institutions, AND NON-MEDICAL FACILITIES: At 1 ounce per gallon of water use level, or equivalent use dilution, this product was evaluated with a 10-minute contact time and found to be bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces modified in the presence of 5% organic serum against:

*VIRUCIDAL PERFORMANCE: At 1 ounce per gallon use level (850 ppm active quat), or equivalent use dilution, this product was evaluated with a 10-minute contact time and found to be effective in the presence of 5% blood serum against the following viruses on hard, non-porous surfaces: Chlamydia psittaci, Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex Virus Type 1, Herpes Simplex virus Type 2, Human Coronavirus, HIV-1 (AIDS virus), Influenza A/PR Virus, Influenza A/Brazil, Vaccinia Virus.

FUNGICIDAL PERFORMANCE: When used as directed at 1 fluid ounce per gallon of water, or equivalent use dilution, and a 10-minute contact time, this product is highly effective against the following: Aspergillus niger.

NON-FOOD CONTACT SANITIZING PERFORMANCE: At 1 ounce per gallon use level, this product is an effective one-step sanitizer against the following on hard non-porous environmental surfaces: Klebsiella pneumonia, Staphylococcus aureus.
• Use Splish® Splash® One-Step Disinfectant to disinfect non-porous footwear surfaces
• Use Splish® Splash® One-Step Disinfectant to disinfect non-porous salon/barber tools and instruments: such as combs, clippers, brushes, plastic rollers, trimmers, razors, scissors, blades, tweezers, and baths and manicure/pedicure instruments.

DIRECTIONS FOR USE: It is in violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTION OF HARD, NON-POUROUS SURFACES IN WHIRLPOOL UNITS: After using the whirlpool unit, drain and refill with fresh water to just cover the intake valve. Add 1 ounce of this product for each gallon of fresh water added. Briefly start the pump to circulate the solution. Turn off the pump. Wash down the unit内外, seat of the chair, lift and any/all related equipment with a clean sponge, brush or sponge. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly disinfected, drain the solution from the unit and rinse any/all cleaned surfaces with fresh water. Repeat for heavy soiled units.

DISINFECTION/VIRUCIDE OF HARD, NON-POUROUS SURFACES IN FOOTBATHS: To remove body oils, dead tissue, soil and all other buildups or organic matter on inanimate surfaces after using the footbath, drain the water and thoroughly clean all hard, non-porous surfaces with soap or detergent, then rinse with water. Saturate surfaces with a use solution of 1 oz per gallon of water to exposed surfaces with a cloth, mop, sponge or sprayer. Brush or swab thoroughly and allow solution to stand for 10 minutes. For spray applications, use a coarse spray device. Do not breathe spray. After the unit has been thoroughly disinfected, rinse all cleaned surfaces with fresh water. Do not use equipment until treatment has been absorbed, set or dried.

PREPARATION OF DISINFECTION/FUNGICIDAL/VIRUCIDAL USE SOLUTION: Before using this product, food products and packaging materials must be removed from the room or carefully protected. Apply 1 ounce per gallon of water to disinfest hard, non-porous surfaces with a cloth, mop, sponge or mechanical sprayer device. For heavily soiled areas, a preliminary cleaning is required. For sprayer applications, use a coarse pump or trigger spray device. Spray 6-8 inches from surface. Rub with brush, sponge or cloth. Do not breathe spray. Treated surfaces must remain wet for 10 minutes. After use, all surfaces in the area must be thoroughly rinsed with potable water. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. Note: With spray applications cover or remove all food products. For heavily soiled areas, a preliminary cleaning is required.

DISINFECTION/VIRUCIDE FOR BARBER/SALON TOOLS DIRECTIONS: Immense pre-cleaned salon/barber tools such as: combs, brushes, razors, manicure/pedicure tools, clippers, tweezers, clipper and trimmer blades, cutting implements, plastic rollers, and scissors in a 1 ounce per gallon solution of this product. Completely immerse instruments and tools for at least 10 minutes. Rinse thoroughly and dry before use. Fresh solution must be prepared at least daily or more often if solution becomes cloudy or soiled.

Note: Plastic instruments can remain immersed until ready to use. Stainless steel shears and metal instruments must be removed after 10 minutes, rinsed, dried, and kept in a clean non-contaminated receptacle. Prolonged soaking will cause damage to metal instruments.

CLEANING/DEODORIZING DIRECTIONS: Add 1/4 to 2 ounces per gallon (4-16 milliliters per liter) of water to clean and deodorize windows, mirrors and non-food contact glass surfaces. Apply solution with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. For spray applications, use a coarse spray device. Spray 6-8 inches from surface. Allow to air dry or wipe up excess liquid. Rub with sponge or cloth. Do not breathe spray.

SALON/BARBER INSTRUMENTS AND TOOLS SANITIZER DIRECTIONS: Pre-clean soiled instruments and tools. Completely immerse water safe non-porous instruments and tools in a solution of 1 ounce per gallon or equivalent use dilution, (650 ppm active quat), of water for at least 5 minutes. Rinse thoroughly and dry before use. Prepare a fresh solution at least daily or more often if solution becomes cloudy or soiled.

Note: Plastic instruments may remain immersed until ready to use. Stainless steel shears and metal instruments must be removed after 10 minutes, rinsed, dried, and kept in a clean non-contaminated receptacle. Prolonged soaking may cause damage to metal instruments. This product is not for use on Medical device surfaces.

This product is a Hospital Use Disinfectant at 1 ounce per gallon (4 milliliters per liter), 1:129 dilution, 650 ppm active quat, or equivalent use dilution), modified in the presence of 400 ppm hard water. INSTITUTIONAL DISINFECTANT/DIRECTION Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions: Add 1 ounce per gallon of water (1:129, or equivalent use dilution), to disinfect hard, non-porous surfaces. Apply use solution to hard, inanimate, non-porous surfaces thoroughly wetting surfaces with a cloth, mop, sponge or sprayer. For sprayer applications, use a coarse spray device. Spray 6-8 inches from surface. Rub with brush, sponge or cloth. Do not breathe spray. Treated surfaces must remain wet for 10 minutes. Rinse or allow to air dry. Prepare a fresh solution at least daily or when use solution becomes diluted or soiled.

*VIRUCIDAL PERFORMANCE: At 1 ounce per one gallon or equivalent use dilution, (650 ppm active quat), in the presence of 400 ppm hard water CaCO₃, and 5% serum this product was proven to be effective against (Blaek) Hepatitis B Virus with a contact time of 10 minutes. At 1 ounce per one gallon or equivalent use dilution, (650 ppm active quat), in the presence of 400 ppm hard water CaCO₃, and 5% serum this product was proven to be effective against Business Viral (Clamato) Virus BVK), Surrogate for human Hepatitis C virus, with a contact time of 10 minutes.

*KILLS HIV, HBV AND HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care setting or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1), associated with AIDS, Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).
