Splish Splash

One-Step Disinfectant

Disinfectant, (Nonfood Contact Surface) Sanitizer, Cleaner, Mildewstat, Virucide® for Hospitals, Nursing Homes, Whirlpool Surfaces, Institutional, Industrial, Footbath Surfaces, Beauty Salons, Barber Shops, Pedicure Salons. Effective as a disinfectant in hard water up to 400 ppm hardness (Calculated as CaCO3) in the presence of 5% serum contamination.

ACTIVE INGREDIENTS:
- Octyl Decyl Dimethyl Ammonium Chloride ........................................... 3.255%
- Decyl Decyl Dimethyl Ammonium Chloride ......................................... 1.628%
- Dodecyl Dimethyl Ammonium Chloride ............................................. 1.628%
- Allyl (C5, 50%; C6, 40%; C7, 10%) dimethyl benzyl ammonium chloride .................................................. 4.538%

INSERT INGREDIENTS:............................................. 53.152%

TOTAL:............................................. 100.007%

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame. Do not mix with solvents, aromatic soaps and detergents.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

CONTAINER HANDLING/PESTICIDE STORAGE: Store only in original container. Do not reuse empty container. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

REMOVAL/PESTICIDE: Fill the container’s full with water and recoup. Agitate vigorously and drain for 10 seconds after the water begins to drip. Follow Pesticide Disposal instructions for residue disposal. Repeat two more times. Wrap container and put in trash or offer for recycling if possible.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Quality Agency or the Hazardous Waste Program of the Environmental Protection Agency (EPA) for instructions.

CONTAINER DISPOSAL: Non-contaminated container. Do not reuse the container to hold materials other than pesticides or dilute pesticides. Offer for recycling if available or puncture and dispose in a sanitary landfill, or by other procedures approved by state and local authorities. Follow Pesticide Disposal instructions.

KEEP OUT OF REACH OF CHILDREN

DANGER PELIGRO

See below for additional precautionary statements and first aid statements.

DANGER: IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

PELIGRO: SI NO PUEDE LEER EN INGLÉS, PREGUNTE A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

- Splish Splash® One-Step Disinfectant is a one-step neutral disinfectant that is effective against a broad spectrum of bacteria, is virucidal® including HIV-1, 1-C and HBV, and inhibits the growth of mold and mildew and their odors when used as directed.
- Splish Splash® One-Step Disinfectant delivers non-acid disinfectant performance in an economical concentrate.

First Aid

Wear the protective container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth (including liquid) to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. IN CASE OF FIRE: Use water雾化.}

Net Contents: 1 Gallon (3.785 L)
• Use Splash Splash® One-Step Disinfectant to disinfect non-porous football surfaces.
• Use Splash Splash® One-Step Disinfectant to disinfect non-porous salon/barber tools and instruments: such as combs, clippers, brushes, plastic rollers, trimmers, razors, scissors, blades, tweezers, and utensils and manicure/pedicure instruments.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Before using this product, read product and packaging materials must be removed from the room or carefully protected. Do not use this product to clean or disinfect glassware, utensils, dishes or interior surfaces of appliances.

DISINFECTION/INSULATION/REBRACING/CLOTHED* OF HARM, NON-POROUS SURFACES IN WHIRLPOOL UNITS: After using the whirlpool unit, drain and refill with fresh water to just cover the intake valve. Add 1 ounce of this product for each gallon of freshwater added. Briefly stir the pump to circulate the solution. Turn off the pump. Wash down the unit sides, seat of the chair, lift and any/all other related equipment with a clean swab, brush or sponge. Treated surfaces must remain wet for 10 minutes. After the unit has been thoroughly disinfected, drain the solution from the unit and rinse any/all cleaned surfaces with fresh water. Repeat for heavy soiled units. Prepare a fresh solution at least daily or when use situation becomes visibly soiled.

DISINFECTION/INSULATION/CLOTHED* OF HARM, NON-POROUS SURFACES IN FOOTBALL: To remove body oils, dried tissue, soil and all other buildup or organic matter on football surfaces after using the unit, drain the water and thoroughly clean all hard, non-porous surfaces with soap or detergent, then rinse with water. Submerge with a use solution of 1 per gallon of water on all hard nonporous surfaces with a brush, cloth, mop, sponge, auto scrubber or mechanical spray device. Brush or swab thoroughly. Turn on the unit to circulate the solution for 10 minutes. For spray applications, spray 6-8 inches from surface. Do not breathe spray. After the unit has been thoroughly disinfected, rinse all cleaned surfaces with fresh water. Do not use equipment until treatment has been absorbed, set or dried. Change cloth, sponge or towels frequently to avoid redeposition of soil. Change the solution at least daily or when use situation becomes visibly soiled.

PREPARATION OF DISINFECTION/INSULATION/CLOTHED* USE SOLUTION: For heavily soiled areas, a preliminary cleaning is required. Add 1 ounce of this product per gallon of water to disinfect hard non-porous surfaces. Apply use solution using a brush, cloth, mop, sponge, auto scrubber, mechanical spray device or by immersion so as to thoroughly wet surfaces. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use situation becomes visibly soiled.

DISINFECTION/INSULATION/CLOTHED* FOR BARRIER/SALON TOOLS DIRECTIONS: Immerse pre-cleaned hard nonporous barber/salon tools such as combs, brushes, razors, manicure/pedicure tools, tweezers, clippers and trimmer blades, plastic rollers, scissors and other hard non-porous salon instruments and tools in a 1 ounce of this product per gallon use solution. Completely immerse instruments and tools for at least 10 minutes. Rinse thoroughly and dry before use. Fresh solution must be prepared at least daily or when use situation becomes visibly dirty.

Note: Plastic instruments can remain immersed until ready to use. Stainless steel shears and metal instruments must be removed after 10 minutes, rinsed, dried, and kept in a clean non-contaminated receptacle. Prolonged soaking will cause damage to metal instruments.

MOLD AND MILDEW CONTROL DIRECTIONS: At 1 ounce of this product per 1 gallon, this product will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces. Apply use solution by cloth, sponge, mop, brush, auto scrubber, mechanical spray device, coarse pump or trigger spray device to thoroughly wet all treated surfaces completely. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Saturate surfaces with use solution. Allow surfaces to remain wet for 10 minutes. Allow solution to dry on surface and repeat treatment every seven days or when new growth appears. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use situation becomes visibly dirty.

SALON/BARRIER INSTRUMENTS AND TOOLS SANITIZE DIRECTIONS - Not applicable in CA: Pre-clean salved instruments and tools. Completely immerse water safe hard non-porous instruments and tools in use solution of 1 ounce per 1 gallon of water for at least 5 minutes. Rinse thoroughly and dry before use. Prepare a fresh solution at least daily or when use situation becomes visibly dirty.

Note: Plastic instruments can remain immersed until ready to use. Stainless steel shears and other metal instruments must be removed after 10 minutes, rinsed, dried, and kept in a clean non-contaminated receptacle. Prolonged soaking will cause damage to metal instruments.

This product is not for use on non-sterile Medical device surfaces.

This product is a Hospital Use Disinfectant at 1 ounce per gallon of water, modified in the presence of 400 ppm hard water.

INSTITUTIONAL DISINFECTANT DIRECTIONS (Hospitals, Dental Offices, Nursing Homes, and Other Health Care Institutions): For heavily soiled areas, a preliminary cleaning is required. For disinfecting hard, non-porous surfaces such as floors, walls, countertops, bathing areas, lavatories, tables, chairs, garbage pails, and 1 ounce of this product to 1 gallon of water to disinfect hard, non-porous surfaces. Apply use solution to surfaces, thoroughly wetting surfaces with a brush, cloth, mop, sponge, auto scrubber, mechanical spray device, coarse pump or trigger spray device or by immersion. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Rub with brush, cloth, or sponge. Treated surfaces must remain wet for 10 minutes. Allow to air dry. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use situation becomes visibly dirty.

At 1 ounce per one gallon of water (or equivalent use dilution) (800 ppm active quat) in the presence of 400 ppm hard water (CaCO3) and 5% sodium, this product was proven to be effective against Duck Hepatitis B Virus with a contact time of 10 minutes. At 1 ounce per one gallon of water (or equivalent use dilution) (800 ppm active quat) in the presence of 400 ppm hard water (CaCO3), and 5% sodium, this product was proven to be effective against human Varicella Zoster Virus (VZV), surrogate for human Hepatitis C virus, with a contact time of 10 minutes.
*KILLS HIV, HBV AND HCV ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of hard non-porous surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1), associated with AIDS, Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

PERSONAL PROTECTION: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks, and eye protection.

CLEANING PROCEDURE: Blood and other body fluids containing HIV-1, HBV & HCV must be thoroughly cleaned from hard non-porous surfaces and objects before application of this product.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

CONTACT TIME: Leave hard non-porous surfaces wet for 10 minutes with 1 ounce per gallon solution.

DISINFECTION PERFORMANCE IN INSTITUTIONS (Hospital and Other Health Care Institutions) AND NON-MEDICAL FACILITIES: At 1 ounce per gallon of water use level (or equivalent use dilution) and a 10-minute contact time, this product in bactericidal according to the AOAC Disinfectant Test method on hard non-porous surfaces modified in the presence of 5% organic serum against Pseudomonas aeruginosa, Staphylococcus aureus, Salmonella enterica, Acinetobacter baumannii, Campylobacter jejuni, Enterobacter aerogenes, Enterococcus faecalis, Klebsiella pneumoniae, E. coli, Bacteroides fragilis, Staphylococcus epidermidis, Salmonella typhi, Salmonella typhimurium, Serratia marcescens, Shigella sonnei, Staphylococcus aureus Multiple Drug Resistant, Staphylococcus aureus Methicillin Resistant (MSSA), Staphylococcus aureus Vancomycin-Resistant, Straphylococcus epidermidis.

VIRUCIDAL PERFORMANCE: At 1 ounce per gallon of water use level (850 ppm active quat) or equivalent use dilution this product was examined with a 10-minute contact time and found to be effective in the presence of 5% blood serum against the following viruses on hard, non-porous surfaces: Hepatitis B Virus (HBV), Hepatitis C Virus (HCV), Herpes Simplex Virus Type 1, Herpes Simplex virus Type 2, Human Coronavirus, HIV-1 (AIDS virus), Influenza A Virus, Influenza B Virus (Noel), Rhinovirus.

MILDEW/ALGIC PERFORMANCE: When used as directed at 1 fluid ounce per gallon of water (or equivalent use dilution) and a 10-minute contact time, this product is highly effective against the following: Aspergillus niger.

NON-FOOD CONTACT SANITIZING PERFORMANCE: At 1 ounce per gallon of water use level (850 ppm active quat) and a 5-minute contact time, this product is an effective one-step sanitizer against the following on hard non-porous environmental surfaces: Klebsiella pneumoniae, Staphylococcus aureus.

CLEANING DIRECTIONS: Add 1/4 – 1/2 ounces of this product per 1 gallon of water to clean windows, mirrors, glass and other surfaces. Apply solution with a brush, mop, cloth, sponge, auto scrubber, or trigger spray device, so as to wet all surfaces thoroughly. For spray applications, spray 9-11 inches from surface. Do not apply the spray. Rub with brush, sponge, mop, or cloth. Allow to air dry. Change cloths, sponges or towels frequently to avoid redeposition of dirt.
