WHITNEY FARMS®

SLUG & SNAIL KILLER

For organic gardening
Rain-proof formula

Whitney Farms® Slug & Snail Killer is effective against a wide variety of slugs and snails and will give increasing control as temperatures increase. It contains natural, organic ornamentals, vegetable, fruits, berries, citrus and crop plants. The bait can be scattered on the lawn or on the soil or on the base of plants, flowers, fruit trees or bushes to be protected.

Guaranteed Results: This product contains a unique combination of Synthetic Carbamates and Benzimidazole to intercept slugs and snails migrating toward the berries. Use a rate of 0.5-1 lb per 1000 square feet, or for smaller areas, 0.15 oz or 0.1 teaspoon per square yard. If plants are next to a grassy area, spread the bait between the ornamentals and the grass. Slugs and snails travel underground from the grass to the bait. To prevent any possible adverse reaction, place the bait no lower than 6 inches from areas where children or pets may be able to reach it. Use regular care practices to keep the bait in the soil or mulch and out of reach of children or pets. The bait is effective for 1-2 months. Always follow label instructions when using any pesticide.

How to Apply: Apply a rate of 0.5-1 lb per 1000 square feet, or for smaller areas, 0.15 oz or 0.1 teaspoon per square yard. If plants are next to a grassy area, spread the bait between the ornamentals and the grass. Slugs and snails travel underground from the grass to the bait. To prevent any possible adverse reaction, place the bait no lower than 6 inches from areas where children or pets may be able to reach it. Use regular care practices to keep the bait in the soil or mulch and out of reach of children or pets. The bait is effective for 1-2 months.
