Revus Top®
Fungicide

For control of certain diseases

Active Ingredients:
Mandipropamid (CAS No. 374726-62-2) ................................................. 21.9%
Difenoconazole (CAS No.119446-68-3) ................................................. 21.9%
Other Ingredients: ................................................................... 56.2%
Total: ................................................................................ 100.0%

Contains 2.08 pounds of mandipropamid active ingredient and 2.08 pounds of
difenoconazole active ingredient per gallon

KEEP OUT OF REACH OF CHILDREN.

CAUTION

EPA Reg. 100-1278

All applicable directions, restrictions and precautions on the EPA-registered label
are to be followed. Before using Revus Top as permitted according to this
supplemental label, read and follow all applicable directions, restrictions, and
precautions on the EPA registered label on or attached to the pesticide product
container. This Supplemental Labeling contains revised use instructions and/or
restrictions that may be different from those that appear on the container label.
This Supplemental Labeling must be in the possession of the user at the time of
pesticide application. It is a violation of Federal law to use this product in a
manner inconsistent with its labeling.
## DIRECTIONS FOR USE

<table>
<thead>
<tr>
<th>Crop</th>
<th>Target Disease</th>
<th>Use Rate fl oz Product per Acre</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grapes</td>
<td>Powdery mildew <em>(Uncinula necator)</em></td>
<td>7 oz</td>
<td>For powdery mildew, begin at bud break and apply on a 10-21 day interval, making no more than 2 sequential applications before alternating to a fungicide with a different mode of action.</td>
</tr>
<tr>
<td></td>
<td>Rotbrenner <em>(Pseudopezicula tracheiphila)</em></td>
<td></td>
<td>For black rot, begin when shoot length is 1-3 inches and continue on a 10-day interval.</td>
</tr>
<tr>
<td></td>
<td>Black rot <em>(Guignardia bidwellii)</em></td>
<td></td>
<td>For all other diseases, begin applications prior to disease onset when conditions are conducive for disease. Apply Revus Top on a 10-14 day schedule making no more than 2 sequential applications before alternating to another fungicide with a different mode of action.</td>
</tr>
<tr>
<td></td>
<td>Anthracnose <em>(Elsinoe ampelina)</em></td>
<td></td>
<td>If disease pressure is high, use the shortest interval.</td>
</tr>
<tr>
<td></td>
<td>Leaf blight <em>(Pseudocercospora vitis)</em></td>
<td></td>
<td>The addition of a spreading/penetrating type adjuvant such as a non-ionic surfactant or crop oil concentrate or blend is recommended when applying by ground or air.</td>
</tr>
<tr>
<td></td>
<td>Downy mildew <em>(Plasmopara viticola)</em></td>
<td></td>
<td></td>
</tr>

</table>

**Application:** For best results, sufficient water volume must be used to provide thorough coverage. Revus Top can be applied by either ground or aerial application. A minimum of 15 gal/A for ground applications is recommended. For aerial applications a minimum of 10 gal/A of water is recommended.

**Specific Use Restrictions:**
1) Do not apply more than 28 fl oz/A of Revus Top per crop per season.
2) Do not apply more than 0.46 lb ai/A per season of difenoconazole containing products.
3) Do not apply more than 0.52 lb ai/A per season of mandipropamid containing products.
4) Do not apply within 14 days of harvest (14-day PHI).
