Includes:

- OPEN/CLOSE ALGISTAT
- POOL Breeze Pool Care System Power Shock
- POOL Breeze Pool Care System Metal Removing Agent

For pools up to 20,000 gallons

OPEN/CLOSE ALGISTAT
ACTIVE INGREDIENT: Zinc Sulfate Monohydrate
INERT INGREDIENTS: 
TOTAL:
Contains 35.5% elemental zinc

KEEP OUT OF REACH OF CHILDREN
DANGER

FIRST AID
If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Prophylactic cardiac monitoring may contraindicate the use of cardiac drugs.

In case of emergency call: 1-800-464-6911.

For emergency information on this product, you may also call the National Pesticide Information Center at 1-800-858-7378, 8:30 AM to 4:30 PM Pacific time (PT), seven days a week. During other times, call the Poison Control Center: 1-800-222-1222.

Refer to product label for complete instructions and precautionary statements.

POOL Breeze Pool Care System Power Shock

HOW TO USE: Do not pre-mix this product before adding it to your pool or skimmer. Method for dosing directly into pool:
- Add the recommended dosage of this product during evening hours while the filter pump is running.
- When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool.
- Use entire contents when opened. If any granules settle to the bottom of the pool, use a brush to disperse.

Water Balance: For best product performance, swimmer comfort, and crystal clear water, balance the pH in the range of 7.2 to 7.6. Maintain Total Alkalinity in the range of 60 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a test kit that measures all these ranges. Use Pool Breeze Pool Care Products to make adjustments. Follow label directions for each product. Take a pool water sample to your authorized Pool Breeze dealer regularly for a detailed water analysis. Do not enter pool until the free available chlorine residual is 1-4 ppm for each of the below noted water treatment applications.

OPENING YOUR POOL: For best results, see the "Water Balance" section on this label before treatment. Always adjust and maintain pH in the 7.2 to 7.6 range. Follow "SHOCK TREATMENT/ SUPERCHLORINATION" directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.

SHOCK TREATMENT/ SUPERCHLORINATION: For best results, see "WATER BALANCE" and "HOW TO USE" sections above before treatment. Every 7 days or as necessary to prevent pool problems, shock treat/superchlorinate the pool by adding one bag of this product in 2,000 gallons of water to provide 1 to 10 ppm available chlorine. Additional shock treatments may be required to correct problems which are caused by visible algae, high braking loads, heavy wind and rainstorms. Additional shock treatments may also be required to correct problems such as unpleasant odors and eye irritation. Check the available chlorine with a suitable test kit.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.
- Do not get in eyes, on skin, or clothing. Do not handle with bare hands. Wear safety goggles, face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Store in a cool, dry, well-ventilated area. Keep out of reach of children.

PHYSICAL and CHEMICAL HAZARDS: If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water.
- Do not allow to become wet or damp before use.
- Do not mix this product with a small amount of water. Only add this product directly to your pool.
- Can react with other materials, including other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product.
- Do not allow this product to contact other water treatment products. If used with a skimmer, make sure skimmer is completely free of residue from other water treatment products before putting this product in a skimmer.
- Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.
- Store in a cool, dry, well-ventilated area.
- Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and flammable and burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING":

EMERGENCY HANDLING: In case of contamination or decomposition – Do not reuse container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
OPEN/CLOSE ALGISTAT

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WHY YOU SHOULD USE THIS PRODUCT:
This product will prevent the growth of algae for complete pool enjoyment. This product is a key component of the POOL Breeze System. It is convenient and easy to use. For best results, use with other POOL Breeze pool care products. Take a pool water sample to your authorized pool supply dealer regularly for a detailed water analysis.

HOW TO APPLY:
Add product either directly to pool or through the skimmer while pump is in operation according to the dosage tables below.

Pool Opening
To prevent visible algae from growing in your pool:
1. Add Start-up Dosage (see table below) of this product to establish level needed to begin protecting pool.  
2. Continue with POOL Breeze sanitizer system treatment.
