SPRAY TYPE (cont'd)

FOR CONCENTRATE 
PLUS WATER 
HOSE-END 
SPRAYS

Dilution rate: 1/2 fl. oz. per gallon (1 tablespoon = 1/2 fl. oz.).
1. Pour concentrate into sprayer jar to the required fluid ounce level.
2. Add the appropriate amount of water to the gallons level.
3. Replace sprayer top and shake well before applying.
4. To avoid contact with the treated area, begin by spraying area farthest from faucet walking backwards as you spray.
OR
Pour concentrate into sprayer jar to the required fluid ounce level and follow sprayer label directions for applying.

IMPORTANT - Directions for Storage and Disposal

STORAGE CONDITIONS

Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.

DISPOSAL

If Empty:
• Non-refillable container. Do not refill or reuse container.
• Place empty container in trash or offer for recycling if available.
If Partly Filled:
• Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions.
• Never place unused product down any indoor or outdoor drain.

ENVIRONMENTAL HAZARDS

• This pesticide is toxic to fish and other aquatic organisms.
• This pesticide is highly toxic to bees. Do not apply this product when bees are active.
• To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

READ THE LABEL FIRST!

QUICK FACTS

• Quickly Stops Harmful Insects Before They Do Damage
• Apply with Most Common Garden Sprayers
• Easy, Accurate, Measuring and Mixing

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

BEFORE YOU USE
Read and follow directions when using.
- Apply the product to flowering plants during early morning or late evening, when bees are not present.
- Do not spray the product into fish ponds, pools, streams, or lakes.
- Remove animal feeding dishes prior to application. Keep children and pets away from treated areas until spray has dried.

WHEN TO USE
Spray when insects or damage first appear. For severe infestations, repeat every 7 to 14 days as necessary.

MIXING & MEASURING
SEE SPRAYER TYPES

HOW MUCH TO USE
Dilute 1/2 oz (1 Tbs) per gallon of water

HOW TO SPRAY
Adjust nozzle on your sprayer to desired spray pattern. Hold sprayer about 12 inches from foliage. Spray leaves and tender new shoots.
To kill insects that may hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray droplets, but not dripping.

VEGETABLES

HOW TO APPLY
Spray foliage, tender new shoots and the underside of leaves thoroughly. To kill insects that hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray droplets, but not dripping.
