BOOK INSIDE

LAWN PESTS (3 fl. oz. per gallon of water (covers 500 sq. ft.))

HOW TO APPLY

• Use a hose-end sprayer according to sprayer directions. The goal is to have large droplets and enough spray to penetrate the lawn and reach the soil.
• Do not mow for one day after application.

PEST

Ants, Armyworms, Bluegrass Bill bugs (adults), Chiggers, Chinch bugs, Crickets, Cutworms, Earwigs, Fire Ants, Fleas, Grasshoppers, Hymenoscelis weevils (adults), Japanese Beetles (adults), Mole Crickets, Sod webworms (lawn moths), Ticks (including deer ticks)

Children and pets may re-enter the treated area after spray has dried.

HOW TO ATTACH & SPRAY

1. Connect your garden hose to the bottle. Be sure the blue water control valve on top of the spray nozzle is in the OFF position.
2. Turn on the water at faucet. Twist the small, star-shaped, blue product-control button to align the flat portion with the lock tab. Push the button in to open. Be certain to choose the setting below which describes your use area. (See below)

For Use On Lawn Pests: Turn on water at faucet. Pull the small star-shaped, blue product-control button out until it stops. Twist the blue product control button so that the "C" on the product-control button is at the top of the control valve AND the product control valve is aligned with the flat portion of the lock tab. Push the button in to open. Proceed to step #3

For All Other Uses: Turn on water at faucet. Pull the small star-shaped, blue product-control button out until it stops. Twist the blue product control button so that the "C" on the product-control button is at the top of the control valve AND the product control valve is aligned with the flat portion of the lock tab. Push the button in to open. Proceed to step #3

3. To begin spraying, point nozzle toward the area to be treated and turn the blue water control valve to the ON position. Tab will be horizontal.
4. To stop spraying, turn the blue water control valve on top of the spray nozzle to OFF. TO close, push in the small round button opposite the star-shaped product-control button. Turn off faucet.

HOW TO ATTACH & SPRAY (cont'd)

TIPS FOR APPLYING

1. Extend hose to the farthest area to be treated and work back toward the faucet to avoid walking into wet, treated area.
2. Walk at a steady pace while spraying, using an even sweeping motion, slightly overlapping the treated areas.

IMPORTANT - Directions for Storage and Disposal

Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.

If Empty:
• Non-refillable container. Do not refill or reuse container.
• Place empty container in trash or offer for recycling if available.
If Partly Filled:
• Call your local solid waste agency or toll free 1-877-229-3724 for disposal instructions.
• Never place unused product down any indoor or outdoor drain.

ENVIRONMENTAL HAZARDS

• This pesticide is toxic to fish and other aquatic organisms.
• This pesticide is highly toxic to bees. Do not apply this product when bees are active.
• To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.
