EPA Est. No. 11556-DEU-1
EPA Reg. No. 11556-130

Net Contents: 4 Tubes each 0.135 fl oz (4.0 mL)

Lot No:

DO NOT USE ON CATS
extra large dog – over 55 lbs.

Side Effects
Monitor your dog after application. Side effects, although very rare, may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects (such as lethargy) occur, consult your veterinarian or call 1-800-422-9874.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling.

HAZARDS TO DOMESTIC ANIMALS
For external use only. Do not use on puppies under 7 weeks of age or weighing less than 55 lbs. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing dogs. Individual sensitivities, while rare, may occur after using ANY pesticide product for dogs. If signs persist, or become more severe, consult a veterinarian immediately. If your dog is on medication, consult your veterinarian before using this or any other product.

REstrictions:
• Do not apply more than one (1) tube per treatment, even for larger dogs.
• Do not have contact or allow children to have contact with treated area until completely dry.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOW TO OPEN
1. Be sure tube is at bottom of pouch.
2. Using scissors, cut the pouch across the top and remove tube.

HOW TO APPLY
1. Remove one applicator tube from the package. See "HOW TO OPEN" section.
2. Hold applicator tube in an upright position facing away from you and your pet's face and eyes. Pull cap off tube.
3. Turn the cap around and place other end of cap back on tube.
4. Twist cap to break seal, then remove cap from tube.
5. The dog should be standing for easy application. Apply the entire contents of the tube evenly to three or four spots on the top of the back from the shoulder to the base of the tail. At each spot, part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on the skin. Do not apply an excessive amount of solution at any one spot that could cause some of the solution to run off the side of the dog. Do not get this product in your dog's eyes or allow your dog to ingest this product.
6. Discard empty tube as described in the Storage and Disposal section.
7. Under normal conditions the product is effective for a month. However, in case of severe flea infestation, retreatment may be necessary earlier than four weeks. Do not retreat more often than once every seven (7) days. After flea control is attained, return to a monthly retreatment schedule.

PRODUCT INFORMATION
The successive feeding activity of fleas on dogs frequently elicits a hypersensitivity skin disorder known as flea allergy dermatitis (FAD) or flea bite hypersensitivity. Treatment of dogs with Advantage II Extra Large Dog rapidly kills fleas within 12 hours which may reduce the incidence of this condition.

Advantage II Extra Large Dog kills existing fleas on dogs within 12 hours. Reinfesting fleas are killed within 2 hours with protection against further flea infestation lasting for four (4) weeks. Pre-existing pupae in the environment may continue to emerge for six (6) weeks or longer depending upon the climatic conditions.

Fleas, flea eggs, and flea larvae in the dog’s environment are killed following contact with an Advantage II Extra Large Dog treated dog. Advantage II Extra Large Dog provides multi-stage flea control effectively breaking all flea life-cycle stages for quick and lasting control of flea populations. Advantage II Extra Large Dog kills adult fleas quickly, within 12 hours, inhibits the development of immature flea life stages and prevents them from reaching the biting adult stage.

Advantage II Extra Large Dog kills chewing lice that infest dogs and puppies, and prevents further infestations.

Advantage II Extra Large Dog is waterproof and remains effective following a shampoo treatment, swimming or after exposure to rain or sunlight. Monthly treatments are required for optimal control and prevention of fleas.
