For Use ONLY on Cats 8 Weeks and Older
For Use ONLY on Cats Weighing 5 to 9 lbs.

- Kills all flea life stages
- Controls existing flea infestations on your cat and prevents further infestations
- Kills fleas within 12 hours of application

Active Ingredients: % By Weight
imidacloprid........................................... 9.10%
Pyriproxyfen........................................... 0.46%
Other Ingredients................................. 90.44%
Total.................................................. 100.00%

Net Contents: 6 Tubes, each 0.014 fl oz (0.4 mL)

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for First Aid.
For Directions for Use, and Storage and Disposal, see supplemental labeling inside.

HOW TO APPLY
1. Your cat is experiencing an adverse event, contact your veterinarian, and call 1-800-422-9836.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS:
Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not contaminate food or feed.

HAZARDS TO DOMESTIC ANIMALS
Do not use on kittens under 8 weeks of age. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats. Individual sensitivities, while rare, may occur after using ANY pesticide product for cats. If signs persist, or become more severe, consult a veterinarian immediately. If your cat is on medication, consult your veterinarian before using this product or any other product. If your cat is experiencing an adverse event, contact your veterinarian, and call 1-800-422-9836.

READ THE ENTIRE LABEL BEFORE EACH USE
For the Prevention and Treatment of Flea Infestations
- 1-way flea protection kills adults, larvae and eggs
- Controls existing flea infestations on your cat and prevents further infestations
- Kills fleas within 12 hours of application

FIRST AID
If Swallowed: Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by the poison control center or doctor.

If in Eyes: Hold eye open and flush gently with water for 15 to 20 minutes. Remove contact lenses, if present. If after the first 5 minutes, then continue rinsing eye.

If on Skin: Wash with plenty of soap and water. Treat the patient symptomatically.

NOTE TO PHYSICIAN
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies call 1-800-422-9836. For customer questions call 1-800-356-9585.

Total ......................................... 100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION
See back for First Aid and Precautionary Statements.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOW TO OPEN
1. Being careful not to cut close to the blister cavities, take scissors and cut off one section of the card containing a single tube.
2. Take the separated section, and cut into the blister cavity across the small side, close to the cap of the tube.
3. Peel off the foil, and take out the tube.
4. Repeat steps 1 to 3 for each tube.

HOW TO APPLY
1. Use only on cats and kittens. Do not use on other animals.
2. Remove one applicator tube from the package. See “HOW TO OPEN” section.
3. Hold applicator tube in an upright position.
   Pull cap off tube.
4. Turn the cap around and place other end of cap back on tube.
5. Twist cap to break seal, then remove cap from tube.

6. Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin. Do not get this product in your cat’s eyes or mouth. The product is bitter tasting and salivation may occur for a short time if the cat licks the product immediately after treatment. Treatment at the base of the skull will minimize the opportunity for the cat to lick the product.

7. Discard empty tube as described in Storage and Disposal.

8. Under normal conditions the product is effective for a month. However, in cases of severe flea infestation, retreatment may be necessary earlier than four weeks. Do not retreat more often than once every seven (7) days. After flea control is attained, return to a monthly retreatment schedule.

ADDITIONAL INFORMATION
The successive feeding activity of fleas on cats frequently may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD) or flea bite hypersensitivity. Treatment of cats with Advantage II Small Cat rapidly kills fleas and reduces the incidence of this condition.

Advantage II Small Cat kills the existing fleas on cats within 12 hours. Reinfecting fleas are killed within 2 hours with protection against further flea infestation lasting for up to four (4) weeks. Pre-existing pupae in the environment may continue to emerge for six (6) weeks or longer depending upon the climatic conditions.

Fleas, eggs and larvae in the cat’s surroundings are killed following contact with an Advantage II Small Cat treated cat.

Advantage II Small Cat provides multi-stage flea control effectively breaking all flea life-cycle stages for quick and lasting control of flea populations.

Advantage II Small Cat kills adult fleas quickly, within 12 hours, inhibits the development of immature flea life stages and prevents them from reaching the biting adult stage.

Advantage II Small Cat is waterproof and remains effective following a shampoo treatment or after exposure to rain or sunlight. Apply monthly treatments for optimal control and prevention of fleas.
KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not contaminate feed or food.

HAZARDS TO DOMESTIC ANIMALS
For external use only. Do not use on kittens under 8 weeks of age. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats. Individual sensitivities, while rare, may occur after using ANY pesticide product for cats. If signs persist, or become more severe, consult a veterinarian immediately. If your cat is on medication, consult your veterinarian before using this or any other product. If your cat is experiencing an adverse event, contact your veterinarian and, call 1-800-422-9874.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
Pesticide Storage: Store in a cool, dry place.
Pesticide Disposal and Container Handling: Nonrefillable container.
If empty: Do not reuse this container. Place in trash or offer for recycling if available.
If partly filled: Call your local solid waste agency or 1-800-422-9874 for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITED WARRANTY AND LIMITATION OF DAMAGES
Bayer HealthCare LLC, Animal Health Division warrants that this material conforms to the chemical description on the label. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY, and no agent of Bayer is authorized to do so except in writing with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profits or values, etc.
