READ THE ENTIRE LABEL BEFORE EACH USE
For the Prevention and Treatment of Flea Infestations
- 3-way flea protection kills adults, larvae and eggs
- Controls existing flea infestations on your cat and prevents further infestations
- Kills fleas within 12 hours of application

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS:
Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not contaminate feed or food.

HAZARDS TO DOMESTIC ANIMALS:
For external use only. Do not use on kittens under 8 weeks of age. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats. Individual sensitivities, while rare, may occur after using ANY pesticide product for cats. If signs persist, or become more severe, consult your veterinarian immediately. If your cat is on medication, consult your veterinarian before using this or any other product. If your cat is experiencing an adverse event, contact your veterinarian, and call 1-800-422-9554.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOW TO OPEN
1. Gently roll the sachet to separate each section. Take scissors and cut one section of the card containing a single tube.

Flea Eggs
Flea Larvae
Waterproof

HOTLINE NUMBER

If Swallowed:
- • Call a poison control center or doctor immediately for treatment advice.
- • Have person sip a glass of water if able to swallow.
- • Do not induce vomiting unless told to do so by the poison control center or doctor.
- • Do not give anything by mouth to an unconscious person.

If In Eyes:
- • Have person rinse slowly and gently with water for 15-20 minutes.
- • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- • Call a poison control center or doctor for treatment advice.

If on Skin:
- • Wash with plenty of soap and water.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies call 1-800-422-9554. For customer questions call 1-800-555-6566.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS:
Keep out of reach of children. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. If on skin, wash with plenty of soap and water.

HAZARDS TO DOMESTIC ANIMALS:
For external use only. Do not use on kittens under 8 weeks of age. Do not use on kittens under 8 weeks of age. Individuals of reproductive age should consult their veterinarian before using this product on pregnant or nursing cats. If signs persist or are severe, consult a veterinarian immediately. If any symptoms occur after using this product, consult your veterinarian and call 1-800-422-9874.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOW TO OPEN
1. Remove a cap from the tube. Hold the cap between the thumb and index finger, and snap off the cap. Open the tube by pinching it between your fingers and squeezing it gently. The tube will be opened when you feel a pop. The tube contains a single dose.

HOW TO APPLY
1. Use only on cats and kittens. Do not use on other animals.
2. Apply the tube to the back of the cat's neck. The application site should be free of any debris.
3. Apply the tube to the back of the cat's neck. The application site should be free of any debris.
4. Place the tip of the tube at the base of the neck, and apply the tube in a smooth, downward motion.
5. Do not get the product in your cat's eyes or mouth. If it happens, flush with water for 15 minutes.
6. Do not apply the product more often than once a month.

FIRST AID
If Swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything to an unconscious person.

If In Eyes:
- Wash with plenty of soap and water.
- Hotline Number:
- 1-800-422-9874

NOTE TO PHYSICIAN
Treat the patient symptomatically.

KEEP OUT OF REACH OF CHILDREN

CAUTION
See back for First Aid and Precautionary Statements.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOW TO OPEN
1. Being careful not to cut close to the blister cavities, take scissors and cut off one section of the card containing a single tube.
2. Take the separated section, and cut into the blister cavity across the small side, close to the cap of the tube.
3. Peel off the foil, and take out the tube.
4. Repeat steps 1 to 3 for each tube.

HOW TO APPLY
1. Use only on cats and kittens. Do not use on other animals.
2. Remove one applicator tube from the package. See "HOW TO OPEN" section.
4. Turn the cap around and place other end of cap back on tube.
5. Twist cap to break seal, then remove cap from tube.

6. Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin. Do not get this product in your cat's eyes or mouth. The product is bitter tasting and salivation may occur for a short time if the cat licks the product immediately after treatment. Treatment at the base of the skull will minimize the opportunity for the cat to lick the product.
7. Discard empty tube as described in Storage and Disposal.
8. Under normal conditions the product is effective for a month. However, in cases of severe flea infestation, retreatment may be necessary earlier than four weeks. Do not retreat more often than once every seven (7) days. After flea control is attained, return to a monthly retreatment schedule.

ADDITIONAL INFORMATION
The successive feeding activity of fleas on cats frequently may elicit a hypersensitivity skin disorder known as flea allergy dermatitis (FAD) or flea bite hypersensitivity. Treatment of cats with Advantage II Large Cat rapidly kills fleas and reduces the incidence of this condition.

Advantage II Large Cat kills the existing fleas on cats within 12 hours. Reinfesting fleas are killed within 2 hours with protection against further flea infestation lasting for up to four (4) weeks. Pre-existing pupae in the environment may continue to emerge for six (6) weeks or longer depending upon the climatic conditions.

Fleas, eggs and larvae in the cat's surroundings are killed following contact with an Advantage II Large Cat treated cat.

Advantage II Large Cat provides multi-stage flea control effectively breaking all flea life-cycle stages for quick and lasting control of flea populations.

Advantage II Large Cat kills adult fleas quickly, within 12 hours, inhibits the development of immature flea life stages and prevents them from reaching the biting adult stage.

Advantage II Large Cat is waterproof and remains effective following a shampoo treatment or after exposure to rain or sunlight. Apply monthly treatments for optimal control and prevention of fleas.
KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not contaminate feed or food.

HAZARDS TO DOMESTIC ANIMALS

For external use only. Do not use on kittens under 8 weeks of age. As with any product, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats. Individual sensitivities, while rare, may occur after using ANY pesticide product for cats.

If signs persist, or become more severe, consult a veterinarian immediately. If your cat is on medication, consult your veterinarian before using this or any other product.

If your cat is experiencing an adverse event, contact your veterinarian and, call 1-800-422-9874.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry place.

Pesticide Disposal and Container Handling:

Nonrefillable container.

If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-422-9874 for disposal instructions. Never place unused product down any indoor or outdoor drain.

LIMITED WARRANTY AND LIMITATION OF DAMAGES

Bayer HealthCare LLC, Animal Health Division warrants that this material conforms to the chemical description on the label. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BAYER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY, and no agent of Bayer is authorized to do so except in writing with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profits or values, etc.

FIRST AID

If Swallowed:

• Call a poison control center or doctor immediately for treatment advice.

• Have person sip a glass of water if able to swallow.

• Do not induce vomiting unless told to do so by the poison control center or doctor.

• Do not give anything to an unconscious person.

If In Eyes:

• Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

• Call a poison control center or doctor for treatment advice.

If On Skin

• Wash with plenty of soap and water.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For medical emergencies call 1-800-422-9874. For customer questions call 1-800-255-6826.

NOTE TO PHYSICIAN
