Oriskany, NY 13424

HOW TO USE

• Measure area to be sprayed. Calculate square feet by multiplying length times width. This 32 oz. container will cover 6,600 square feet.
• Make sure sprayer nozzle is in "OFF" position then, connect sprayer to garden hose.
• Turn water on at faucet. Extend hose to the farthest area of lawn to be treated. To begin spraying, push lock tab down and turn knob control lever to "ON" position. The product mixes automatically with the water. Walk at a steady pace while spraying evenly and working back toward the faucet to avoid walking over wet, treated grass.
• To stop spraying, turn knob control lever to the "OFF" position. Turn off water at the faucet. To relieve pressure, turn knob control lever to the "ON" position and point the sprayer away from any desirable plants before disconnecting the spray nozzle from the garden hose.

Apply this product when weeds are small and actively growing.

Can be applied to the following turf grasses: Kentucky bluegrass, Ryegrass (perennial and annual), Tall Fescue, mixtures of cool season grasses, Bermudagrass* (common and hybrid), Zoysiagrass and Buffalograss.

*Do not apply to Bermudagrass lawns when daytime temperatures exceed 80°F. Application to Bermudagrass may cause temporary yellowing or discoloration but full recovery can be expected.

The maximum application rate to turf is 1.0 pound of 2,4-D acid equivalent per acre per application per site. The maximum number of broadcast applications per treatment site is 2 per year.

STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried.

SHAKE WELL BEFORE USING.

PRODUCT FACTS:

What It Does: Kills major broadleaf and troublesome grassy weeds including crabgrass, dandelion, foxtail, chickweed and clover. (see complete listing inside)

Where to Use: On Lawns: Kills the weeds, not the lawn when used as directed. Can be used on Kentucky bluegrass, Ryegrass (perennial and annual), Tall Fescue, Mixtures of cool season grasses, Bermudagrass* (common and hybrid), Zoysiagrass and Buffalograss.

When to Use: Apply when daytime temperatures are below 90°F.

Coverage: This container treats 6,600 sq. ft.

How it Works: This product contains three proven weed killers that target lawn weeds and crabgrass. It enters the lawn weeds through their leaves and moves throughout the plant to kill the weed, roots and all. Approved labels on this label will not be harmed when used as directed.

*Application to Bermudagrass may cause temporary yellowing or discoloration but full recovery can be expected. Do not apply to Bermudagrass when daytime temperatures exceed 85°F.

PRODUCT TIPS AND NOTES

When to apply:
• When weeds are small and actively growing.
• When temperature is below 90°F.
• For Newly Seeded Lawns, do not apply until after the third mowing (approximately 6 weeks after seeding emergence)
• For Newly Sodded, Sprigged or Plugged Lawns, apply 3 to 4 weeks after planting.

Watering:
• Adequate soil moisture and favorable growing conditions enhance the performance of this product.
• Avoid applications of this product when turfgrasses are under stress since injury may result. If dry conditions exist, schedule watering, before and after the application. For best results, delay the second watering until approximately 24 hours after the application.

Mowing:
• Delay mowing 2 days before and until 2 days after the application.
• Do not use clippings from the treated areas as mulch or compost, around flowers, ornamentals, trees, or in vegetable gardens.

Non-Target Plants:
• Do not apply this product to food crops (garden, fruits and vegetables), forage crops, or ornamental plants (including flowers, trees, shrubs, hedges, woody ornamentals, groundcovers or other non-target plants).

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Keep from freezing. Store in original container in a locked storage area inaccessible to children and pets. Avoid contamination of food or feedstuffs.

PESTICIDE DISPOSAL: If empty, Nonrefillable container. Do not reuse or refill container. Place in trash or for return to vendor at the point of purchase. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID

If in eyes: Hold eyes open and irrigation with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue irrigation. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment advice.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Harmful if swallowed. When using this product, wear long-sleeved shirt, long pants, socks, shoes, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. After using this product, rinse glasses before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and shower.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, ditches or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

User Safety Recommendations

- Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on skin, wash immediately with soap and water.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothes.
